Preferred Provider Plan

A PPO Health Plan administered by Blue Cross and Blue Shield of Massachusetts, Inc.

Benefit Description
Welcome!

This benefit booklet provides you with a description of your benefits while you are enrolled under the health plan offered by your plan sponsor. You should read this booklet to familiarize yourself with this health plan’s main provisions and keep it handy for reference.

Blue Cross and Blue Shield has been designated by your plan sponsor to provide administrative services to this health plan, such as claims processing, individual case management, utilization review, quality assurance programs, disease monitoring and management services as selected by the plan sponsor, claim review and other related services, and to arrange for a network of health care providers whose services are covered by this health plan. The Blue Cross and Blue Shield customer service office can help you understand the terms of this health plan and what you need to do to get your maximum benefits.

Blue Cross and Blue Shield has entered into a contract with the plan sponsor to provide these administrative services to this health plan. This contract, including this benefit booklet and any applicable riders, will be governed by and construed according to the laws of the Commonwealth of Massachusetts, except as preempted by federal law.

Blue Cross and Blue Shield of Massachusetts, Inc. (Blue Cross and Blue Shield) is an independent corporation operating under a license from the Blue Cross and Blue Shield Association, an association of independent Blue Cross and Blue Shield Plans (the “Association”), permitting Blue Cross and Blue Shield to use the Blue Cross and Blue Shield Service Marks in the Commonwealth of Massachusetts. Blue Cross and Blue Shield has entered into a contract with the plan sponsor on its own behalf and not as the agent of the Association.
**English:** ATTENTION: If you do not speak English, language assistance services, free of charge, are available to you. Call Member Services at the number on your ID Card (TTY: 711).

**Spanish/Español:** ATENCIÓN: Si habla español, tiene a su disposición servicios gratuitos de asistencia con el idioma. Llame al número de Servicio al Cliente que figura en su tarjeta de identificación (TTY: 711).

Introduction

You are covered under this preferred provider health plan. This health plan is a non-insured, self-funded health benefits plan and is financed by contributions by your group and/or its enrolled employees. For details concerning your group’s contributions, contact your plan sponsor. An organization has been designated by your plan sponsor to provide administrative services to this health plan, such as claims processing, individual case management, utilization review, quality assurance programs, disease monitoring and management services as selected by the plan sponsor, claim review and other related services, and to arrange for a network of health care providers whose services are covered by this health plan. The name and address of this organization is: Blue Cross and Blue Shield of Massachusetts, Inc., 101 Huntington Avenue, Suite 1300, Boston, Massachusetts 02199-7611.

These benefits are provided by your group on a self-funded basis. Blue Cross and Blue Shield is not an underwriter or insurer of the benefits provided by this health plan.

This benefit booklet explains your health care coverage while you are enrolled in this health plan. This benefit booklet also has a Schedule of Benefits which describes the cost share amounts that you must pay for covered services (such as a deductible, or a coinsurance, or a copayment). You should read this benefit booklet and your Schedule of Benefits to become familiar with the key points of your health plan. You should keep them handy so that you can refer to them. The words that are shown in italics have special meanings. These words are explained in Part 2 of this benefit booklet. Blue Cross and Blue Shield and/or your group may change the health care coverage described in this benefit booklet or your Schedule of Benefits. If this is the case, the change is described in a rider. Please keep any riders with your benefit booklet and Schedule of Benefits so that you can refer to them.

This health plan is a preferred provider health plan. This means that you determine the costs that you will pay each time you choose a health care provider to furnish covered services. You will receive the highest level of benefits when you use health care providers who participate in your PPO health care network. These are called your “in-network benefits.” If you choose to use covered health care providers who do not participate in your PPO health care network, you will usually receive a lower level of benefits. In this case, your out-of-pocket costs will be more. These are called your “out-of-network benefits.”

Before using your health care coverage, you should make note of the limits and exclusions. These limits and exclusions are described in this benefit booklet in Parts 3, 4, 5, 6, 7, and 8.

The term “you” refers to any member who has the right to the coverage provided by this health plan—the subscriber or the enrolled spouse or any other enrolled dependent.
Part 1

Member Services

Your Primary Care Provider
As a member of this health plan, you are not required to choose a primary care provider to coordinate the health care benefits described in this benefit booklet. However, your PPO health care network includes physicians who are family or general practitioners, internists, pediatricians, geriatric specialists, nurse practitioners, and physician assistants that you may choose to furnish your primary medical care. You may choose any covered provider to furnish your health care services and supplies. But, your choice is important because it may impact the costs that you pay for some health care services.

How to Determine a Preferred Physician’s Specialty
To determine a preferred physician’s specialty, you can look in your PPO provider directory or use the online “Find a Doctor” physician directory. Some preferred physicians may have more than one specialty. When your health plan has a cost share that differs based on the preferred physician’s specialty type, Blue Cross and Blue Shield will use the primary specialty type as shown in the PPO provider directory to determine your cost share amount. For example, a preferred physician may be primarily a dermatologist but may also be a family practitioner. In this case, your cost share amount is determined based on the “dermatologist” specialty type since it is the preferred physician’s primary specialty as shown in the Blue Cross and Blue Shield PPO provider directory. A preferred physician may change his or her specialty at any time. However, Blue Cross and Blue Shield will change a preferred physician’s specialty only once every two years.

Some preferred physicians and other professional provider types are part of a multi-specialty provider group. When your health plan has a cost share that differs based on the preferred physician’s specialty type, Blue Cross and Blue Shield will apply the lower cost share amount for primary care provider specialty types to the multi-specialty provider groups, unless a different cost share amount is described for multi-specialty provider groups in your Schedule of Benefits and/or riders.

In other states, the local Blue Cross and/or Blue Shield Plan may have established provider specialty types that are not recognized by Blue Cross and Blue Shield. In those cases when a preferred physician’s specialty type or professional provider type is not recognized, Blue Cross and Blue Shield will apply the higher cost share amount for specialists and other non-primary care provider specialty types.

Refer to the Schedule of Benefits for your plan option to see if your cost share amount is based on a preferred physician’s specialty type or other provider type.

Your Health Care Network
This health plan consists of two benefit levels: one for in-network benefits; and one for out-of-network benefits. The costs that you pay for covered services will differ based on the benefit level. To receive the highest benefit level (your in-network benefits), you must obtain your health care services and supplies from providers who participate in your PPO health care network. These health care providers are referred to as “preferred providers.” (See “covered providers” in Part 2.) If you choose to obtain your health care services and supplies from a covered provider who does not participate in this PPO health care network, you will usually receive the lowest benefit level (your out-of-network benefits). See Part 8 in this benefit

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
booklet for the times when in-network benefits will be provided if you receive covered services from a covered provider who is not a preferred provider.

**When You Need Help to Find a Health Care Provider**

There are a few ways for you to find a health care provider who participates in your health care network. At the time you enroll in this health plan, a directory of health care providers for your health plan will be made available to you at no additional cost. To find out if a health care provider participates in your health care network, you can look in this provider directory. Or, you can also use any one of the following ways to find a provider who participates in your health care network. You can:

- Call the Blue Cross and Blue Shield customer service office. The toll free phone number to call is shown on your ID card. They will tell you if a provider is in your health care network. Or, they can help you find a covered provider who is in your local area.
- Call the Blue Cross and Blue Shield Physician Selection Service at 1-800-821-1388.
- Use the Blue Cross and Blue Shield online physician directory (Find a Doctor). To do this, log on to www.bluecrossma.com. This online provider directory will provide you with the most current list of health care providers who participate in your health care network.

If you or your physician cannot find a provider in your health care network who can furnish a medically necessary covered service for you, you can ask Blue Cross and Blue Shield for help. To ask for this help, you can call the Blue Cross and Blue Shield customer service office. They will help you find providers in your health care network who can furnish the covered service.

**When You Are Living or Traveling Outside of Massachusetts**

If you live or are traveling outside of Massachusetts, you can get help to find a health care provider. Just call 1-800-810-BLUE. You can call this phone number 24 hours a day for help to find a health care provider. When you call, you should have your ID card ready. You must be sure to let the representative know that you are looking for health care providers that participate with the BlueCard PPO program. Or, you can also use the internet. To use the online “Blue National Doctor & Hospital Finder,” log on to www.bcbs.com. (For some types of covered providers, a local Blue Cross and/or Blue Shield Plan may not have, in the opinion of Blue Cross and Blue Shield, established an adequate PPO health care network. If this is the case and you obtain covered services from this type of covered provider, the in-network benefit level will be provided for these covered services. See Part 8 in this benefit booklet.) If you are outside the United States, Puerto Rico, and the U.S. Virgin Islands, there are no local Blue Cross and/or Blue Shield Plans. But, you can still call 1-800-810-BLUE. (Or, you can call collect at 1-804-673-1177.) In this case, the Blue Cross Blue Shield Global Core Service Center can help you to access a health care provider. Then, if you are admitted as an inpatient, you should call the service center and the hospital should submit the claim for you. (See Part 9.)

**Your Identification Card**

After you enroll in this health plan, you will receive an identification (ID) card. The ID card will identify you as a person who has the right to coverage in this health plan. The ID card is for identification purposes only. While you are a member, you must show your ID card to your health care provider before you receive covered services. If you lose your ID card or it is stolen, you should contact the Blue Cross and Blue Shield customer service office. They will send you a new card. Or, you can use the Blue Cross and Blue Shield Web site to ask for a new ID card. To use the Blue Cross and Blue Shield online member self service option, you must log on to www.bluecrossma.com. Just follow the steps to ask for a new ID card.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
How to Get Help for Questions

Blue Cross and Blue Shield can help you to understand the terms of your coverage in this health plan. They can also help you to resolve a problem or concern that you may have about your health care benefits. You can call or write to the Blue Cross and Blue Shield customer service office. You can call Monday through Friday from 8:00 a.m. to 8:00 p.m. (Eastern Time). The toll free phone number to call is shown on your ID card. (For TTY, call 711.) Or, you can write to: Blue Cross Blue Shield of Massachusetts, Member Service, P.O. Box 9134, North Quincy, MA 02171-9134. A Blue Cross and Blue Shield customer service representative will work with you to resolve your problem or concern as quickly as possible.

Discrimination Is Against the Law

Blue Cross and Blue Shield complies with applicable federal civil rights laws and does not discriminate on the basis of race; color; national origin; age; disability; sex; sexual orientation; or gender identity. Blue Cross and Blue Shield does not exclude people or treat them differently because of race; color; national origin; age; disability; sex; sexual orientation; or gender identity.

Blue Cross and Blue Shield provides:

- Free aids and services to people with disabilities to communicate effectively with Blue Cross and Blue Shield. These aids and services may include qualified sign language interpreters and written information in other formats (such as in large print).
- Free language services to people whose primary language is not English, such as qualified interpreters and information written in other languages.

If you need these services, call the Blue Cross and Blue Shield customer service office. The toll free phone number to call is shown on your ID card.

If you believe that Blue Cross and Blue Shield has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, sex, sexual orientation, or gender identity, you can file a grievance with the Blue Cross and Blue Shield Civil Rights Coordinator: by mail at Civil Rights Coordinator, Blue Cross Blue Shield of Massachusetts, One Enterprise Drive, Quincy, MA 02171-2126; or by phone at 1-800-472-2689 (TTY: 711); or by fax at 1-617-246-3616; or by email at civilrightscoordinator@bcbsma.com. If you need help filing a grievance, the Civil Rights Coordinator is available to help you. You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights online at ocrportal.hhs.gov; or by mail at U.S. Department of Health and Human Services, 200 Independence Avenue, SW, Room 509F HHH Building, Washington, DC 20201; or by phone at 1-800-368-1019 or 1-800-537-7697 (TDD). Complaint forms are available at www.hhs.gov.

Delivery of Summary of Payments Forms

You will receive a Summary of Health Plan Payments explanation form when you have a cost share (such as a deductible, a copayment, or a coinsurance) that applies for covered services or when Blue Cross and Blue Shield denies coverage for all or part of a health care service or supply. This Summary of Health Plan Payments explanation form will usually be mailed to the member at the address that is on file for the subscriber. However, there are a few additional ways you may choose to receive your Summary of Health Plan Payments explanation forms. Upon submitting your request in writing to Blue Cross and Blue Shield, you may:

- Have the Summary of Health Plan Payments explanation form mailed to the member’s address that is on file with Blue Cross and Blue Shield. (Blue Cross and Blue Shield is not required to maintain more than one alternate address for a member.)
Access the Summary of Health Plan Payments explanations by using the online Blue Cross and Blue Shield member self service option. To check online, log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com. Just follow the steps to sign-up for paperless statements.

When a member selects an alternate method of receipt as described above, this selection will remain in effect until the member submits a request in writing for a different method. Your request for a different method will be completed by Blue Cross and Blue Shield within three working days of receiving the request. If you enroll in another Blue Cross and Blue Shield health plan or a health plan offered by Blue Cross and Blue Shield of Massachusetts HMO Blue, Inc., you should call the Blue Cross and Blue Shield customer service office as this may affect the delivery of your Summary of Health Plan Payments explanation forms.

There may be certain times when you may request not to receive a Summary of Health Plan Payments explanation form for a certain health care service or supply. This request must be made by phone or in writing to Blue Cross and Blue Shield.
Part 2

Explanation of Terms

The following words are shown in italics in this benefit booklet, the *Schedule of Benefits*, and any riders that apply to your coverage in this health plan. The meaning of these words will help you understand your benefits.

**Allowed Charge (Allowed Amount)**

*Blue Cross and Blue Shield* calculates payment of your benefits based on the *allowed charge* (sometimes referred to as the *allowed amount*). This is the maximum amount on which payment is based for covered health care services. This may be called “eligible expense,” “payment allowance,” or “negotiated rate.” The *allowed charge* that *Blue Cross and Blue Shield* uses depends on the type of health care provider that furnishes the *covered service* to you. If your health care provider charges you more than the *allowed amount*, you may have to pay the difference (see below).

- **For Preferred Providers in Massachusetts.** For health care providers who have a preferred provider arrangement (a “PPO payment agreement”) with *Blue Cross and Blue Shield*, the *allowed charge* is based on the provisions of that health care provider’s PPO payment agreement. For *covered services furnished by these health care providers*, you pay only your *deductible* and/or your *copayment* and/or your *coinsurance*, whichever applies. In general, when you share in the cost for your *covered services* (such as a *deductible*, and/or a *copayment* and/or a *coinsurance*), the calculation for the amount that you pay is based on the initial full *allowed charge* for that health care provider (or the actual charge if it is less). This amount that you pay for a *covered service* is generally not subject to future adjustments—up or down—even though the health care provider’s payment may be subject to future adjustments for such things as provider contractual settlements, risk-sharing settlements, and fraud or other operations.

A *preferred provider’s* payment agreement may provide for an *allowed charge* that is more than the provider’s actual charge. For example, a hospital’s *allowed charge* for an *inpatient* admission may be based on a “Diagnosis Related Grouping” (DRG). In this case, the *allowed charge* may be more than the hospital’s actual charge. If this is the case, *Blue Cross and Blue Shield* will calculate your cost share amount based on the lesser amount—this means the *preferred provider’s* actual charge instead of the *allowed charge* will be used to calculate your cost share. The claim payment made to the *preferred provider* will be the full amount of the *allowed charge* less your cost share amount.

When you are enrolled in a limited provider network plan, these *allowed charge* provisions also apply for a health care provider who has a PPO payment agreement but who is not in the limited provider network for your specific plan option. There is one exception. For a health care provider who declined to participate in the limited provider network, see the “For Other Health Care Providers” paragraph on the next page.

- **For Health Care Providers Outside of Massachusetts with a Local Payment Agreement.** For health care providers outside of Massachusetts who have a payment agreement with the local Blue Cross and/or Blue Shield Plan, the *allowed charge* is the “negotiated price” that the local Blue Cross and/or Blue Shield Plan passes on to *Blue Cross and Blue Shield*. (Blue Cross and/or Blue Shield Plan means an independent corporation or affiliate operating under a license from the Blue Cross and Blue Shield Plans.)
In many cases, the negotiated price paid by Blue Cross and Blue Shield to the local Blue Cross and/or Blue Shield Plan is a discount from the provider’s billed charges. However, a number of local Blue Cross and/or Blue Shield Plans can determine only an estimated price at the time your claim is paid. Any such estimated price is based on expected settlements, withholds, any other contingent payment arrangements and non-claims transactions, such as interest on provider advances, with the provider (or with a specific group of providers) of the local Blue Cross and/or Blue Shield Plan in the area where services are received. In addition, some local Blue Cross and/or Blue Shield Plans’ payment agreements with providers do not give a comparable discount for all claims. These local Blue Cross and/or Blue Shield Plans elect to smooth out the effect of their payment agreements with providers by applying an average discount to claims. The price that reflects average savings may result in greater variation (more or less) from the actual price paid than will the estimated price. Local Blue Cross and/or Blue Shield Plans that use these estimated or averaging methods to calculate the negotiated price may prospectively adjust their estimated or average prices to correct for overestimating or underestimating past prices. However, the amount you pay is considered a final price. In most cases for covered services furnished by these health care providers, you pay only your deductible and/or your copayment and/or your coinsurance, whichever applies.

Value-Based Provider Arrangements: A provider’s payment agreement with a local Blue Cross and/or Blue Shield Plan may include: a payment arrangement based on health outcomes; and/or coordination of care features. Under these payment agreements, the providers will be assessed against cost and quality standards. Payments to these providers may include provider incentives, risk sharing, and/or care coordination fees. If you receive covered services from such a provider, you will not have to pay any cost share for these fees, except when a local Blue Cross and/or Blue Shield Plan passes these fees to Blue Cross and Blue Shield through average pricing or fee schedule adjustments for claims for covered services. When this happens, you pay only your deductible and/or your copayment and/or your coinsurance, whichever applies.

- For Other Health Care Providers. For health care providers who do not have a PPO payment agreement with Blue Cross and Blue Shield or for health care providers outside of Massachusetts who do not have a payment agreement with the local Blue Cross and/or Blue Shield Plan, the allowed charge is based on 150% of the Medicare reimbursement rate. If there is no established Medicare reimbursement rate, the allowed charge is based on the amount determined by using current publicly-available data reflecting fees typically reimbursed for the covered service, adjusted for geographic differences. (There may be times when the Medicare reimbursement rate is not available for part of a claim for covered services. When this happens, the allowed charge will be based on the lesser of: the total of the Medicare reimbursement rate for the part for which there is a Medicare reimbursement rate plus the provider’s actual charge for the part for which there is no Medicare reimbursement rate; or the amount determined by using the current publicly-available data described above for all parts of the claim for the covered services.) Blue Cross and Blue Shield has the discretion to determine what current publicly-available data it deems applicable, by using the data maintained by a third party of its choice. In no event will the allowed charge be more than the health care provider’s actual charge. However, the allowed charge may sometimes be less than the health care provider’s actual charge. If this is the case, you will be responsible for the amount of the covered provider’s actual charge that is in excess of the allowed charge (‘balance billing’). This is in addition to your deductible and/or your copayment and/or your coinsurance, whichever applies. For this reason, you may wish to discuss charges with your health care provider before you receive covered services. There are a few exceptions. This provision does not apply to: emergency medical care such as care you receive at an emergency room of a general hospital or by hospital-based emergency medicine physicians, or as an inpatient; ambulance transport for emergency medical care; covered services furnished by hospital-based anesthetists, pathologists, or radiologists; or covered services for...
which there is no established *allowed charge* (such as services received outside the United States). For these *covered services*, the full amount of the health care provider’s actual charge is used to calculate your claim payment.

**Exception for members enrolled in a limited provider network plan:** For a covered health care provider who has PPO payment agreement with Blue Cross and Blue Shield of Massachusetts, Inc., but who has declined to participate in the limited provider network for your specific plan option, *Blue Cross and Blue Shield* uses the health care provider’s actual charge, or a lower charge that has been negotiated with the health care provider, to calculate your claim payment. *For covered services furnished by these health care providers, you pay only your deductible and/or your copayment and/or your coinsurance, whichever applies.*

**Exception:** For health care providers who do not have a payment agreement with *Blue Cross and Blue Shield* or, for health care providers outside of Massachusetts, with the local Blue Cross and/or Blue Shield Plan, there may be times when *Blue Cross and Blue Shield* is able to negotiate a fee with the provider that is less than the *allowed charge* that would have been used to calculate your claim payment (as described in the above paragraph). When this happens, the “negotiated fee” will be used as the *allowed charge* to calculate your claim payment and you will not have to pay the amount of the provider’s charge that is in excess of the negotiated fee. You will only have to pay your *deductible* and/or your *copayment* and/or your *coinsurance*, whichever applies. *Blue Cross and Blue Shield* will send you a written notice about your claim that will tell you how your claim was calculated, including the *allowed charge*, the amount paid to the provider, and the amount you must pay to the provider.

**Pharmacy Providers**

*Blue Cross and Blue Shield* may have payment arrangements with pharmacy providers or pharmacy benefit managers that may, in some cases, result in an *allowed charge* for a covered drug or supply that is higher than the price *Blue Cross and Blue Shield* negotiated with the pharmacy provider or pharmacy benefit manager, or that result in rebates on covered drugs and supplies. Any difference between the *allowed charge* and the negotiated price is used to administer the health plan’s pharmacy program. The cost that you pay for a covered drug or supply is determined based on the *allowed charge* at the time you buy the drug or supply. If you are charged a cost share amount (such as a *deductible*, *copayment*, or *coinsurance*), your payment will be determined based on the *allowed charge*, not the price *Blue Cross and Blue Shield* pays. The cost that you pay will not be adjusted for any later rebates, settlements, or other monies paid to *Blue Cross and Blue Shield* from pharmacy providers or pharmacy benefit managers.

**Appeal**

An *appeal* is something you do if you disagree with a *Blue Cross and Blue Shield* decision to deny a request for coverage of health care services or drugs, or payment, in part or in full, for services or drugs you already received. You may also make an *appeal* if you disagree with a *Blue Cross and Blue Shield* decision to stop coverage for services that you are receiving. For example, you may ask for an *appeal* if *Blue Cross and Blue Shield* doesn’t pay for a service, item, or drug that you think you should be able to receive. Part 10 explains what you have to do to make an *appeal*. It also explains the review process.

**Balance Billing**

There may be certain times when a health care provider will bill you for the difference between the provider’s charge and the *allowed charge*. This is called *balance billing*. A *preferred provider* cannot *balance bill* you for *covered services*. See “*allowed charge*” above for information about the *allowed charge* and the times when a health care provider may *balance bill* you.
**Benefit Limit**
For certain health care services or supplies, there may be day, visit, or dollar benefit maximums that apply to your coverage in this health plan. Your *Schedule of Benefits* and Part 5 of this benefit booklet describe the benefit limits that apply to your coverage. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) Once the amount of the benefits that you have received reaches the benefit limit for a specific covered service, no more benefits will be provided by this health plan for those health care services or supplies. When this happens, you must pay the full amount of the provider’s charges that you incur for those health care services or supplies that are more than the benefit limit. An overall lifetime benefit limit will not apply for coverage in this health plan.

**Blue Cross and Blue Shield**
This term refers to Blue Cross and Blue Shield of Massachusetts, Inc., the organization that has been designated by your plan sponsor to provide administrative services to this health plan, such as claims processing, individual case management, utilization review, quality assurance programs, disease monitoring and management services as selected by the plan sponsor, claim review and other related services, and to arrange for a network of health care providers whose services are covered by this health plan. This includes an employee or designee of Blue Cross and Blue Shield (including another Blue Cross and/or Blue Shield Plan) who is authorized to make decisions or take action called for by this health plan. Blue Cross and Blue Shield has full discretionary authority to interpret this benefit booklet. This includes determining the amount, form, and timing of benefits, conducting medical necessity reviews, and resolving any other matters regarding your right to benefits for covered services as described in this benefit booklet. All determinations by Blue Cross and Blue Shield with respect to benefits under this health plan will be conclusive and binding unless it can be shown that the interpretation or determination was arbitrary and capricious.

**Coinsurance**
For some covered services, you may have to pay a coinsurance. This means the cost that you pay for these covered services (your “cost share amount”) will be calculated as a percentage. When a coinsurance applies to a specific covered service, Blue Cross and Blue Shield will calculate your cost share amount based on the health care provider’s actual charge or the Blue Cross and Blue Shield allowed charge, whichever is less (unless otherwise required by law). Your *Schedule of Benefits* shows the covered services for which you must pay a coinsurance (if there are any). If a coinsurance applies, your *Schedule of Benefits* also shows the percentage that Blue Cross and Blue Shield will use to calculate your cost share amount. (Also refer to riders—if there are any—that apply to your coverage in this health plan.)

**Copayment**
For some covered services, you may have to pay a copayment. This means the cost that you pay for these covered services (your “cost share amount”) is a fixed dollar amount. In most cases, a covered provider will collect the copayment from you at the time he or she furnishes the covered service. However, when the health care provider’s actual charge at the time of providing the covered service is less than your copayment, you pay only that health care provider’s actual charge or the Blue Cross and Blue Shield allowed charge, whichever is less (unless otherwise required by law). Any later charge adjustment—up or down—will not affect your copayment (or the cost you were charged at the time of the service if it was less than the copayment). Your *Schedule of Benefits* shows the amount of your copayment. It also shows those covered services for which you must pay a copayment. (Also refer to riders—if there are any—that apply to your coverage in this health plan.)
**Covered Providers**

To receive the highest benefit level under this health plan (your in-network benefits), you must obtain your health care services and supplies from *covered providers* who participate in your PPO health care network. These health care providers are referred to as “preferred providers.” A *preferred provider* is a health care provider who has a written preferred provider arrangement (a “PPO payment agreement”) with, or that has been designated by, *Blue Cross and Blue Shield* or with a local Blue Cross and/or Blue Shield Plan to provide access to *covered services* to members. You also have the option to seek *covered services* from a *covered provider* who is not a *preferred provider*. (These health care providers are often called “non-preferred providers.”) In this case, you usually receive the lowest benefit level under this health plan (your out-of-network benefits). To find out if a health care provider participates in your PPO health care network, you can look in the provider directory that is provided for your health plan.

The kinds of health care providers that are *covered providers* are those that are listed below in this section.

- **Hospital and Other Covered Facilities.** These kinds of health care providers are: alcohol and drug treatment facilities; ambulatory surgical facilities; chronic disease hospitals (sometimes referred to as a chronic care or long term care hospital for *medically necessary covered services*); community health centers; day care centers; detoxification facilities; free-standing diagnostic imaging facilities; free-standing dialysis facilities; free-standing radiation therapy and chemotherapy facilities; general hospitals; independent labs; limited services clinics; mental health centers; mental hospitals; opioid treatment program providers; rehabilitation hospitals; and skilled nursing facilities.

- **Physician and Other Covered Professional Providers.** These kinds of health care providers are: certified registered nurse anesthetists; chiropractors; clinical specialists in psychiatric and mental health nursing; dentists; licensed alcohol and drug counselor I providers; licensed applied behavioral analysts; licensed audiologists; licensed dietitian nutritionists (or a dietitian or a nutritionist or a dietitian nutritionist who is licensed or certified by the state in which the provider practices); licensed hearing instrument specialists (when hearing aids are covered by your health plan); licensed independent clinical social workers; licensed marriage and family therapists; licensed mental health counselors; licensed speech-language pathologists; nurse midwives; nurse practitioners; occupational therapists; optometrists; physical therapists; physicians; physician assistants; podiatrists; psychiatric nurse practitioners; psychologists; and urgent care centers.

- **Other Covered Health Care Providers.** These kinds of health care providers are: ambulance services; appliance companies; cardiac rehabilitation centers; early intervention providers; home health agencies; home infusion therapy providers; hospice providers; mail service pharmacy; oxygen suppliers; retail pharmacies; and visiting nurse associations.

* A *covered provider* may include other health care providers that are designated for you by *Blue Cross and Blue Shield*.

**Covered Services**

This benefit booklet and your *Schedule of Benefits* describe the health care services and supplies for which *Blue Cross and Blue Shield* will provide coverage for you while you are enrolled in this health plan. (Also refer to *riders*—if there are any—that apply to your coverage in this health plan.) These health care services and supplies are referred to as “*covered services*.” Except as described otherwise in this benefit booklet and your *Schedule of Benefits*, all *covered services* must be *medically necessary* for you, furnished by *covered providers* and, when it is required, approved by *Blue Cross and Blue Shield*.

**WORDS IN ITALICS ARE EXPLAINED IN PART 2.**
Custodial Care

*Custodial care* is a type of care that is not covered by this health plan. *Custodial care* means any of the following:

- Care that is given primarily by medically-trained personnel for a *member* who shows no significant improvement response despite extended or repeated treatment; or
- Care that is given for a condition that is not likely to improve, even if the *member* receives attention of medically-trained personnel; or
- Care that is given for the maintenance and monitoring of an established treatment program, when no other aspects of treatment require an acute level of care; or
- Care that is given for the purpose of meeting personal needs which could be provided by persons without medical training, such as assistance with mobility, dressing, bathing, eating and preparation of special diets, and taking medications.

*Custodial care* does not include the habilitation services that are described as a *covered service* in Part 5.

Deductible

For some *covered services*, you may have to pay a *deductible* before you will receive benefits from this health plan. When your health plan includes a *deductible*, the amount that is put toward your *deductible* is calculated based on the health care provider’s actual charge or the Blue Cross and Blue Shield allowed charge, whichever is less (unless otherwise required by law). Your *Schedule of Benefits* shows the amount of your *deductible* (if there is one). Your *Schedule of Benefits* also shows those *covered services* for which you must pay the *deductible* before you receive benefits. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) When a *deductible* applies, there are some costs that you pay that do not count toward the *deductible*. These costs that do not count toward the *deductible* are:

- Any *copayments* and/or *coinsurance* you pay.
- The costs you pay when your coverage is reduced or denied because you did not follow the requirements of the Blue Cross and Blue Shield *utilization review* program. (See Part 4.)
- The costs you pay that are more than the Blue Cross and Blue Shield *allowed charge*.
- The costs you pay because your health plan has provided all of the benefits it allows for that *covered service*.

(There may be certain times when amounts that you have paid toward a deductible under a prior health plan or contract may be counted toward satisfying your *deductible* under this health plan. To see if this applies to you, you can ask your *plan sponsor*.)

Diagnostic Lab Tests

This health plan provides coverage for *diagnostic lab tests*. These *covered services* include the examination or analysis of tissues, liquids, or wastes from the body. These covered tests also include (but are not limited to): the taking and interpretation of 12-lead electrocardiograms; all standard electroencephalograms; and glycosylated hemoglobin (HgbA1C) tests, urinary protein/microalbumin tests, and lipid profiles to diagnose and treat diabetes.

Diagnostic X-Ray and Other Imaging Tests

This health plan provides coverage for *diagnostic x-rays and other imaging tests*. These *covered services* include: fluoroscopic tests and their interpretation; and the taking and interpretation of roentgenograms and other imaging studies that are recorded as a permanent picture, such as film. Some examples of imaging
tests are: magnetic resonance imaging (MRI); and computerized axial tomography (CT scans). These types of tests also include diagnostic tests that require the use of radioactive drugs.

**Effective Date**

This term is used to mean the date on which your coverage in this health plan starts. Or, it means the date on which a change to your coverage in this health plan takes effect.

**Emergency Medical Care**

As a member of this health plan, you have worldwide coverage for emergency medical care. This is the type of care you need immediately due to the sudden onset of an emergency medical condition. An “emergency medical condition” is a medical condition, whether physical, behavioral, related to substance abuse, or mental, manifesting itself by acute symptoms of sufficient severity (including severe pain) that, in the absence of prompt care, could reasonably be expected by a prudent layperson who has an average knowledge of health and medicine to result in:

- placing your life or health or the health of another (including an unborn child) in serious jeopardy; or
- serious impairment of bodily functions; or
- serious dysfunction of any bodily organ or part; or,
- as determined by a provider with knowledge of your condition, severe pain that cannot be managed without such care.

Some examples of conditions that require emergency medical care are: suspected heart attacks; strokes; poisoning; loss of consciousness; convulsions; and suicide attempts. This also includes treatment of mental conditions when: you are admitted as an inpatient as required under Massachusetts General Laws, Chapter 123, Section 12; you seem very likely to endanger yourself as shown by a serious suicide attempt, a plan to commit suicide, or behavior that shows that you are not able to care for yourself; or you seem very likely to endanger others as shown by an action against another person that could cause serious physical injury or death or by a plan to harm another person.

For purposes of filing a claim or the formal appeal and grievance review (see Parts 9 and 10 of this benefit booklet), Blue Cross and Blue Shield considers “emergency medical care” to constitute “urgent care” as defined under the Employee Retirement Income Security Act of 1974, as amended (ERISA).

**Grievance**

A grievance is a type of oral or written complaint you make about care or service you received from Blue Cross and Blue Shield or from a provider who participates in your health care network. This type of complaint concerns the service you receive or the quality of your care. It does not involve a dispute with a coverage or payment decision. Part 10 explains what you have to do to file a grievance. It also explains the review process.

**Group**

The term “group” refers to the corporation, partnership, individual proprietorship, or other organization that has entered into an agreement under which Blue Cross and Blue Shield provides administrative services for the group’s self-insured health benefits plan. The group is your agent and is not the agent of Blue Cross and Blue Shield.
Inpatient
The term “inpatient” refers to your status as a hospital patient, or as a patient in a health care facility, when you are admitted as a registered bed patient. Even if you stay in the hospital or health care facility overnight, you might still be considered an “outpatient.” Your status is important because it affects how much you will pay for covered services, like x-rays, drugs, lab tests, and physician services. You are an inpatient starting the day you are formally admitted with a doctor’s order as a registered bed patient in a hospital or other health care facility. Note: You are an outpatient when you are kept in a hospital or health care facility solely for observation, even though you use a bed or spend the night. Observation services are to help the doctor decide if a patient needs to be admitted for care or can be discharged. These services may be given in the emergency room or another area of the hospital. If you would normally pay a copayment for outpatient emergency medical care or outpatient medical care services, the copayment will be waived when you are held for observation. But, you must still pay your deductible and/or coinsurance, whichever applies.

Medical Policy
To receive your health plan coverage, your health care services and supplies must meet the criteria for coverage that are defined in each Blue Cross and Blue Shield medical policy that applies. Each health care service or supply must also meet the Blue Cross and Blue Shield medical technology assessment criteria. (See below.) The policies and criteria that will apply are those that are in effect at the time you receive the health care service or supply. These policies are based upon Blue Cross and Blue Shield’s assessment of the quality of the scientific and clinical evidence that is published in peer reviewed journals. Blue Cross and Blue Shield may also consider other clinical sources that are generally accepted and credible. (These sources may include specialty society guidelines, textbooks, and expert opinion.) These medical policies explain Blue Cross and Blue Shield’s criteria for when a health care service or supply is medically necessary, or is not medically necessary, or is investigational. These policies form the basis of coverage decisions. A policy may not exist for each health care service or supply. If this is the case for a certain health care service or supply, Blue Cross and Blue Shield may apply its medical technology assessment criteria and its medical necessity criteria to determine if the health care service or supply is medically necessary or if it is not medically necessary or if it is investigational. To check for a Blue Cross and Blue Shield medical policy, you can go online and log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com. (Your health care provider can also access a policy by using the Blue Cross and Blue Shield provider Web site.) Or, you can call the Blue Cross and Blue Shield customer service office. You can ask them to mail a copy to you.

Medical Technology Assessment Criteria
To receive your health plan coverage, all of your health care services and supplies must conform to Blue Cross and Blue Shield medical technology assessment criteria. These criteria assess whether a technology improves health outcomes such as length of life or ability to function when performing everyday tasks. The medical technology assessment criteria that apply are those that are in effect at the time you receive a health care service or supply. These criteria are:
- The technology must have final approval from the appropriate government regulatory bodies. This criterion applies to drugs, biological products, devices (such as durable medical equipment), and diagnostic services. A drug, biological product, or device must have final approval from the U.S. Food and Drug Administration (FDA). Any approval granted as an interim step in the FDA regulatory process is not sufficient. (The FDA Humanitarian Device Exemption is one example of an interim step.) Except as required by law, this health plan may limit coverage for drugs, biological products, and devices to those specific indications, conditions, and methods of use approved by the FDA.
- The scientific evidence must permit conclusions concerning the effect of the technology on health outcomes. The evidence should consist of well-designed and well-conducted investigations published...
in peer-reviewed English-language journals. The qualities of the body of studies and the consistency of the results are considered in evaluating the evidence. The evidence should demonstrate that the technology can measurably alter the physiological changes related to a disease, injury, illness, or condition. In addition, there should be evidence or a convincing argument based on established medical facts that the measured alterations affect health outcomes. Opinions and evaluations by national medical associations, consensus panels, and other technology evaluation bodies are evaluated according to the scientific quality of the supporting evidence upon which they are based.

- The technology must improve the net health outcome. The technology’s beneficial effects on health outcomes should outweigh any harmful effects on health outcomes.
- The technology must be as beneficial as any established alternatives. The technology should improve the net outcome as much as or more than established alternatives. The technology must be as cost effective as any established alternative that achieves a similar health outcome.
- The improvement must be attainable outside the investigational setting. When used under the usual conditions of medical practice, the technology should be reasonably expected to improve health outcomes to a degree comparable to that published in the medical literature.

**Medically Necessary (Medical Necessity)**

To receive your health plan coverage, all of your health care services and supplies must be medically necessary and appropriate for your health care needs. (The only exceptions are for certain routine and preventive health care services that are covered by this health plan.) *Blue Cross and Blue Shield* has the discretion to determine which health care services and supplies that you receive (or you are planning to receive) are medically necessary and appropriate for coverage. It will do this by referring to the guidelines described below.

All health care services must be required services that a health care provider, using prudent clinical judgment, would provide to a patient in order to prevent or to evaluate or to diagnose or to treat an illness, injury, disease, or its symptoms. And, these health care services must also be:

- Furnished in accordance with generally accepted standards of professional medical practice (as recognized by the relevant medical community);
- Clinically appropriate, in terms of type, frequency, extent, site, and duration; and they must be considered effective for your illness, injury, or disease;
- Consistent with the diagnosis and treatment of your condition and in accordance with *Blue Cross and Blue Shield* medical policies and medical technology assessment criteria;
- Essential to improve your net health outcome and as beneficial as any established alternatives that are covered by *Blue Cross and Blue Shield*;
- Consistent with the level of skilled services that are furnished and furnished in the least intensive type of medical care setting that is required by your medical condition; and
- Not more costly than an alternative service or sequence of services at least as likely to produce the same therapeutic or diagnostic results to diagnose or treat your illness, injury, or disease.

This does not include a service that: is primarily for your convenience or for the convenience of your family or the health care provider; is furnished solely for your religious preference; promotes athletic achievements or a desired lifestyle; improves your appearance or how you feel about your appearance; or increases or enhances your environmental or personal comfort.
**Member**
The term “you” refers to any *member* who has the right to the coverage provided by this health plan. A *member* may be the *subscriber* or his or her enrolled eligible spouse (or former spouse, if applicable) or any other enrolled eligible dependent.

**Mental Conditions**
This health plan provides coverage for treatment of psychiatric illnesses or diseases. These include drug addiction and alcoholism. The illnesses or diseases that qualify as *mental conditions* are listed in the latest edition, at the time you receive treatment, of the American Psychiatric Association’s *Diagnostic and Statistical Manual of Mental Disorders*.

**Mental Health Providers**
This health plan provides coverage for treatment of a *mental condition* when these *covered services* are furnished by a *covered provider* who is a *mental health provider*. These *covered providers* include any one or more of the following kinds of health care providers: alcohol and drug treatment facilities; clinical specialists in psychiatric and mental health nursing; community health centers (that are a part of a general hospital); day care centers; detoxification facilities; general hospitals; licensed alcohol and drug counselor I providers; licensed independent clinical social workers; licensed marriage and family therapists; licensed mental health counselors; mental health centers; mental hospitals; opioid treatment program providers; physicians; psychiatric nurse practitioners; psychologists; and other *mental health providers* that are designated for you by *Blue Cross and Blue Shield*.

**Out-of-Pocket Maximum (Out-of-Pocket Limit)**
Under this health plan, there is a maximum cost share amount that you will have to pay for certain *covered services*. This is referred to as an “out-of-pocket maximum.” The *Schedule of Benefits* will show the amount of your *out-of-pocket maximum* and the time frame for which it applies—such as each calendar year or each *plan year*. It will also describe the cost share amounts you pay that will count toward the *out-of-pocket maximum*. (Also refer to *riders*—if there are any—that apply to your coverage in this health plan.) Once the cost share amounts you have paid that count toward the *out-of-pocket maximum* add up to the *out-of-pocket maximum* amount, you will receive full benefits based on the *Blue Cross and Blue Shield allowed charge* for more of these *covered services* during the rest of the time frame in which the *out-of-pocket maximum* provision applies. There are some costs that you pay that do not count toward the *out-of-pocket maximum*. These costs that do not count toward the *out-of-pocket maximum* are:

- The amount you pay for your health plan.
- The costs you pay when your coverage is reduced or denied because you did not follow the requirements of the *Blue Cross and Blue Shield utilization review program*. (See Part 4.)
- The costs you pay that are more than the *Blue Cross and Blue Shield allowed charge*.
- The costs you pay because your health plan has provided all of the benefits it allows for that *covered service*.

See your *Schedule of Benefits* for any other costs that you may have to pay that do not count toward your *out-of-pocket maximum*.

The *out-of-pocket maximum* is indexed to the average national premium growth and the amount may be increased annually. This means that your *out-of-pocket maximum* amount may increase from time to time, as determined by the *plan sponsor*. The *plan sponsor* will notify you if this happens. However, the amount

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
of your out-of-pocket maximum will never be more than the maximum out-of-pocket maximum amount allowed under applicable law.

**Outpatient**
The term “outpatient” refers to your status as a patient. Your status is important because it affects how much you will pay for covered services. You are an outpatient if you are getting emergency room services, observation services, outpatient day surgery, or other hospital services such as lab tests or x-rays and the doctor has not written an order to admit you to the hospital or health care facility as an inpatient. In these cases, you are an outpatient even if you spend the night at the hospital or health care facility. You are also an outpatient if you are getting covered services at a health center, at a provider’s office, or in other covered outpatient settings, or at home. Note: You are an outpatient when you are kept in a hospital or health care facility solely for observation, even though you use a bed or spend the night. Observation services are to help the doctor decide if a patient needs to be admitted for care or can be discharged. These services may be given in the emergency room or another area of the hospital. If you would normally pay a copayment for outpatient emergency medical care or outpatient medical care services, the copayment will be waived when you are held for observation. But, you must still pay your deductible and/or coinsurance, whichever applies.

**Plan Sponsor**
The plan sponsor is usually your employer and is the same as the plan sponsor designated under the Employee Retirement Income Security Act of 1974, as amended (ERISA). If you are not sure who your plan sponsor is, you should ask the subscriber’s employer.

**Plan Year**
When your health plan includes a deductible and/or an out-of-pocket maximum, these amounts will be calculated based on a calendar year or a plan year basis. Your Schedule of Benefits will show whether a calendar year or a plan year calculation applies to your coverage. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) If a plan year calculation applies, it means the period of time that starts on the original effective date of your group’s coverage and continues for 12 consecutive months or until your group’s renewal date, whichever comes first. A new plan year begins each 12-month period thereafter. If you do not know when your plan year begins, you can ask your plan sponsor.

**Primary Care Provider**
Your PPO health care network includes physicians (who are internists, family practitioners, or pediatricians), nurse practitioners, and physician assistants that you may choose to furnish your primary medical care. These health care providers are generally called primary care providers. As a member of this health plan, you are not required to choose a primary care provider in order for you to receive your health plan coverage. You may choose any covered provider to furnish your health care services and supplies. But, your choice is important because it will impact the costs that you pay for your health care services and supplies. Your costs will be less when you use health care providers who participate in your PPO health care network to furnish your covered services.

**Rider**
Blue Cross and Blue Shield and/or your group may change the terms of your coverage in this health plan. If a material change is made to your coverage in this health plan, it is described in a rider. For example, a rider may change the amount that you must pay for certain services such as the amount of your copayment.
Or, it may add to or limit the benefits provided by this health plan. Your plan sponsor will supply you with riders (if there are any) that apply to your coverage in this health plan. You should keep these riders with this benefit booklet and your Schedule of Benefits so that you can refer to them.

**Room and Board**
For an approved inpatient admission, covered services include room and board. This means your room, meals, and general nursing services while you are an inpatient. This includes hospital services that are furnished in an intensive care or similar unit.

**Schedule of Benefits**
This benefit booklet includes a Schedule of Benefits. It describes the cost share amount that you must pay for each covered service (such as a deductible, or a copayment, or a coinsurance). And, it includes important information about your deductible and out-of-pocket maximum. It also describes benefit limits that apply for certain covered services. Be sure to read all parts of this benefit booklet and your Schedule of Benefits to understand all of your health care benefits. You should read the Schedule of Benefits along with the descriptions of covered services and the limits and exclusions that are described in this benefit booklet.

A rider may change the information that is shown in your Schedule of Benefits. Be sure to read each rider (if there is any).

**Service Area**
The service area is the geographic area in which you may receive all of your health care services and supplies. Your service area includes all counties in the Commonwealth of Massachusetts. In addition, for those members who are living or traveling outside of Massachusetts (but within the United States) this health plan provides access to the local Blue Cross and/or Blue Shield Plan’s PPO health care networks.

**Special Services (Hospital and Facility Ancillary Services)**
When you receive health care services from a hospital or other covered health care facility, covered services include certain services and supplies that the health care facility normally furnishes to its patients for diagnosis or treatment while the patient is in the facility. These special services include (but are not limited to) such things as:

- The use of special rooms. These include: operating rooms; and treatment rooms.
- Tests and exams.
- The use of special equipment in the facility. Also, the services of the people hired by the facility to run the equipment.
- Drugs, medications, solutions, biological preparations, and medical and surgical supplies that are used while you are in the facility.
- Administration of infusions and transfusions and blood processing fees. These do not include the cost of: whole blood; packed red blood cells; blood donor fees; or blood storage fees.
- Internal prostheses (artificial replacements of parts of the body) that are part of an operation. These include things such as: hip joints; skull plates; intraocular lenses that are implanted after corneal transplant, cataract surgery, or other covered eye surgery, when the natural eye lens is replaced; and pacemakers. They do not include things such as: ostomy bags; artificial limbs or eyes; hearing aids; or airplane splints.
Subscriber
The subscriber is the eligible person who signs the enrollment form at the time of enrollment in this health plan.

Urgent Care
This health plan provides coverage for urgent care. This is medical, surgical, or psychiatric care, other than emergency medical care, that you need right away. This is care that you need to prevent serious deterioration of your health when an unforeseen illness or injury occurs. In most cases, urgent care will be brief diagnostic care and treatment to stabilize your condition. (For purposes of filing a claim or a formal appeal or grievance review, Blue Cross and Blue Shield considers “emergency medical care” to constitute “urgent care” as defined under the Employee Retirement Income Security Act of 1974, as amended (ERISA). As used in this benefit booklet, this urgent care term is not the same as the “urgent care” term defined under ERISA.)

Utilization Review
This term refers to the programs that Blue Cross and Blue Shield uses to evaluate the necessity and appropriateness of your health care services and supplies. Blue Cross and Blue Shield uses a set of formal techniques that are designed to monitor the use of, or evaluate the clinical necessity, appropriateness, efficacy or efficiency of health care services, procedures or settings, and drugs. These programs are designed to encourage appropriate care and services (not less care). Blue Cross and Blue Shield understands the need for concern about underutilization. Blue Cross and Blue Shield shares this concern with its members and health care providers. Blue Cross and Blue Shield does not compensate individuals who conduct utilization review activities based on denials. Blue Cross and Blue Shield also does not offer incentives to health care providers to encourage inappropriate denials of care and services. These programs may include any or all of the following:

- Pre-admission review, concurrent review, and discharge planning.
- Pre-approval of some outpatient services, including drugs (whether the drugs are furnished to you by a health care provider along with a covered service or by a pharmacy).
- Drug formulary management (compliance with the Blue Cross and Blue Shield Drug Formulary). This also includes quality care dosing which helps to monitor the quantity and dose of the drug that you receive, based on Food and Drug Administration (FDA) recommendations and clinical information.
- Step therapy to help your health care provider furnish you with the appropriate drug treatment. (With step therapy, before coverage is approved for certain “second step” drugs, it is required that you first try an effective “first step” drug.)
- Post-payment review.
- Individual case management.
You do not need a referral from your health care provider or an approval from Blue Cross and Blue Shield before you obtain emergency medical care. As a member of this health plan, you will receive worldwide emergency coverage. These emergency medical services may include inpatient or outpatient services by health care providers who are qualified to furnish emergency medical care. This includes care that is needed to evaluate or stabilize your emergency medical condition. At the onset of an emergency medical condition that in your judgment requires emergency medical care, you should go to the nearest emergency room. If you need help, dial 911. Or, call your local emergency medical service system phone number. You will not be denied coverage for medical and transportation services that you incur as a result of your emergency medical condition. You usually need emergency medical services because of the sudden onset of an emergency medical condition. An “emergency medical condition” is a medical condition, whether physical, behavioral, related to substance abuse, or mental, manifesting itself by acute symptoms of sufficient severity (including severe pain) that, in the absence of prompt care, could reasonably be expected by a prudent layperson who has an average knowledge of health and medicine to result in: placing your life or health or the health of another (including an unborn child) in serious jeopardy; or serious impairment of bodily functions; or serious dysfunction of any bodily organ or part; or, as determined by a provider with knowledge of your condition, severe pain that cannot be managed without such care. Some examples of conditions that require emergency medical care are: suspected heart attacks; strokes; poisoning; loss of consciousness; convulsions; and suicide attempts.

### Inpatient Emergency Admissions

Your condition may require that you be admitted into a hospital for inpatient emergency medical care. If this happens, you or the admitting facility (or someone on your behalf) must call Blue Cross and Blue Shield within 48 hours of your admission. (A health care facility that participates in your health care network should call Blue Cross and Blue Shield for you.) This call must include: your name; your ID number; the name of the health care facility; the date of admission; and the condition for which you are receiving treatment. This information is required so that Blue Cross and Blue Shield can evaluate and monitor the appropriateness of your inpatient health care services.

### Outpatient Emergency Services

When you have an emergency medical condition, you should receive care at the nearest emergency room. If you receive emergency medical care at an emergency room of a hospital that does not participate in your health care network, your health plan will provide the same coverage that you would otherwise receive if you had gone to a hospital that does participate in your health care network.

### Post-Stabilization Care

After your emergency medical condition has been evaluated and stabilized in the hospital emergency room, you may be ready to go home. Or, you may require further care. But, benefits will be provided only for the health care services and supplies that are covered by your health plan.

- **Admissions from the Emergency Room.** Your condition may require that you be admitted directly from the emergency room into that hospital for inpatient emergency medical care. If this happens,
you or the admitting facility (or someone on your behalf) must call Blue Cross and Blue Shield. (A health care facility that participates in your health care network should call Blue Cross and Blue Shield for you.) This call must be made within 48 hours of your admission. This call must include: your name; your ID number; the name of the health care facility; the date of admission; and the condition for which you are receiving treatment. This is required so that Blue Cross and Blue Shield can evaluate and monitor the appropriateness of your inpatient health care services.

- **Transfers to Other Inpatient Facilities.** Your emergency room provider may recommend your transfer to another facility for inpatient care. If this happens, you or the admitting facility (or someone on your behalf) must call Blue Cross and Blue Shield. (A health care facility that participates in your health care network should call Blue Cross and Blue Shield for you.) This call must be made within 48 hours of your admission. This is required so that Blue Cross and Blue Shield can evaluate the appropriateness of the inpatient health care services.

- **Outpatient Follow Up Care.** Your emergency room provider may recommend that you have outpatient follow up care. If this happens, the emergency room provider must call Blue Cross and Blue Shield to obtain an approval when the type of care that you need requires an approval from Blue Cross and Blue Shield. (See Part 4.) If you need to have more follow up care and an approval is required, you or your health care provider must obtain the approval from Blue Cross and Blue Shield.
Part 4

Utilization Review Requirements

To receive all of the coverage provided by your health plan, you must follow all of the requirements described in this section. **Your coverage may be denied if you do not follow these requirements.**

**Pre-Service Approval Requirements**

There are certain health care services or supplies that must be approved for you by *Blue Cross and Blue Shield*. A health care provider who participates in your health care network should request a pre-service approval on your behalf. (You must request this review if the health care provider does not start the process for you.) For the pre-service review, *Blue Cross and Blue Shield* will consider your health care provider to be your authorized representative. *Blue Cross and Blue Shield* will tell you and your health care provider if coverage for a proposed service has been approved or if coverage has been denied. To check on the status of a request or to check for the outcome of a utilization review decision, you can call your health care provider or the *Blue Cross and Blue Shield* customer service office. The toll free phone number to call is shown on your ID card. Remember, you should check with your health care provider before you receive services or supplies to make sure that your health care provider has received approval from *Blue Cross and Blue Shield* when a pre-service approval is required. Otherwise, you will have to pay all charges for those health care services and/or supplies.

(The requirements described below in this part do not apply to your covered services when Medicare is the primary coverage.)

**Referrals for Specialty Care**

You do not need a referral from your primary care provider or your attending physician in order for you to receive your health plan coverage. But, there are certain health care services and supplies that must be approved by *Blue Cross and Blue Shield* before you receive them. (See below.)

**Pre-Service Review for Outpatient Services**

To receive all of your coverage for certain outpatient health services and supplies, you must obtain a pre-service approval from *Blue Cross and Blue Shield*. A provider who participates in your health care network will request this approval on your behalf. During the pre-service review, *Blue Cross and Blue Shield* will determine if your proposed health care services or supplies should be covered as medically necessary for your condition. *Blue Cross and Blue Shield* will make this decision within two working days of the date that it receives all of the needed information from your health care provider.

You must receive a pre-service approval from *Blue Cross and Blue Shield* for:

- Certain outpatient specialty care, procedures, services, and supplies. Some examples of services that may require prior approval include: some types of surgery; non-emergency ambulance; and certain outpatient treatment plans that require a review due to factors such as (but not limited to) the variability in length of treatment, the difficulty in predicting a standard length of treatment, the risk factors and provider discretion in determining treatment intensity compared to symptoms, the difficulty in measuring outcomes, or the variability in cost and quality. **To find out if a treatment, service, or supply needs a pre-service review, you can check with your health care provider. You can also find out by calling the Blue Cross and Blue Shield customer service office or using the online Blue Cross and Blue Shield member self service option. To check online, log on to the**
Part 4 – **Utilization Review Requirements** (continued)

*Blue Cross and Blue Shield* Web site at www.bluecrossma.com. Just follow the steps to check your benefits.

- Infertility treatment.
- Certain prescription drugs that you buy from a pharmacy or that are administered to you by a non-pharmacy health care provider during a covered visit. For example, you receive an injection or an infusion of a drug in a physician’s office or in a hospital outpatient setting. A key part of this pre-service approval process is the step therapy program. It helps your health care provider provide you with the appropriate drug treatment. To find out if your prescription drug requires a prior approval from *Blue Cross and Blue Shield*, you can call the *Blue Cross and Blue Shield* customer service office.

From time to time, *Blue Cross and Blue Shield* may change the list of health care services and supplies that require a prior approval. To check these requirements, you can use the online *Blue Cross and Blue Shield* member self service option. To do this, log on to the *Blue Cross and Blue Shield* Web site at www.bluecrossma.com. When a material change is made to these requirements, *Blue Cross and Blue Shield* will let the subscriber’s group on your behalf know about the change at least 60 days before the change becomes effective.

**Missing Information**

In some cases, *Blue Cross and Blue Shield* will need more information or records to determine if your proposed health care services or supplies should be covered as *medically necessary* to treat your condition. For example, *Blue Cross and Blue Shield* may ask for the results of a face-to-face clinical evaluation or of a second opinion. If *Blue Cross and Blue Shield* does need more information, *Blue Cross and Blue Shield* will ask for this missing information or records within 15 calendar days of the date that it received your health care provider’s request for pre-service approval. The information or records that *Blue Cross and Blue Shield* asks for must be provided to *Blue Cross and Blue Shield* within 45 calendar days of the request. If this information or these records are not provided to *Blue Cross and Blue Shield* within these 45 calendar days, your proposed coverage will be denied. If *Blue Cross and Blue Shield* receives this information or these records within this time frame, *Blue Cross and Blue Shield* will make a decision within two working days of the date it is received.

**Coverage Approval**

If through the pre-service review *Blue Cross and Blue Shield* determines that your proposed health care service, supply, or course of treatment should be covered as *medically necessary* for your condition, *Blue Cross and Blue Shield* will call the health care provider. *Blue Cross and Blue Shield* will make this phone call within 24 hours of the time the decision is made to let the health care provider know of the coverage approval status of the review. Then, within two working days of that phone call, *Blue Cross and Blue Shield* will send a written (or electronic) notice to you and to the health care provider. This notice will let you know (and confirm) that your coverage was approved.

**Coverage Denial**

If through the pre-service review *Blue Cross and Blue Shield* determines that your proposed health care service, supply, or course of treatment should not be covered as *medically necessary* for your condition, *Blue Cross and Blue Shield* will call the health care provider. *Blue Cross and Blue Shield* will make this phone call within 24 hours of the time the decision is made to let the health care provider know that the coverage was denied and to discuss alternative treatment. Then, within one working day of that phone call, *Blue Cross and Blue Shield* will send a written (or electronic) notice to you and to the health care provider. This notice will explain *Blue Cross and Blue Shield’s* coverage decision. This notice will include: information related to the details about your coverage denial; the reasons that *Blue Cross and Blue Shield* has denied the request and the applicable terms of your coverage in this health plan; the specific medical
and scientific reasons for which Blue Cross and Blue Shield has denied the request; any alternative treatment or health care services and supplies that would be covered; Blue Cross and Blue Shield clinical guidelines that apply and were used and any review criteria; and the review process and your right to pursue legal action.

Reconsideration of Adverse Determination
Your health care provider may ask that Blue Cross and Blue Shield reconsider its decision when Blue Cross and Blue Shield has determined that your proposed health care service, supply, or course of treatment is not medically necessary for your condition. In this case, Blue Cross and Blue Shield will arrange for the decision to be reviewed by a clinical peer reviewer. This review will be held between your health care provider and the clinical peer reviewer. And, it will be held within one working day of the date that your health care provider asks for Blue Cross and Blue Shield’s decision to be reconsidered. If the initial decision is not reversed, you (or the health care provider on your behalf) may ask for a formal review. The process to ask for a formal review is described in Part 10 of this benefit booklet. You may request a formal review even if your health care provider has not asked that the Blue Cross and Blue Shield decision be reconsidered.

Pre-Admission Review
Before you go into a hospital or other covered health care facility for inpatient care, your health care provider must obtain an approval from Blue Cross and Blue Shield in order for your care to be covered by this health plan. (This does not apply to your admission if it is for emergency medical care or for maternity care.) Blue Cross and Blue Shield will determine if the health care setting is suitable to treat your condition. Blue Cross and Blue Shield will make this decision within two working days of the date that it receives all of the needed information from your health care provider.

Exception: If your admission is for substance abuse treatment in a hospital or other covered health care facility that is certified or licensed by the Massachusetts Department of Public Health, prior approval from Blue Cross and Blue Shield will not be required. For an admission in one of these health care facilities, coverage will be provided for medically necessary acute treatment services and clinical stabilization services for up to a total of 14 days without prior approval, as long as the health care facility notifies Blue Cross and Blue Shield and provides the initial treatment plan within 48 hours of your admission. Concurrent Review (see page 24) will start on or after day seven of your admission. For all other admissions (except as described in the paragraph above), you must have prior approval from Blue Cross and Blue Shield in order for your inpatient care to be covered by this health plan.

Missing Information
In some cases, Blue Cross and Blue Shield will need more information or records to determine if the health care setting is suitable to treat your condition. For example, Blue Cross and Blue Shield may ask for the results of a face-to-face clinical evaluation or of a second opinion. If Blue Cross and Blue Shield does need more information, Blue Cross and Blue Shield will ask for this missing information or records within 15 calendar days of the date that it received your health care provider’s request for approval. The information or records that Blue Cross and Blue Shield asks for must be provided to Blue Cross and Blue Shield within 45 calendar days of the request. If this information or these records are not provided to Blue Cross and Blue Shield within these 45 calendar days, your proposed coverage will be denied. If Blue Cross and Blue Shield receives this information or records within this time frame, Blue Cross and Blue Shield will make a decision within two working days of the date it is received.

Coverage Approval
If Blue Cross and Blue Shield determines that the proposed setting for your health care is suitable, Blue Cross and Blue Shield will call the health care facility. Blue Cross and Blue Shield will make this phone call within 24 hours of the time the decision is made to let the facility know of the coverage approval status.
of the pre-admission review. Then, within two working days of that phone call, *Blue Cross and Blue Shield* will send a written (or electronic) notice to you and to the facility. This notice will let you know (and confirm) that your coverage was approved.

**Coverage Denial**

If *Blue Cross and Blue Shield* determines that the proposed setting is not *medically necessary* for your condition, *Blue Cross and Blue Shield* will call the health care facility. *Blue Cross and Blue Shield* will make this phone call within 24 hours of the time the decision is made to let the facility know that the coverage was denied and to discuss alternative treatment. Then, within one working day of that phone call, *Blue Cross and Blue Shield* will send a written (or electronic) notice to you and to the facility. This notice will explain *Blue Cross and Blue Shield’s* coverage decision. This notice will include: information related to the details about your coverage denial; the reasons that *Blue Cross and Blue Shield* has denied the request and the applicable terms of your coverage in this health plan; the specific medical and scientific reasons for which *Blue Cross and Blue Shield* has denied the request; any alternative treatment or health care services and supplies that would be covered; *Blue Cross and Blue Shield* clinical guidelines that apply and were used and any review criteria; and the review process and your right to pursue legal action.

**Reconsideration of Adverse Determination**

Your health care provider may ask that *Blue Cross and Blue Shield* reconsider its decision when *Blue Cross and Blue Shield* has determined that *inpatient* coverage is not *medically necessary* for your condition. In this case, *Blue Cross and Blue Shield* will arrange for the decision to be reviewed by a clinical peer reviewer. This review will be held between your health care provider and the clinical peer reviewer. And, it will be held within one working day of the date that your health care provider asks for the *Blue Cross and Blue Shield* decision to be reconsidered. If the initial decision is not reversed, you (or the health care provider on your behalf) may ask for a formal review. The process to ask for a formal review is described in Part 10 of this benefit booklet. You may request a formal review even if your health care provider has not asked that the *Blue Cross and Blue Shield* decision be reconsidered.

**Concurrent Review and Discharge Planning**

Concurrent Review means that while you are an *inpatient*, *Blue Cross and Blue Shield* will monitor and review the health care services you receive to make sure you still need *inpatient* coverage in that facility. In some cases, *Blue Cross and Blue Shield* may determine upon review that you will need to continue *inpatient* coverage in that health care facility beyond the number of days first thought to be required for your condition. When *Blue Cross and Blue Shield* makes this decision (within one working day of receiving all necessary information), *Blue Cross and Blue Shield* will let the health care facility know of the coverage approval status of the review. *Blue Cross and Blue Shield* will do this within one working day of making this decision. *Blue Cross and Blue Shield* will also send a written (or electronic) notice to you and to the facility to explain the decision. This notice will be sent within one working day of that first notice. This notice will include: the number of additional days that are being approved for coverage (or the next review date); the new total number of approved days or services; and the date the approved services will begin.

In other cases, based on a *medical necessity* determination, *Blue Cross and Blue Shield* may determine that you no longer need *inpatient* coverage in that health care facility. Or, you may no longer need *inpatient* coverage at all. *Blue Cross and Blue Shield* will make this decision within one working day of receiving all necessary information. *Blue Cross and Blue Shield* will call the health care facility to let them know of this decision. *Blue Cross and Blue Shield* will discuss plans for continued coverage in a health care setting that better meets your needs. This phone call will be made within 24 hours of the *Blue Cross and Blue Shield* coverage decision. For example, your condition may no longer require *inpatient* coverage in a hospital, but it still may require skilled nursing coverage. If this is the case, your physician may decide to transfer you to a skilled nursing facility. Any proposed plans will be discussed with you by your physician. All
arrangements for discharge planning will be confirmed in writing with you. *Blue Cross and Blue Shield* will send this written (or electronic) notice to you and to the facility within one working day of that phone call to the facility. You may choose to stay in the health care facility after you have been told by your health care provider or *Blue Cross and Blue Shield* that inpatient coverage is no longer *medically necessary*. But, if you do, this health plan will not provide any more coverage. You must pay all costs for the rest of that *inpatient* stay. This starts from the date the written notice is sent to you from *Blue Cross and Blue Shield*.

**Reconsideration of Adverse Determination**

Your health care provider may ask that *Blue Cross and Blue Shield* reconsider its decision when *Blue Cross and Blue Shield* has determined that continued *inpatient* coverage is not *medically necessary* for your condition. In this case, *Blue Cross and Blue Shield* will arrange for the decision to be reviewed by a clinical peer reviewer. This review will be held between your health care provider and the clinical peer reviewer. And, it will be held within one working day of the date that your health care provider asks for the *Blue Cross and Blue Shield* decision to be reconsidered. If the initial decision is not reversed, you (or the health care provider on your behalf) may ask for a formal review. The process to ask for a formal review is described in Part 10 of this benefit booklet. You may request a formal review even if your health care provider has not asked that the *Blue Cross and Blue Shield* decision be reconsidered.

**Individual Case Management**

Individual Case Management is a flexible program for managing your benefits in some situations. Through this program, *Blue Cross and Blue Shield* works with your health care providers to make sure that you get *medically necessary* services in the least intensive setting that meets your needs. Under this program, coverage may be approved for services that are in addition to those that are already covered by this health plan. For example, *Blue Cross and Blue Shield* may approve these services to:

- Shorten an *inpatient* stay. This may occur by sending a *member* home or to a less intensive setting to continue treatment.
- Direct a *member* to a less costly setting when an *inpatient* stay has been proposed.
- Prevent future *inpatient* stays. This may occur by providing coverage for *outpatient* care instead.

*Blue Cross and Blue Shield* may, in some situations, present a specific alternative treatment plan to you and your attending physician. This treatment plan will be one that is *medically necessary* for you. *Blue Cross and Blue Shield* will need the full cooperation of everyone involved. This includes: the patient (or the guardian); the hospital; the attending physician; and the proposed health care provider. *Blue Cross and Blue Shield* may require that there be a written agreement between the patient (or the patient’s family or guardian) and *Blue Cross and Blue Shield*. *Blue Cross and Blue Shield* may also require that there be an agreement between the health care provider and *Blue Cross and Blue Shield* to furnish the services that are approved through this alternative treatment plan.
Part 5

Covered Services

You have the right to the coverage described in this part, except as limited or excluded in other parts of this benefit booklet. Also, be sure to read your Schedule of Benefits. It describes the cost share amounts that you must pay for covered services. And, it shows the benefit limits that apply to specific covered services. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) Your coverage in this health plan consists of two benefit levels: one for in-network benefits; and one for out-of-network benefits. This means that your cost share amount differs based on the benefit level of the covered services that you receive. The highest benefit level is provided when you receive covered services from a covered provider who participates in your PPO health care network. This is your in-network benefit level. The lowest benefit level is usually provided when you receive covered services from a covered provider who does not participate in your PPO health care network. This is your out-of-network benefit level. Your Schedule of Benefits shows the cost share amounts that you will pay for in-network benefits and for out-of-network benefits.

Admissions for Inpatient Medical and Surgical Care

General and Chronic Disease Hospital Admissions

Except for an admission for emergency medical care or for maternity care, you and your health care provider must receive approval from Blue Cross and Blue Shield as outlined in this benefit booklet before you enter a general or chronic disease hospital for inpatient care. Blue Cross and Blue Shield will let you and your health care provider know when your coverage is approved. (See Part 4.) When inpatient care is approved by Blue Cross and Blue Shield or it is for inpatient emergency medical care, this health plan provides coverage for as many days as are medically necessary for you. (For maternity care, see page 36.) This coverage includes:

- Semiprivate room and board; and special services that are furnished for you by the hospital.
- Surgery that is performed for you by a physician; or a podiatrist; or a nurse practitioner; or a dentist. This may also include the services of an assistant surgeon (physician) when Blue Cross and Blue Shield decides that an assistant is needed. These covered services include (but are not limited to):
  - Reconstructive surgery. This means non-dental surgery that is meant to improve or give you back bodily function or to correct a functional physical impairment that was caused by: a birth defect; a prior surgical procedure or disease; or an accidental injury. It also includes surgery that is done to correct a deformity or disfigurement that was caused by an accidental injury. This coverage includes surgery to correct or repair disturbances of body composition caused by HIV associated lipodystrophy syndrome, when the covered provider has determined that this treatment is necessary to correct, repair, or lessen the effects of HIV associated lipodystrophy syndrome. These services include, but are not limited to: reconstructive surgery, such as suction-assisted lipectomy; other restorative procedures; and dermal injections or fillers for reversal of facial lipoatrophy syndrome.

Women’s Health and Cancer Rights

As required by federal law, this coverage includes breast reconstruction in connection with a mastectomy. This health plan provides coverage for: all stages of reconstruction of the breast on which the mastectomy was performed; surgery and reconstruction of the other breast to produce a symmetrical appearance; and prostheses and treatment of physical complications at all stages of
Part 5 – **Covered Services** (continued)

**IMPORTANT:** Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

mastectomy, including lymphedemas. These services will be furnished in a manner determined in consultation with the attending physician and the patient.

- **Transplants.** This means human organ (or tissue) and stem cell (“bone marrow”) transplants that are furnished according to *Blue Cross and Blue Shield medical policy* and *medical technology assessment criteria*. It also includes one or more stem cell transplants for a *member* who has been diagnosed with breast cancer that has spread. For covered transplants, coverage also includes: the harvesting of the donor’s organ (or tissue) or stem cells when the recipient is a *member*; and drug therapy that is furnished during the transplant procedure to prevent the transplanted organ (or tissue) or stem cells from being rejected. “Harvesting” includes: the surgical removal of the donor’s organ (or tissue) or stem cells; and the related *medically necessary* services and/or tests that are required to perform the transplant itself. No benefits are provided for the harvesting of the donor’s organ (or tissue) or stem cells when the recipient is not a *member*. (See “Lab Tests, X-Rays, and Other Tests” for your coverage for donor testing.)

- **Oral surgery.** This means: reduction of a dislocation or fracture of the jaw or facial bone; excision of a benign or malignant tumor of the jaw; and orthognathic surgery that you need to correct a significant functional impairment that cannot be adequately corrected with orthodontic services. You must have a serious medical condition that requires that you be admitted to a hospital as an *inpatient* in order for the surgery to be safely performed. (Orthognathic surgery is not covered when it is performed mainly for cosmetic reasons. This surgery must be performed along with orthodontic services. If it is not, the oral surgeon must send a letter to *Blue Cross and Blue Shield* asking for approval for the surgery. No benefits are provided for the orthodontic services, except as described in this benefit booklet on page 31 for the treatment of conditions of cleft lip and cleft palate.)

This health plan may also cover the removal of impacted teeth when the teeth are fully or partially imbedded in the bone. Your *Schedule of Benefits* will tell you whether or not you have coverage for these services. (Also refer to *riders*—if there are any—that apply to your coverage in this health plan.)

- **Voluntary termination of pregnancy (abortion).**

- **Voluntary sterilization procedures.** To provide coverage for the women’s preventive health services as recommended by the U.S. Department of Health and Human Services, any in-network *deductible*, *copayment*, and/or *coinsurance*, whichever applies to you, will be waived for a sterilization procedure furnished for a female *member* when it is performed as the primary procedure for family planning reasons. This provision does not apply for hospital services or if your health plan is a grandfathered health plan under the Affordable Care Act. For all situations except as described in this paragraph, the cost share amount for elective surgery will still apply.
Part 5 – Covered Services (continued)

IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

- Anesthesia services that are related to covered surgery. This includes those services that are furnished for you by a physician other than the attending physician; or by a certified registered nurse anesthetist.
- Radiation and x-ray therapy that is furnished for you by a physician. This includes: radiation therapy using isotopes, radium, radon, or other ionizing radiation; and x-ray therapy for cancer or when used in place of surgery.
- Chemotherapy (drug therapy for cancer) that is furnished for you by a physician.
- Interpretation of diagnostic x-ray and other imaging tests, diagnostic lab tests, and diagnostic machine tests, when these tests are furnished by a physician or by a podiatrist instead of by a hospital-based radiologist or pathologist who is an employee of the hospital. (When these services are furnished by a radiologist or pathologist who is an employee of the hospital, coverage is provided as a special service of the hospital.)
- Medical care that is furnished for you by a physician; or by a nurse practitioner; or by a podiatrist. This includes medical care furnished for you by a physician other than the attending physician to treat an uncommon aspect or complication of your illness or injury. This health plan will cover medical care furnished for you by two or more physicians at the same time. But, this is the case only when Blue Cross and Blue Shield decides that the care is needed to treat a critically ill patient. The second physician must be an expert in a different medical sub-specialty than the attending physician. This health plan will cover only the attending physician if the second physician is an expert in the same medical sub-specialty as the attending physician.
- Monitoring services that are related to dialysis, when they are furnished for you by a covered provider.
- Consultations. These services must be furnished for you by a physician other than the attending physician. The consultation must be needed to diagnose or treat the condition for which you were admitted. Or, it must be for a complication that develops after you are an inpatient. The attending physician must order the consultation. The physician who furnishes it must send a written report to Blue Cross and Blue Shield if they ask for one. The physician who furnishes this consultation for you must be an expert in a different medical sub-specialty than the attending physician. This health plan will cover only the attending physician if the consultant is an expert in the same medical sub-specialty as the attending physician.
- Intensive care services. These services must be furnished for you by a physician other than the attending physician; or by a nurse practitioner. This means services that you need for only a limited number of hours to treat an uncommon aspect or complication of your illness or injury.
- Emergency admission services. These services must be furnished for you by a physician; or by a nurse practitioner. This means that a complete history and physical exam is performed before you are admitted as an inpatient for emergency medical care and your treatment is taken over immediately by another physician.
- Pediatric specialty care. This is care that is furnished for you by a covered provider who has a recognized expertise in specialty pediatrics.
- Second surgical opinions. These services must be furnished for you by a physician. This includes a third opinion when the second opinion differs from the first.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

**Rehabilitation Hospital Admissions**
You and your health care provider must receive approval from Blue Cross and Blue Shield as outlined in this benefit booklet before you enter a rehabilitation hospital for inpatient care. Blue Cross and Blue Shield will let you and your health care provider know when your coverage is approved. (See Part 4.) When inpatient care is approved by Blue Cross and Blue Shield, this health plan provides coverage only until you reach your benefit limit. Your Schedule of Benefits describes the benefit limit that applies for these covered services. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) Once you reach this benefit limit, no more benefits will be provided for these services. This is the case whether or not the care is medically necessary. (Whether or not there is a benefit limit for these services, coverage is provided only for those services that are determined by Blue Cross and Blue Shield to be medically necessary for you.) This coverage includes: semiprivate room and board and special services furnished for you by the hospital; and medical care furnished for you by a physician or by a nurse practitioner.

**Skilled Nursing Facility Admissions**
You and your health care provider must receive approval from Blue Cross and Blue Shield as outlined in this benefit booklet before you enter a skilled nursing facility for inpatient care. Blue Cross and Blue Shield will let you and your health care provider know when your coverage is approved. (See Part 4.) When inpatient care is approved by Blue Cross and Blue Shield, this health plan provides coverage only until you reach your benefit limit. Your Schedule of Benefits describes the benefit limit that applies for these covered services. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) Once you reach this benefit limit, no more benefits will be provided for these services. This is the case whether or not the care is medically necessary. (Whether or not there is a benefit limit for these services, coverage is provided only for those services that are determined by Blue Cross and Blue Shield to be medically necessary for you.) This coverage includes: semiprivate room and board and special services furnished for you by the facility; and medical care furnished for you by a physician or by a nurse practitioner.

**Ambulance Services**
This health plan covers ambulance transport. This coverage includes:

- **Emergency Ambulance.** This includes an ambulance that takes you to an emergency medical facility for emergency medical care. For example, this may be an ambulance that takes you from an accident scene to the hospital. Or, it may take you from your home to a hospital due to a heart attack. This also means an air ambulance that takes you to a hospital when your emergency medical condition requires that you use an air ambulance rather than a ground ambulance. If you need help, call 911. Or, call your local emergency phone number.

- **Other Ambulance.** This includes medically necessary transport by an ambulance. For example, this may be an ambulance that is required to take you to or from the nearest hospital (or other covered health care facility) to receive care. It also includes an ambulance that is needed for a mental condition.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

No benefits are provided: for air ambulance transport for non-emergency medical conditions; for taxi or chair car service; to transport you to or from your medical appointments; to transport you to a non-covered provider; or for transport that is furnished solely for your convenience or for the convenience of your family or the health care provider (for example, this includes transport for the purposes of being closer to home or to have access to a health care provider for non-emergency care).

**Autism Spectrum Disorders Services**

This health plan covers medically necessary services to diagnose and treat autism spectrum disorders when the covered services are furnished by a covered provider. This may include (but is not limited to): a physician; a psychologist; or a licensed applied behavioral analyst. This coverage includes:

- Assessments, evaluations (including neuropsychological evaluations), genetic testing, and/or other tests to determine if a member has an autism spectrum disorder.
- Habilitative and rehabilitative care. This is care to develop, maintain, and restore, to the maximum extent practicable, the functioning of the member. This care includes, but is not limited to, applied behavior analysis that is furnished by or supervised by: a psychologist; a licensed applied behavioral analyst; or an early intervention provider.
- Psychiatric and psychological care that is furnished by a covered provider such as: a physician who is a psychiatrist; or a psychologist.
- Therapeutic care that is furnished by a covered provider. This may include (but is not limited to): a speech, occupational, or physical therapist; or a licensed independent clinical social worker.

These covered services also include covered drugs and supplies that are furnished by a covered pharmacy when your prescription drug coverage is administered by Blue Cross and Blue Shield.

Your coverage for these covered services is provided to the same extent as coverage is provided for similar covered services to diagnose and treat a physical condition.

When physical, speech/language, and/or occupational therapy is furnished as part of the treatment of an autism spectrum disorder, a benefit limit will not apply to these services.

This coverage for autism spectrum disorders does not affect an obligation to provide services to an individual under an individualized family service plan, an individualized education program, or an individualized service plan. This means that, for services related to autism spectrum disorders, no benefits are provided for: services that are furnished by school personnel under an individualized education program; or services that are furnished, or that are required by law to be furnished, by a school or in a school-based setting.

**Cardiac Rehabilitation**

This health plan covers outpatient cardiac rehabilitation when it is furnished for you by a cardiac rehabilitation provider. You will be covered for as many visits as are medically necessary for your condition. Your first visit must be within 26 weeks of the date that you were first diagnosed with
Part 5 – **Covered Services** (continued)

**IMPORTANT:** Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

Cardiovascular disease. Or, you must start within 26 weeks after you have had a cardiac event. *Blue Cross and Blue Shield* must determine through medical documentation that you meet one of these conditions: you have cardiovascular disease or angina pectoris; or you have had a myocardial infarction, angioplasty, or cardiovascular surgery. (This type of surgery includes: a heart transplant; or coronary bypass graft surgery; or valve repair or replacement.) For angina pectoris, this health plan covers only one course of cardiac rehabilitation for each *member*.

No benefits are provided for: club membership fees (except when they are covered by this health plan as a fitness benefit); counseling services that are not part of your cardiac rehabilitation program (for example, these non-covered services may be educational, vocational, or psychosocial counseling); medical or exercise equipment that you use in your home; services that are provided to your family; and additional services that you receive after you complete a cardiac rehabilitation program.

**Chiropractor Services**

This health plan covers *outpatient* chiropractic services when they are furnished for you by a chiropractor who is licensed to furnish the specific *covered service*. This coverage includes: *diagnostic lab tests* (such as blood tests); diagnostic x-rays other than magnetic resonance imaging (MRI), computerized axial tomography (CT scans), and other imaging tests; and *outpatient* medical care services, including spinal manipulation. Your coverage for these services may have a *benefit limit*. If it does, your Schedule of Benefits describes the *benefit limit* that applies for these *covered services*. (Also refer to *riders*—if there are any—that apply to your coverage in this health plan.) In this case, once you reach the *benefit limit*, no more benefits will be provided for these services. Whether or not there is a *benefit limit* for these services, coverage is provided only for those services that are determined by *Blue Cross and Blue Shield* to be medically necessary for you.

**Cleft Lip and Cleft Palate Treatment**

This health plan covers services to treat conditions of cleft lip and cleft palate for a *member* who is under age 18 (from birth through age 17). To receive coverage, these services must be furnished by a *covered provider* such as: a physician; a dentist; a nurse practitioner; a physician assistant; a licensed speech-language pathologist; a licensed audiologist; a licensed dietitian nutritionist; or a covered provider who has a recognized expertise in specialty pediatrics. These services may be furnished in the provider’s office or at a hospital or other covered facility. This coverage includes:

- Medical, dental, oral, and facial surgery.
- Surgical management and follow-up care by oral and plastic surgeons.
- Speech therapy, audiology services, and nutrition services.
- Orthodontic treatment.
- Preventive and restorative dental care to ensure good health and adequate dental structures for orthodontic treatment or prosthetic management therapy.

Your coverage for these *covered services* is provided to the same extent as coverage is provided for similar *covered services* to treat other physical conditions.
Part 5 – Covered Services (continued)

IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

Dialysis Services
This health plan covers outpatient dialysis when it is furnished for you by a hospital; or by a community health center; or by a free-standing dialysis facility; or by a physician. This coverage also includes home dialysis when it is furnished under the direction of a covered provider. Your home dialysis coverage includes: non-durable medical supplies (such as dialysis membrane and solution, tubing, and drugs that are needed during dialysis); the cost to install the dialysis equipment in your home up to $300; and the cost to maintain or to fix the dialysis equipment. No home dialysis benefits are provided for: costs to get or supply power, water, or waste disposal systems; costs of a person to help with the dialysis procedure; and costs that are not needed to run the dialysis equipment.

Durable Medical Equipment
This health plan covers durable medical equipment or covered supplies that you buy or rent from a covered provider that is an appliance company or from another provider who is designated by Blue Cross and Blue Shield to furnish the specific covered equipment or supply. This coverage is provided for equipment or supplies that in most cases: can stand repeated use; serves a medical purpose; is medically necessary for you; is not useful if you are not ill or injured; and can be used in the home.

Some examples of covered durable medical equipment include (but are not limited to):
- Knee braces; and back braces.
- Orthopedic and corrective shoes that are part of a leg brace.
- Hospital beds; wheelchairs; crutches; and walkers.
- Glucometers. These are covered when the device is medically necessary for you due to your type of diabetic condition. (See “Prescription Drugs and Supplies” for your coverage for diabetic testing materials.)
- Visual magnifying aids; and voice-synthesizers. These are covered only for a legally blind member who has insulin dependent, insulin using, gestational, or non-insulin dependent diabetes.
- Insulin injection pens. (Your benefits for these items are provided as a prescription drug benefit when you buy them from a pharmacy. See “Prescription Drugs and Supplies.”)

These covered services include one breast pump for each birth (other than a hospital grade breast pump) that you buy or rent from an appliance company or from a provider who is designated by Blue Cross and Blue Shield to furnish breast pumps. However, your coverage will not be more than the full allowed charge for the purchase price of a breast pump. If an in-network deductible and/or coinsurance would normally apply to these covered services, both the deductible and coinsurance will be waived for your in-network benefits for a covered breast pump. (If your health plan is a grandfathered health plan under the Affordable Care Act, a deductible and/or coinsurance that would normally apply for durable medical equipment will still apply for a covered breast pump.) No benefits are provided for a hospital grade breast pump.

From time to time, the equipment or supplies that are covered by this health plan may change. This change will be based on Blue Cross and Blue Shield’s periodic review of its medical policies and medical technology assessment criteria to reflect new applications and technologies. You can call the Blue Cross and Blue Shield customer service office for help to find out what is covered. (See Part 1.)

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

Blue Cross and Blue Shield will decide whether to rent or buy durable medical equipment. If Blue Cross and Blue Shield decides to rent the equipment, your benefits will not be more than the amount that would have been covered if the equipment were bought. This health plan covers the least expensive equipment of its type that meets your needs. If Blue Cross and Blue Shield determines that you chose durable medical equipment that costs more than what you need for your medical condition, benefits will be provided only for those costs that would have been paid for the least expensive equipment that meets your needs. In this case, you must pay all of the health care provider’s charges that are more than the Blue Cross and Blue Shield claim payment.

**Early Intervention Services**
This health plan covers early intervention services when they are furnished by an early intervention provider for an enrolled child from birth through age two. (This means until the child turns three years old.) This coverage includes medically necessary: physical, speech/language, and occupational therapy; nursing care; and psychological counseling.

**Emergency Medical Outpatient Services**
This health plan covers emergency medical care that you receive at an emergency room of a general hospital. (See Part 3.) At the onset of an emergency medical condition that (in your judgment) requires emergency medical care, you should go to the nearest emergency room. If you need help, call 911. Or, call your local emergency phone number. This health plan also covers emergency medical care when the care is furnished for you by a covered provider such as by a hospital outpatient department; or by a community health center; or by a physician; or by a dentist; or by a nurse practitioner.

For emergency room visits, you may have to pay a copayment for covered services. If a copayment does apply to your emergency room visit, it is waived if the visit results in your being held for observation or being admitted for inpatient care within 24 hours. Any deductible and/or coinsurance will still apply. (Your Schedule of Benefits describes your cost share amount. Also refer to riders—if there are any—that apply to your coverage in this health plan.)

If a covered provider’s office is located at, or professional services are billed by, a hospital, your cost share is the same amount as for an office visit.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

Home Health Care
This health plan covers home health care when it is furnished (or arranged and billed) for you by a home health care provider. This coverage is provided only when: you are expected to reach a defined medical goal that is set by your attending physician; the “home” health care is furnished at a place where you live (unless it is a hospital or other health care facility that furnishes skilled nursing or rehabilitation services); and, for medical reasons, you are not reasonably able to travel to another treatment site where medically appropriate care can be furnished for your condition. This coverage includes:

- Part-time skilled nursing visits; physical, speech/language, and occupational therapy; medical social work; nutrition counseling; home health aide services; medical supplies; durable medical equipment; enteral infusion therapy; and basic hydration therapy.
- Home infusion therapy that is furnished for you by a home infusion therapy provider. This includes: the infusion solution; the preparation of the solution; the equipment for its administration; and necessary part-time nursing. This coverage includes long-term antibiotic therapy treatment for a member who has been diagnosed with Lyme disease when the treatment is determined by a licensed physician to be medically necessary and is ordered after a complete evaluation of the member’s symptoms; results of diagnostic lab tests; or response to treatment.

When physical, speech/language, and/or occupational therapy is furnished as part of your covered home health care program, a benefit limit will not apply to these services.

No benefits are provided for: meals, personal comfort items, and housekeeping services; custodial care; treatment of mental conditions; and home infusion therapy, including the infusion solution, when it is furnished by a pharmacy or other health care provider that is not a home infusion therapy provider. (The only exception is for enteral infusion therapy and basic hydration therapy that is furnished by a home health care provider.)

Hospice Services
This health plan covers hospice services when they are furnished (or arranged and billed) for you by a hospice provider. “Hospice services” means pain control and symptom relief and supportive and other care for a member who is terminally ill and expected to live 12 months or less. These services are furnished to meet the needs of the member and of his or her family during the illness and death of the member. They may be furnished at home, in the community, and in facilities. This coverage includes:

- Services furnished and/or arranged by the hospice provider. These may include services such as: physician, nursing, social, volunteer, and counseling services; inpatient care; home health aide visits; drugs; and durable medical equipment.
- Respite care. This care is furnished to the hospice patient in order to relieve the family or primary care person from care giving functions.
- Bereavement services. These services are provided to the family or primary care person after the death of the hospice patient. They can include contacts, counseling, communication, and correspondence.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

Infertility Services
This health plan covers services to diagnose and treat infertility for a member who has not been able to conceive or produce conception during a period of one year. Blue Cross and Blue Shield may approve coverage for infertility services in two other situations: when the member has been diagnosed with cancer and, after treatment, the member is expected to become infertile; or when a member is age 35 or older and has not been able to conceive or produce conception during a period of six months. To receive coverage for infertility services, they must be medically necessary for you, furnished by a covered provider, and approved by Blue Cross and Blue Shield as outlined in this benefit booklet and in the Blue Cross and Blue Shield medical policy. You and your health care provider must receive approval from Blue Cross and Blue Shield before you obtain infertility services. Blue Cross and Blue Shield will let you and your health care provider know when your coverage is approved. (See Part 4.) In all cases, covered services must conform with Blue Cross and Blue Shield medical policy and meet Blue Cross and Blue Shield medical technology assessment criteria. (See page 13 for help for how to access or obtain a copy of the medical policy.) This coverage may include (but is not limited to):

- Artificial insemination.
- Sperm and egg and/or inseminated egg procurement and processing.
- Banking of sperm or inseminated eggs (only when they are not covered by the donor’s health plan); and other services as outlined in Blue Cross and Blue Shield medical policy.
- Infertility technologies, such as: in vitro fertilization and embryo placement; gamete intrafallopian transfer; zygote intrafallopian transfer; natural oocyte retrieval intravaginal fertilization; and intracytoplasmic sperm injection.

If covered services are furnished outside of Massachusetts and the health care provider does not have a payment agreement with the local Blue Cross and/or Blue Shield Plan, this health plan will provide these benefits only when the provider is board certified and meets the appropriate American Society of Reproductive Medicine standards for an infertility provider. Otherwise, no benefits will be provided for the services furnished by those providers.

Coverage for Prescription Drugs
The drugs that are used for infertility treatment are covered as a prescription drug benefit. This means that coverage will be provided for these covered drugs only when the drugs are furnished by a covered pharmacy, even if a non-pharmacy health care provider administers the drug for you during a covered visit. For your coverage for these covered drugs, see “Prescription Drugs and Supplies.”

No benefits are provided for: long term sperm or egg preservation or long term cryopreservation not associated with active infertility treatment; costs that are associated with achieving pregnancy through surrogacy (gestational carrier); infertility treatment that is needed as a result of a prior sterilization or unsuccessful sterilization reversal procedure (except for medically necessary infertility treatment that is needed after a sterilization reversal procedure that is successful as determined by appropriate diagnostic tests); and in vitro fertilization furnished for a fertile member to select the genetic traits of the embryo (coverage may be available for the genetic testing alone when the testing conforms with Blue Cross and Blue Shield medical policy).
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

Lab Tests, X-Rays, and Other Tests
This health plan covers outpatient diagnostic tests when they are furnished for you by a covered provider. This coverage includes:

- **Diagnostic lab tests.**
- Diagnostic machine tests such as pulmonary function tests and holter monitoring.
- **Diagnostic x-ray and other imaging tests.**
- Preoperative tests. These tests must be performed before a scheduled inpatient or surgical day care unit admission for surgery. And, they must not be repeated during the admission. These tests include: diagnostic lab tests; diagnostic x-ray and other imaging tests; and diagnostic machine tests (such as pulmonary function tests).
- Human leukocyte antigen testing or histocompatibility locus antigen testing. These tests are necessary to establish stem cell (“bone marrow”) transplant donor suitability. They include testing for A, B, or DR antigens or any combination.

If a copayment normally applies to these covered services, the copayment will not apply to the interpretation costs that are billed in conjunction with any one of the tests; and it will be waived when the tests are furnished during an emergency room visit or during a day surgery admission, or at a hospital and the results of the lab test(s) are required right away so the hospital can furnish treatment to you. You can call the Blue Cross and Blue Shield customer service office for information about the times when your copayment may be waived. The toll free phone number to call is shown on your ID card. Your Schedule of Benefits describes your cost share amount. (Also refer to riders—if there are any—that apply to your coverage in this health plan.)

Maternity Services and Well Newborn Inpatient Care
Maternity Services
This health plan covers all medical care that is related to pregnancy and childbirth (or miscarriage) when it is furnished for you by a covered provider. This coverage includes:

- Semiprivate room and board and special services when you are an inpatient in a general hospital. This includes nursery charges for a well newborn. These charges are included with the benefits for the maternity admission. Your (and your newborn child’s) inpatient stay will be no less than 48 hours following a vaginal delivery or 96 hours following a Caesarian section unless you and your attending physician decide otherwise as provided by law. If you choose to be discharged earlier, this health plan covers one home visit within 48 hours of discharge, when it is furnished by a physician; or by a registered nurse; or by a nurse midwife; or by a nurse practitioner. This visit may include: parent education; assistance and training in breast or bottle feeding; and appropriate tests. This health plan will cover more visits that are furnished by a covered provider only if Blue Cross and Blue Shield determines the visits are clinically necessary.
- Delivery of one or more than one baby. This includes prenatal and postnatal medical care and lab tests, x-rays, and other covered tests that are furnished for you by a physician; or by a nurse midwife. Your benefits for prenatal and postnatal medical care and lab tests, x-rays, and other covered tests that are furnished by a physician or by a nurse midwife are included in Blue Cross and Blue Shield’s Schedule of Benefits.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

payment for the delivery. The benefits that are provided for these services will be those that are in effect on the date of delivery. When a physician or a nurse midwife furnishes only prenatal and/or postnatal care, benefits for those services are based on the date the care is received. This health plan also covers prenatal and postnatal medical care exams and lab tests, x-rays, and other covered tests when they are furnished for you by a general hospital; or by a community health center. Your benefits for these services are based on the date the care is received.

- Standby attendance that is furnished for you by a physician (who is a pediatrician), when a known or suspected complication threatening your health or the health of your child requires that a pediatrician be present during the delivery.
- Childbirth classes for up to $90 for one childbirth course for each covered pregnant member and up to $45 for each refresher childbirth course. Pregnant members are encouraged to attend the childbirth course that is recommended by their physician or by their health care facility or by their nurse midwife. You must pay the full cost of the childbirth course. After you complete the course, call the Blue Cross and Blue Shield customer service office for a claim form to file your claim. You will not be reimbursed for this amount unless you complete the course, except when your delivery occurs before the course ends.

All pregnant members may take part in a program that provides support and education for them. Through this program, members receive outreach and education that add to the care they get from their obstetrician or nurse midwife. You can call the Blue Cross and Blue Shield customer service office for more information.

No benefits are provided for a home birth, unless: the home birth is due to an emergency or unplanned delivery that occurs at home prior to being admitted to a hospital; or the home birth occurs outside of Massachusetts.

Well Newborn Inpatient Care
This health plan covers well newborn care when it is furnished during the covered inpatient maternity stay. This coverage includes:
- Pediatric care that is furnished for a well newborn by a physician (who is a pediatrician); or by a nurse practitioner.
- Routine circumcision that is furnished by a physician.
- Newborn hearing screening tests that are performed by a covered provider before the newborn child (an infant under three months of age) is discharged from the hospital to the care of the parent or guardian.

See “Admissions for Inpatient Medical and Surgical Care” for your coverage when an enrolled newborn child requires medically necessary inpatient care.

Medical Care Outpatient Visits
This health plan covers outpatient care to diagnose or treat your medical condition when the services or supplies are furnished for you by a covered provider. This may include (but is not limited to): a physician;
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

or a nurse practitioner; or an optometrist; or a licensed dietitian nutritionist. These services may be furnished in the provider’s office or at a covered facility or, as determined appropriate by Blue Cross and Blue Shield, at home. This coverage includes:

- Medical care services to diagnose or treat your illness, condition, or injury. These medical services also include (but are not limited to) nutrition counseling.

**Women’s Health and Cancer Rights**

As required by federal law, this coverage includes medical care services to treat physical complications at all stages of mastectomy, including lymphedemas and breast reconstruction in connection with a mastectomy. These services will be furnished in a manner determined in consultation with the attending physician and the patient.

- Certain medical care services you receive from a limited services clinic. A limited services clinic can provide on-the-spot, non-emergency care for symptoms such as a sore throat, cough, earache, fatigue, poison ivy, flu, body aches, or infection. You do not need an appointment to receive this care. If you want to find out if a specific service is covered at a limited services clinic, you can call the limited services clinic or you can call the Blue Cross and Blue Shield customer service office. Generally, the cost share amount you pay for these covered services is the same cost share amount that you would pay for similar services furnished by a physician. Refer to the Schedule of Benefits for your plan option for your cost share amount when you receive covered services at a limited services clinic.

- Medical exams and contact lenses that are needed to treat keratoconus. This includes the cost of the fitting of these contact lenses.

- Hormone replacement therapy for peri- and post-menopausal members.

- Urgent care services.

- Follow up care that is related to an accidental injury or an emergency medical condition.

- Allergy testing. (This includes tests that you need such as PRIST, RAST, and scratch tests.)

- Injections. This includes the administration of injections that you need such as allergy shots or other medically necessary injections. And, except for certain self injectable drugs as described below in this section, this coverage also includes the vaccine, serum, or other covered drug that is furnished during your covered visit. (This section does not include injections that are covered as a surgical service such as a nerve block injection or an injection of anesthetic agents. See “Surgery as an Outpatient.”)

**Coverage for Self Injectable and Certain Other Drugs**

There are self injectable and certain other prescription drugs used for treating your medical condition that are covered only as a prescription drug benefit. This means that coverage will be provided for these covered drugs only when the drugs are furnished by a covered pharmacy, even if a non-pharmacy health care provider administers the drug for you during a covered visit. For your coverage for these covered drugs, see “Prescription Drugs and Supplies.” No benefits are provided for the cost of these drugs when the drug is furnished by a non-pharmacy health care provider. For a list of these drugs, you can call the Blue Cross and Blue Shield customer service office. Or, you can log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

- Syringes and needles when they are medically necessary for you. If a copayment would normally apply to your visit, it is waived if the visit is only to obtain these items. (Your coverage for these items is provided as a prescription drug benefit when you buy them from a pharmacy.)
- Diabetes self-management training and education, including medical nutrition therapy, when it is furnished for you by a certified diabetes health care professional who is a covered provider or who is affiliated with a covered provider.
- Pediatric specialty care that is furnished for you by a covered provider who has a recognized expertise in specialty pediatrics.
- Non-dental services that are furnished for you by a dentist who is licensed to furnish the specific covered service. This coverage is provided only if the services are covered when they are furnished for you by a physician.
- Monitoring and medication management for members taking psychiatric drugs; and/or neuropsychological assessment services. These services may also be furnished by a mental health provider.
- Methadone maintenance treatment that is furnished for opioid dependence. For these covered services, this health plan will provide full in-network coverage. The only exception is when you are enrolled in a high deductible health plan with a health savings account. In this case, your deductible will apply to these covered services. Otherwise, any cost share amounts will not apply for these covered services. Or, if you choose to obtain these covered services from a non-preferred provider, you will pay the out-of-network cost share that applies for physicians’ office visits.

If a covered provider’s office is located at, or professional services are billed by, a hospital, your cost share is the same amount as for an office visit.

Medical Formulas
This health plan covers medical formulas and low protein foods to treat certain conditions. This coverage includes:
- Special medical formulas that are medically necessary for you to treat one of the listed conditions: homocystinuria; maple syrup urine disease; phenylketonuria; propionic acidemia; methylmalonic acidemia; or tyrosinemia.
- Enteral formulas that you need to use at home and are medically necessary for you to treat malabsorption caused by one of the listed conditions: Crohn’s disease; chronic intestinal pseudo-obstruction; gastroesophageal reflux; gastrointestinal motility; ulcerative colitis; or inherited diseases of amino acids and organic acids.
- Food products that are modified to be low protein and are medically necessary for you to treat inherited diseases of amino acids and organic acids. (You may buy these food products directly from a distributor.)

Your benefits for these covered services are provided as a prescription drug benefit. See “Prescription Drugs and Supplies.”
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

Mental Health and Substance Abuse Treatment

This health plan covers medically necessary services to diagnose and/or treat mental conditions. This coverage includes:

- Biologically-based mental conditions. “Biologically-based mental conditions” means: schizophrenia; schizoaffective disorder; major depressive disorder; bipolar disorder; paranoia and other psychotic disorders; obsessive-compulsive disorder; panic disorder; delirium and dementia; affective disorders; eating disorders; post-traumatic stress disorders; autism; substance abuse disorders (drug addiction and alcoholism); and any biologically-based mental conditions that appear in the most recent edition of the American Psychiatric Association’s Diagnostic and Statistical Manual of Mental Disorders that are scientifically recognized and approved by the Commissioner of the Department of Mental Health.
- Rape-related mental or emotional disorders for victims of a rape or victims of an assault with intent to rape.
- Non-biologically-based mental, behavior, or emotional disorders of enrolled dependent children who are under age 19. This coverage includes pediatric specialty mental health care that is furnished by a mental health provider who has a recognized expertise in specialty pediatrics.
- All other non-biologically-based mental conditions not described above.

No benefits are provided for: psychiatric services for a condition that is not a mental condition; residential or other care that is custodial care; and services and/or programs that are not medically necessary to treat your mental condition. Services and programs that are not covered by this health plan, and that do not constitute intermediate care, include (but are not limited to): services that are performed in educational, vocational, or recreational settings; and “outward bound-type,” “wilderness,” “camp,” or “ranch” programs. These types of non-covered programs may be in residential or nonresidential settings. They may include therapeutic elements and/or clinical staff services as well as vocational, educational, problem solving, and/or recreational activities. These programs may have educational accreditation. The staff may include some licensed mental health providers who may provide some therapy. No benefits are provided for any services furnished along with one of these non-covered programs. For example, no benefits are provided for therapy and/or psychotherapy furnished along with one of these non-covered programs.

Inpatient Services

Usually, to receive coverage for inpatient services, you and your mental health provider must receive approval from Blue Cross and Blue Shield as outlined in this benefit booklet before you enter a hospital or other covered facility. (See Part 4 for these requirements.) Blue Cross and Blue Shield will let you and your mental health provider know when your coverage is approved. When inpatient care is approved by Blue Cross and Blue Shield, this health plan provides coverage for as many days as are medically necessary for you. This coverage includes: semiprivate room and board and special services; and psychiatric care that is furnished for you by a physician (who is a specialist in psychiatry), or by a psychologist, or by a clinical specialist in psychiatric and mental health nursing, or by another mental health provider.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

**Intermediate Treatments**

There may be times when you will need medically necessary care that is more intensive than typical outpatient care. But, you do not need 24-hour inpatient hospital care. This “intermediate” care may include (but is not limited to):

- Acute residential treatment, clinically managed detoxification services, or crisis stabilization services. Your coverage for these services is considered to be an inpatient benefit. During the inpatient pre-service review process (see Part 4), Blue Cross and Blue Shield will assess your specific health care needs. The least intensive type of setting that is required for your mental condition will be approved by Blue Cross and Blue Shield.

- Partial hospital programs, intensive outpatient programs, day treatment programs, or in-home therapy services. Your coverage for these programs is considered to be an outpatient benefit.

If you would normally pay a copayment for inpatient or outpatient benefits, the copayment will be waived when you get covered intermediate care. But, you must still pay your deductible and/or coinsurance, whichever applies.

No benefits are provided for: a program for which Blue Cross and Blue Shield is not able to conduct concurrent review of continued medical necessity (see Part 4), including a program that has a pre-defined length of care or stay; a program that provides only meetings or activities that are not based on an individualized treatment plan; and a program that focuses solely on the improvement of interpersonal or other skills, rather than on treatment that is focused on symptom reduction and functional recovery for specific mental conditions.

**Outpatient Services**

This health plan covers outpatient covered services to diagnose and/or treat mental conditions when the services are furnished for you by a mental health provider. This coverage is provided for as many visits as are medically necessary for your mental condition.

**Oxygen and Respiratory Therapy**

This health plan covers:

- Oxygen and the equipment to administer it for use in the home. These items must be obtained from an oxygen supplier. This includes oxygen concentrators.

- Respiratory therapy services. These services must be furnished for you by a covered provider. Some examples are: postural drainage; and chest percussion.

**Podiatry Care**

This health plan covers non-routine podiatry (foot) care when it is furnished for you by a covered provider. This may include (but is not limited to): a physician; or a podiatrist. This coverage includes: diagnostic lab tests; diagnostic x-rays; surgery and necessary postoperative care; and other medically necessary foot care such as treatment for hammertoe and osteoarthritis.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

No benefits are provided for: routine foot care services such as trimming of corns, trimming of nails, and other hygienic care, except when the care is medically necessary because you have systemic circulatory disease (such as diabetes); and certain non-routine foot care services and supplies such as foot orthotics, arch supports, shoe (foot) inserts, orthopedic and corrective shoes that are not part of a leg brace (except as described in this benefit booklet for “Prosthetic Devices”), and fittings, castings, and other services related to devices for the feet.

Prescription Drugs and Supplies
This health plan covers certain drugs and supplies that are furnished by a covered pharmacy. This coverage is provided only when all of the following criteria are met.

- The drug or supply is listed on the Blue Cross and Blue Shield Drug Formulary as a covered drug or supply. For certain covered drugs, you must have prior approval from Blue Cross and Blue Shield in order for you to receive this drug coverage. A covered pharmacy will tell you if your drug needs prior approval from Blue Cross and Blue Shield. They will also tell you how to request this approval.
- The drug or supply is prescribed for your use while you are an outpatient.
- The drug or supply is purchased from a pharmacy that is approved by Blue Cross and Blue Shield for payment for the specific covered drug and/or supply. This means that for most covered drugs and supplies, you may buy your drug or supply from any covered retail pharmacy. However, for some specialty drugs and supplies, you may need to buy your drug or supply from covered pharmacies that specialize in treating specific diseases and that have been approved by Blue Cross and Blue Shield for payment for that specific specialty drug or supply. For a list of these specialty drugs and supplies and where to buy them, you can call the Blue Cross and Blue Shield customer service office. Or, you can look on the internet Web site at www.bluecrossma.com.

The Drug Formulary
The Blue Cross and Blue Shield Drug Formulary is a list of approved drugs and supplies. Blue Cross and Blue Shield may update its Drug Formulary from time to time. In this case, your coverage for certain drugs and supplies may change. For example, a drug may be added to or excluded from the Drug Formulary; or a drug may change from one member cost share level to another member cost share level. For the list of drugs that are excluded from the Blue Cross and Blue Shield Drug Formulary, you can refer to your Pharmacy Program booklet. Please check for updates. You can check for updates or obtain more information about the Blue Cross and Blue Shield Drug Formulary, including the most current list of those drugs which are not included on the formulary, by calling the Blue Cross and Blue Shield customer service office. The toll free phone number to call is shown on your ID card. You can also go online and log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com.

The Drug Formulary Exception Process
Your drug coverage includes a Drug Formulary Exception Process. This process allows your prescribing health care provider to ask for an exception from Blue Cross and Blue Shield. This exception is to ask for coverage for a drug that is not on the Blue Cross and Blue Shield Drug Formulary. Blue Cross and Blue Shield will consider a Drug Formulary exception request if there is a medical basis for your not being able to take, for your condition, any of the covered drugs or an over-the-counter drug. If the Drug Formulary
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

exception request is approved by Blue Cross and Blue Shield, you will receive coverage for the drug that is not on the Blue Cross and Blue Shield Drug Formulary. For this drug, you will pay the member cost share amount that you would pay if this drug were a non-preferred prescription drug.

Buying Covered Drugs and Supplies
For help to obtain your drug coverage, you can call the Blue Cross and Blue Shield customer service office. The toll free phone number to call is shown on your ID card. A Blue Cross and Blue Shield customer service representative can help you find a pharmacy where you may buy a specific drug or supply. They can also help you find out which member cost share level you will pay for a specific covered drug or supply. Or, you can also go online and log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com.

Mail Service Pharmacy Benefits
There are certain covered drugs and supplies that you may not be able to buy from the Blue Cross and Blue Shield designated mail service pharmacy. To find out if your covered drug or supply qualifies for the mail service pharmacy benefit, you can check with the mail service pharmacy. Or, you can call the Blue Cross and Blue Shield customer service office.

Covered Drugs and Supplies
This drug coverage is provided for:

- Drugs that require a prescription by law and are furnished in accordance with Blue Cross and Blue Shield medical technology assessment criteria. These covered drugs include: birth control drugs; oral diabetes medication that influences blood sugar levels; hormone replacement therapy drugs for peri- and post-menopausal members; certain drugs used on an off-label basis (such as: drugs used to treat cancer; and drugs used to treat HIV/AIDS); abuse-deterrent opioid drug products on a basis not less favorable than non-abuse deterrent opioid drug products; oral antibiotics for the treatment of Lyme disease; and drugs for HIV associated lipodystrophy syndrome.
- Injectable insulin and disposable syringes and needles needed for its administration, whether or not a prescription is required. (When a copayment applies to your pharmacy coverage, if insulin, syringes, and needles are bought at the same time, you pay two copayments: one for the insulin; and one for the syringes and needles.)
- Materials to test for the presence of sugar when they are ordered for you by a physician for home use. These include (but are not limited to): blood glucose monitoring strips; ketone strips; lancets; urine glucose testing strips; normal, low, and high calibrator solution/chips; and dextrostik or glucose test strips. (You may obtain these testing supplies from a covered pharmacy or appliance company.) See “Durable Medical Equipment” for your coverage for glucometers.
- Insulin injection pens.
- Insulin infusion pumps and related pump supplies. (You will obtain the insulin infusion pump from an appliance company instead of a pharmacy.)
- Syringes and needles when they are medically necessary for you.
- Drugs that do not require a prescription by law (“over-the-counter” drugs), if any, that are listed on the Blue Cross and Blue Shield Drug Formulary as a covered drug. Your Pharmacy Program booklet will list the over-the-counter drugs that are covered, if there are any. Or, you can go online and log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

- Prescription birth control drugs and contraceptive methods (such as diaphragms) that have been approved by the U.S. Food and Drug Administration (FDA). Your cost share will be waived for generic birth control drugs and methods (or for a brand-name drug or method when a generic is not available or not medically appropriate for you), unless your health plan is a grandfathered health plan under the Affordable Care Act. If you choose to use a brand-name birth control drug or method when a generic is available or appropriate for you, you will have to pay your cost share.
- Prescription prenatal vitamins and pediatric vitamins with fluoride.
- Prescription dental topical fluoride, rinses, and gels.
- Prescription opioid antagonist drugs that block and reverse the effects of opioids that are used for the emergency treatment of a known or suspected overdose (such as morphine or heroin). Except for prefilled auto injection devices, this health plan will provide full in-network coverage for all forms of these covered drugs. The only exception is when you are enrolled in a high deductible health plan with a health savings account. In this case, your deductible will apply to these covered drugs. For prefilled auto injection devices, you will have to pay your cost share.
- Smoking and tobacco cessation drugs and aids (such as nicotine gum and patches) for two 90-day treatments for each member in each calendar year, when they are prescribed for you by a health care provider. Your cost share will be waived for generic drugs and aids (or for a preferred brand-name drug or aid when a generic is not available), unless your health plan is a grandfathered health plan under the Affordable Care Act. If you choose to use a brand-name drug or aid when a generic is available, you will have to pay your cost share. Your coverage for “Preventive Health Services” includes smoking and tobacco cessation counseling as recommended by the U.S. Preventive Services Task Force, unless your health plan is a grandfathered health plan under the Affordable Care Act.

Important Note: Any in-network deductible, copayment, and/or coinsurance (whichever applies to you) will be waived for certain preventive drugs as recommended and supported by the Health Resources and Services Administration and the U.S. Preventive Services Task Force. The provisions described in this paragraph do not apply to you if your health plan is a grandfathered health plan under the Affordable Care Act.

Non-Covered Drugs and Supplies
No benefits are provided for:
- Anorexiant; non-sedating antihistamines; ophthalmic drug solutions to treat allergies; inhaled topical nasal steroids; or proton pump inhibitors, except for prescription proton pump inhibitors that are prescribed for members under age 18 or that are prescribed as part of a combination drug used to treat helicobacter pylori. From time to time, Blue Cross and Blue Shield may change this list of non-covered drugs and supplies. When a material change is made to this list of non-covered drugs and supplies, Blue Cross and Blue Shield will let the subscriber (or the subscriber’s group on your behalf when you are enrolled in this health plan as a group member) know about the change at least 60 days before the change becomes effective. For more information, you can call the Blue Cross and Blue Shield customer service office. The toll free phone number to call is shown on your ID card. Or, you can also go online and log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com.
- Pharmaceuticals that you can buy without a prescription, except as described in this benefit booklet or in your Pharmacy Program booklet.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

- Medical supplies such as dressings and antiseptics.
- The cost of delivering drugs to you.
- Combination vitamins that require a prescription, except for: prescription prenatal vitamins; and pediatric vitamins with fluoride.
- Drugs and supplies that you buy from a retail pharmacy that is not covered by this health plan. The only exception is when you are traveling outside of your service area and a covered retail pharmacy is not reasonably available to you. In this case, you may fill your prescription at any retail pharmacy. But, you must pay all charges at the time you buy your drug. Then, you should call the Blue Cross and Blue Shield customer service office for a claim form to file your claim. Blue Cross and Blue Shield will repay you, less the amount you would normally pay for covered drugs and supplies.
- Drugs and supplies that you buy from a non-designated mail service pharmacy.
- Drugs and supplies that you buy from any pharmacy that is not approved by Blue Cross and Blue Shield for payment for the specific covered drug and/or supply.

Preventive Health Services

In this benefit booklet, the term “preventive health services” refers to covered services that are performed to prevent diseases (or injuries) rather than to diagnose or treat a symptom or complaint, or to treat or cure a disease after it is present. This health plan provides coverage for preventive health services in accordance with applicable federal laws and regulations.

Routine Pediatric Care

This health plan covers routine pediatric care that is furnished by a covered provider and is in line with applicable Blue Cross and Blue Shield medical policies. This coverage is limited to an age-based schedule and a maximum number of visits. Your Schedule of Benefits describes the age-based schedule and the visit limits that apply for these covered services. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) This coverage includes:

- Routine medical exams; history; measurements; sensory (vision and auditory) screening; and neuropsychiatric evaluation and development screening; and assessment.
- Hereditary and metabolic screening at birth.
- Appropriate immunizations as recommended by the Advisory Committee on Immunization Practices. This includes, but is not limited to: flu shots; and travel immunizations.
- Tuberculin tests; hematocrit, hemoglobin, and other appropriate blood tests; urinalysis; and blood tests to screen for lead poisoning.
- Preventive health services and screenings as recommended by the U.S. Preventive Services Task Force and the U.S. Department of Health and Human Services.
- Other routine services furnished in line with Blue Cross and Blue Shield medical policies.

For an enrolled child who receives coverage for vaccines from a federal or state agency, this health plan provides coverage only to administer the vaccine. Otherwise, this health plan also provides coverage for a covered vaccine along with the services to administer the vaccine.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

Important Note: You have the right to full in-network coverage (provided the services are furnished by a preferred provider) for preventive health services as required by the Affordable Care Act and related regulations. For a complete description of these preventive health services, you can call the Blue Cross and Blue Shield customer service office. The toll free phone number to call is shown on your ID card. Or, you can also go online and log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com. The provisions described in this paragraph do not apply to you if your health plan is a grandfathered health plan under the Affordable Care Act.

No benefits are provided for exams that are needed: to take part in school, camp, and sports activities; or by third parties. The only exception to this is when these exams are furnished as a covered routine exam.

Preventive Dental Care
This health plan covers preventive dental care for a member who is under age 18 and who is being treated for conditions of cleft lip and cleft palate (see page 31). This coverage includes (but is not limited to) periodic oral exams, cleanings, and fluoride treatments furnished by a dentist or other covered provider.

No benefits are provided for preventive dental care, except as described in this section.

Routine Adult Physical Exams and Tests
This health plan covers routine physical exams, routine tests, and other preventive health services when they are furnished for you by a covered provider in line with any applicable Blue Cross and Blue Shield medical policies. This coverage includes:

- Routine medical exams and related routine lab tests and x-rays. This coverage for a routine physical exam is limited to one visit for each member in a calendar year.
- Appropriate immunizations as recommended by the Advisory Committee on Immunization Practices. This coverage includes, but is not limited to: flu shots; and travel immunizations.
- Blood tests to screen for lead poisoning.
- Routine mammograms. This coverage is limited to one baseline mammogram during the five-year period a member is age 35 through 39; and one routine mammogram each calendar year for a member who is age 40 or older.
- Routine prostate-specific antigen (PSA) blood tests. This coverage is limited to one test each calendar year for a member who is age 40 or older.
- Routine sigmoidoscopies and barium enemas.
- Routine colonoscopies.
- Preventive health services and screenings as recommended by the U.S. Preventive Services Task Force and the U.S. Department of Health and Human Services.
- Other routine services furnished in line with Blue Cross and Blue Shield medical policies.

Important Note: You have the right to full in-network coverage (provided the services are furnished by a preferred provider) for preventive health services as required by the Affordable Care Act and related regulations. For a complete description of these preventive health services, you can call the Blue Cross and Blue Shield customer service office. The toll free phone number to call is shown on your ID card. Or, you can also go online and log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com. The
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

provisions described in this paragraph do not apply to you if your health plan is a grandfathered health plan under the Affordable Care Act.

No benefits are provided for exams that are needed: to take part in school, camp, and sports activities; or by employers or third parties. The only exception to this is when these exams are furnished as a covered routine exam.

Women’s Preventive Health Services
All female members have coverage for women’s preventive health services as recommended by the U.S. Department of Health and Human Services. These types of preventive health services include: yearly well-woman visits; domestic violence screening; human papillomavirus (HPV) DNA testing; screening for human immunodeficiency virus (HIV) infection; birth control methods and counseling (see “Family Planning”); screening for gestational diabetes; and breastfeeding support and breast pumps (see “Durable Medical Equipment”). For a complete description of these covered preventive health services, you can call the Blue Cross and Blue Shield customer service office at the toll free phone number shown on your ID card. Or, you can also go online and log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com. Your coverage for these preventive health services is subject to all of the provisions and requirements of this health plan. See other sections of this benefit booklet to understand the provisions related to your coverage for prenatal care, routine GYN exams, family planning, and pharmacy benefits for birth control drugs and devices when your prescription drug coverage is administered by Blue Cross and Blue Shield.

Routine Gynecological (GYN) Exams
This health plan covers one routine GYN exam for each member in each calendar year when it is furnished by a covered provider. This may include (but is not limited to): a physician; or a nurse practitioner; or a nurse midwife. This coverage also includes one routine Pap smear test for each member in each calendar year.

Family Planning
This health plan covers family planning services when they are furnished for you by a covered provider. This may include (but is not limited to): a physician; or a nurse practitioner; or a nurse midwife. This coverage includes:
- Consultations, exams, procedures, and medical services related to the use of all contraceptive methods to prevent pregnancy that have been approved by the U.S. Food and Drug Administration (FDA).
- Injection of birth control drugs. This includes a prescription drug when it is supplied during the visit.
- Insertion of a levonorgestrel implant system. This includes the implant system itself.
- IUDs, diaphragms, and other prescription contraceptive methods that have been approved by the U.S. Food and Drug Administration (FDA), when the items are supplied during the visit.
- Genetic counseling.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

No benefits are provided for: services related to achieving pregnancy through a surrogate (gestational carrier); and non-prescription birth control preparations (for example: condoms; birth control foams; jellies; and sponges).

**Routine Hearing Care Services**
This health plan covers routine hearing exams and tests. This includes: routine hearing exams and tests furnished for you by a covered provider; and newborn hearing screening tests for a newborn child (an infant under three months of age). See “Well Newborn Inpatient Care” for your inpatient coverage for newborn hearing screening tests.

**Hearing Aids**
Your health plan may also cover hearing aids and related services (such as initial hearing aid evaluation, fitting and adjustments of the hearing aid, and certain supplies), when they are furnished by a covered provider such as a licensed audiologist or licensed hearing instrument specialist. Your Schedule of Benefits will tell you whether or not you have coverage for hearing aids and related services. When your health plan does include this coverage, your Schedule of Benefits will also describe the age restriction and benefit limit(s) that will apply. No benefits are provided for replacement hearing aid batteries, except when your Schedule of Benefits specifically describes batteries as part of your hearing aid coverage.

Your health plan may also include a rider to add or change coverage for hearing aids and related services. If this is the case, refer to your rider for information about your hearing aid benefits.

**Routine Vision Care**
This health plan covers a periodic routine vision exam when it is furnished for you by an ophthalmologist or by an optometrist. Your Schedule of Benefits describes the benefit limit that applies for routine vision exams—this is the time period during which a routine vision exam will be covered by your health plan. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) Once you have received this coverage, no more benefits will be provided for another exam during the same time period.

**Vision Supplies**
Your health plan may also cover certain vision supplies and covered services related to covered vision supplies when they are furnished by a covered provider, such as an ophthalmologist or an optometrist. Your Schedule of Benefits will tell you whether or not you have coverage for vision supplies and related services.

Your health plan may also include a rider to add or change coverage for vision supplies and related services. If this is the case, refer to your rider for information about your vision supply benefits.

**Wellness Rewards**
While you are enrolled in this health plan, you may be eligible to receive wellness rewards for some fees that you pay to participate in qualified fitness programs and/or weight loss programs. For information about what you need to do to be eligible for these programs and how to claim these benefits, refer to your fitness and/or weight loss reimbursement materials.
Part 5 – **Covered Services** (continued)

**IMPORTANT:** Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

(When you are enrolled in this health plan as a *group member*, your *group* may exclude these Wellness Rewards health benefits from your *group* health plan and instead may provide a separate Wellness Participation Program to you, as permitted by law. If this applies to you, your yearly evidence of coverage packet will include this information.)

- **Fitness Benefit.** Your health plan will reimburse you for up to three consecutive months of health club membership fees or, as an alternative, fees for up to 10 fitness classes. You can claim this fitness benefit once each calendar year for fees incurred by any combination of *subscriber*, spouse, and/or dependent children enrolled under the same *Blue Cross and Blue Shield* plan. A qualified fitness program is either: a full service health club where you use a variety of cardiovascular and strength-training equipment for fitness; or, a fitness studio where you take instructor-led group classes for cardiovascular and strength-training such as yoga, pilates, zumba, kickboxing, cross-fit, and indoor cycling/spinning. No fitness benefit is provided for any health club initiation fees or fees or costs that you pay for: personal training sessions; country clubs; social clubs (such as ski, tennis, or hiking clubs); sports camps, teams, or leagues; spas; instructional dance studios; pool-only facilities; ski passes; and martial arts schools.

- **Weight Loss Program Benefit.** Your health plan will reimburse you for up to three months of costs for participation in a qualified weight loss program. You can claim this weight loss program benefit once each calendar year for any combination of *subscriber*, spouse, and/or dependent children enrolled under the same *Blue Cross and Blue Shield* plan. A qualified weight loss program is a hospital-based weight loss program or a non-hospital-based weight loss program that focuses on weight loss by modifying eating and physical activity habits and that requires participation in behavioral/lifestyle counseling with nutritionists, registered dieticians, exercise physiologists, or other certified health professionals in multiple sessions throughout enrollment in the program. Program delivery and counseling may be in-person, over the phone, or online. No weight loss program benefit is provided for any fees or costs you pay for: weight loss programs that do not include sessions with a health professional to support progress toward your weight loss goals; individual nutrition counseling sessions (see “Medical Care Outpatient Visits” for your coverage for nutritional counseling); pre-packaged meals; books; videos; scales; or, other weight loss related items or supplies.

To receive your fitness benefit and/or your weight loss program benefit, you must file a claim no later than March 31st after the year for which you are claiming your benefit. If you file your claim during the calendar year for which you are claiming your benefit, the date on which you file the claim will be considered the incurred date. But, if you file your claim after the year for which you are claiming your benefit, the incurred date will be shown as December 31st of the prior year. This means that the incurred date reflects the calendar year for which you are claiming your benefit. To file a claim, you must: fill out a claim form and follow the instructions to submit it to *Blue Cross and Blue Shield*. To get a claim form, log on to the *Blue Cross and Blue Shield* Web site at [www.bluecrossma.com](http://www.bluecrossma.com). If you need help to get a claim form or help to file a claim you can call the *Blue Cross and Blue Shield* customer service office. Be sure to keep your original itemized and paid receipts for qualified fees in the event that *Blue Cross Blue Shield of Massachusetts* asks you for them.

**WORDS IN ITALICS ARE EXPLAINED IN PART 2.**
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

**Prosthetic Devices**
This health plan covers prosthetic devices that you get from an appliance company, or from another provider who is designated by Blue Cross and Blue Shield to furnish the covered prosthetic device. This coverage is provided for devices that are: used to replace the function of a missing body part; made to be fitted to your body as an external substitute; and not useful when you are not ill or injured. Some examples of covered prosthetic devices include (but are not limited to):
- Artificial limb devices to replace (in whole or in part) an arm or a leg. This includes any repairs that are needed for the artificial leg or arm.
- Artificial eyes.
- Ostomy supplies; and urinary catheters.
- Breast prostheses. This includes mastectomy bras.
- Therapeutic/molded shoes and shoe inserts that are furnished for a member with severe diabetic foot disease.
- Insulin infusion pumps and related pump supplies (when your prescription drug coverage under your group health plan is not administered by Blue Cross and Blue Shield).
- One wig (scalp hair prosthesis) in each calendar year (but no less than $350 in coverage each calendar year) for a member whose hair loss is due to: chemotherapy; radiation therapy; infections; burns; traumatic injury; congenital baldness; and medical conditions resulting in alopecia areata or alopecia totalis (capitus). No benefits are provided for wigs when hair loss is due to: male pattern baldness; female pattern baldness; or natural or premature aging.
- Augmentative communication devices. An “augmentative communication device” is one that assists in restoring speech. It is needed when a member is unable to communicate due to an accident, illness, or disease such as amyotrophic lateral sclerosis (ALS).

This health plan covers the most appropriate medically necessary model that meets your medical needs. This means that if Blue Cross and Blue Shield determines that you chose a model that costs more than what you need for your medical condition, benefits will be provided only for those charges that would have been paid for the most appropriate medically necessary model that meets your medical needs. In this case, you must pay all of the provider’s charges that are more than the Blue Cross and Blue Shield claim payment.

**Qualified Clinical Trials for Treatment of Cancer**
This health plan covers health care services and supplies that are received by a member as part of a qualified clinical trial (for treatment of cancer) when the member is enrolled in that trial. This coverage is provided for health care services and supplies that are consistent with the study protocol and with the standard of care for someone with the patient’s diagnosis, and that would be covered if the patient did not participate in the trial. This coverage may also be provided for investigational drugs and devices that have been approved for use as part of the trial. This health plan coverage for health care services and supplies that you receive as part of a qualified clinical trial is provided to the same extent as it would have been provided if you did not participate in a trial.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

No benefits are provided for:
- Investigational drugs and devices that have not been approved for use in the trial.
- Investigational drugs and devices that are paid for by the manufacturer, distributor, or provider of the drug or device, whether or not the drug or device has been approved for use in the trial.
- Non-covered services under your health plan.
- Costs associated with managing the research for the trial.
- Items, services, or costs that are reimbursed or otherwise furnished by the sponsor of the trial.
- Costs that are inconsistent with widely accepted and established national and regional standards of care.
- Costs for clinical trials that are not “qualified trials” as defined by law.

Other Approved Clinical Trials
In addition to clinical trials for cancer, this health plan covers a member who participates in an approved clinical trial for a life-threatening disease or condition, as required by federal law. This means a disease or condition from which death is likely unless the course of the disease is interrupted. This coverage is provided for covered services that are consistent with the study protocol and with the standard of care for a person with the member’s condition; and, as long as the services would be covered if the member did not participate in the trial. But, no benefits are provided for an investigational drug or device, whether or not it has been approved for use in the trial. (This coverage does not apply if your health plan is a grandfathered health plan under the Affordable Care Act.)

Radiation Therapy and Chemotherapy
This health plan covers outpatient radiation and x-ray therapy and chemotherapy when it is furnished for you by a covered provider. This may include (but is not limited to): a physician; or a nurse practitioner; or a free-standing radiation therapy and chemotherapy facility; or a hospital; or a covered provider who has a recognized expertise in specialty pediatrics. This coverage includes:
- Radiation therapy using isotopes, radium, radon, or other ionizing radiation.
- X-ray therapy for cancer or when it is used in place of surgery.
- Drug therapy for cancer (chemotherapy).

Coverage for Orally-Administered Chemotherapy Drugs
In most cases, this health plan will provide full coverage based on the allowed charge for in-network or out-of-network anticancer prescription drugs that are orally administered to kill or slow the growth of cancerous cells. The only exception is when you are enrolled in a high deductible health plan with a health savings account. In this case, your deductible will apply to these covered services. Otherwise, any cost share amounts will not apply for these covered services.

Coverage for Self Injectable and Certain Other Drugs
There are self injectable and certain other prescription drugs used for cancer treatment or treatment of cancer symptoms due to cancer treatment that are covered only as a prescription drug benefit. This means that coverage will be provided for these covered drugs only when the drugs are furnished by a covered pharmacy, even if a non-pharmacy health care provider administers the drug for you during a covered visit.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

For your coverage for these covered drugs, see “Prescription Drugs and Supplies.” No benefits are provided for the cost of these drugs when the drug is furnished by a non-pharmacy health care provider. For a list of these drugs, you can call the Blue Cross and Blue Shield customer service office. Or, you can log on to the Blue Cross and Blue Shield Web site at www.bluecrossma.com.

Second Opinions
This health plan covers an outpatient second opinion when it is furnished for you by a physician. This coverage includes a third opinion when the second opinion differs from the first. (See “Lab Tests, X-Rays, and Other Tests” for your coverage for related diagnostic tests.)

Short-Term Rehabilitation Therapy
This health plan covers medically necessary outpatient short-term rehabilitation therapy when it is furnished for you by a covered provider. This may include (but is not limited to): a physical therapist; or an occupational therapist; or a licensed speech-language pathologist; or a covered provider who has a recognized expertise in specialty pediatrics. This coverage includes: physical therapy; speech/language therapy; occupational therapy; or an organized program of these combined services. This health plan provides coverage only until you reach your benefit limit. Your Schedule of Benefits describes the benefit limit that applies for these covered services. (Also refer to riders—if there are any—that apply to your coverage in this health plan.) Once you reach the benefit limit, no more benefits will be provided for these services. Unless stated otherwise in your Schedule of Benefits (or a rider, if applicable), the benefit limit does not apply: for speech/language therapy; or when any of these services are furnished as part of a covered home health care program; or when any of these services are furnished to treat autism spectrum disorders. Whether or not there is a benefit limit for these services, coverage is provided only for those services that are determined by Blue Cross and Blue Shield to be medically necessary for you.

This coverage is also provided when the short-term therapy is medically necessary habilitation therapy. Coverage for short-term habilitation therapy is most often included in the benefit limit for short-term rehabilitation therapy. But, the benefit limit for short-term habilitation therapy may be separate from the benefit limit for short-term rehabilitation therapy. If this is the case, the Schedule of Benefits for your plan option describes the separate benefit limits that apply for these covered services. (Also refer to riders—if there are any—that apply to your coverage in this health plan.)

What Are Rehabilitation and Habilitation Services
Rehabilitation services are those health care services that help a person keep, get back, or improve skills and functioning that have been lost or impaired because a person was sick, hurt, or disabled. Habilitation services are those health care services that help a person keep, learn, or improve skills and functioning for daily living.

Speech, Hearing, and Language Disorder Treatment
This health plan covers medically necessary services to diagnose and treat speech, hearing, and language disorders when the services are furnished for you by a covered provider. This may include (but is not limited
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

to: a licensed audiologist; or a licensed speech-language pathologist; or a covered provider who has a recognized expertise in specialty pediatrics. This coverage includes: diagnostic tests, including hearing exams and tests; speech/language therapy; and medical care to diagnose or treat speech, hearing, and language disorders. Unless stated otherwise in your Schedule of Benefits (or a rider, if applicable), a benefit limit that applies for short-term rehabilitation therapy does not apply for speech/language therapy.

No benefits are provided when these services are furnished in a school-based setting.

Surgery as an Outpatient
This health plan covers outpatient surgical services when they are furnished for you by a covered provider. This may include (but is not limited to): a surgical day care unit of a hospital; or an ambulatory surgical facility; or a physician; or a nurse practitioner; or a covered provider who has a recognized expertise in specialty pediatrics. This coverage includes:

- Routine circumcision.
- Voluntary termination of pregnancy (abortion).
- Voluntary sterilization procedures. To provide coverage for the women’s preventive health services as recommended by the U.S. Department of Health and Human Services, any in-network deductible, copayment, and/or coinsurance, whichever applies to you, will be waived for a sterilization procedure furnished for a female member when it is performed as the primary procedure for family planning reasons. This provision does not apply to you if your health plan is a grandfathered health plan under the Affordable Care Act. For all situations except as described in this paragraph, the cost share amount for elective surgery will still apply.
- Endoscopic procedures.
- Surgical procedures. This includes emergency and scheduled surgery. This coverage includes (but is not limited to):

  - **Reconstructive surgery.** This means non-dental surgery that is meant to improve or give back bodily function or correct a functional physical impairment that was caused by a birth defect, a prior surgical procedure or disease, or an accidental injury. It also includes surgery to correct a deformity or disfigurement that was caused by an accidental injury. This coverage includes surgery to correct or repair disturbances of body composition caused by HIV associated lipodystrophy syndrome, when the covered provider has determined that this treatment is necessary to correct, repair, or lessen the effects of HIV associated lipodystrophy syndrome. These services include, but are not limited to: reconstructive surgery, such as suction-assisted lipectomy; other restorative procedures; and dermal injections or fillers for reversal of facial lipoatrophy syndrome.

Women’s Health and Cancer Rights
As required by federal law, this coverage includes breast reconstruction in connection with a mastectomy. This health plan provides coverage for: all stages of reconstruction of the breast on which the mastectomy was performed; surgery and reconstruction of the other breast to produce a symmetrical appearance; and prostheses and treatment of physical complications at all stages of

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

**Transplants.** This means human organ (or tissue) and stem cell ("bone marrow") transplants that are furnished according to Blue Cross and Blue Shield medical policy and medical technology assessment criteria. This includes one or more stem cell transplants for a member who has been diagnosed with breast cancer that has spread. For covered transplants, this coverage also includes: the harvesting of the donor’s organ (or tissue) or stem cells when the recipient is a member; and drug therapy during the transplant procedure to prevent the transplanted organ (or tissue) or stem cells from being rejected. “Harvesting” includes: the surgical removal of the donor’s organ (or tissue) or stem cells; and the related medically necessary services and/or tests that are required to perform the transplant itself. No benefits are provided for the harvesting of the donor’s organ (or tissue) or stem cells when the recipient is not a member. (See “Lab Tests, X-Rays, and Other Tests” for your coverage for donor testing.)

**Oral surgery.** This means: reduction of a dislocation or fracture of the jaw or facial bone; excision of a benign or malignant tumor of the jaw; and orthognathic surgery that you need to correct a significant functional impairment that cannot be adequately corrected with orthodontic services. This coverage is provided when the surgery is furnished at a facility, provided that you have a serious medical condition that requires that you be admitted to a surgical day care unit of a hospital or to an ambulatory surgical facility in order for the surgery to be safely performed. This coverage is also provided when the surgery is furnished at an oral surgeon’s office. (Orthognathic surgery is not covered when it is performed mainly for cosmetic reasons. This surgery must be performed along with orthodontic services. If it is not, the oral surgeon must send a letter to Blue Cross and Blue Shield asking for approval for the surgery. No benefits are provided for the orthodontic services, except as described in this benefit booklet on page 31 for the treatment of conditions of cleft lip and cleft palate.)

This health plan may also cover the removal of impacted teeth when the teeth are fully or partially imbedded in the bone. Your Schedule of Benefits will tell you whether or not you have coverage for these services. (Also refer to riders—if there are any—that apply to your coverage in this health plan.)

**Internal prostheses (artificial replacements of parts of the body) that are furnished by the health care facility as part of a covered surgery such as intraocular lenses that are implanted after corneal transplant, cataract surgery, or other covered eye surgery, when the natural eye lens is replaced.**

**Non-dental surgery and necessary postoperative care that is furnished for you by a dentist who is licensed to furnish the specific covered service.** (See Part 6, “Dental Care.”)

- Necessary postoperative care that you receive after covered inpatient or outpatient surgery.
- Anesthesia services that are related to covered surgery. This includes anesthesia that is administered by a physician other than the attending physician; or by a certified registered nurse anesthetist.
IMPORTANT: Refer to your Schedule of Benefits for the cost share amounts that you must pay for covered services and for the benefit limits that may apply to specific covered services. Once you reach your benefit limit for a specific covered service, no more benefits are provided by your health plan for those services or supplies.

- Restorative dental services and orthodontic treatment or prosthetic management therapy for a **member** who is under age 18 to treat conditions of cleft lip and cleft palate. (See page 31 for more information.) If a **copayment** normally applies for office surgery, the office visit **copayment** will be waived for these **covered services**. Any **deductible** and **coinsurance** will still apply.

If a **covered provider**’s office is located at, or professional services are billed by, a hospital, your cost share is the same amount as for an office visit.

**Coverage for Self Injectable and Certain Other Drugs Furnished in an Office or Health Center**

There are self injectable and certain other prescription drugs used for treating your medical condition that are covered only as a prescription drug benefit. This means that coverage will be provided for these covered drugs only when the drugs are furnished by a covered pharmacy, even if a non-pharmacy health care provider administers the drug for you during a covered visit. For your coverage for these covered drugs, see “Prescription Drugs and Supplies.” **No benefits are provided for the cost of these drugs when the drug is furnished by a non-pharmacy health care provider.** For a list of these drugs, you can call the **Blue Cross and Blue Shield** customer service office. Or, you can log on to the **Blue Cross and Blue Shield** Web site at **www.bluecrossma.com**. (This exclusion does not apply when these covered drugs are furnished to you during a covered day surgical admission at a surgical day care unit of a hospital, ambulatory surgical facility, or hospital outpatient department.)

**TMJ Disorder Treatment**

This health plan covers **outpatient** services that are furnished for you by a **covered provider** to diagnose and/or treat temporomandibular joint (TMJ) disorders that are caused by or result in a specific medical condition (such as degenerative arthritis and jaw fractures or dislocations). The medical condition must be proven to exist by means of diagnostic x-ray tests or other generally accepted diagnostic procedures. This coverage includes:

- Diagnostic x-rays.
- Surgical repair or intervention.
- Non-dental medical care services to diagnose and treat a TMJ disorder.
- Splint therapy. (This also includes measuring, fabricating, and adjusting the splint.)
- Physical therapy. (See “Short-Term Rehabilitation Therapy.”)

**No benefits** are provided for: TMJ disorders that are not proven to be caused by or to result in a specific medical condition; appliances, other than a mandibular orthopedic repositioning appliance (MORA); and services, supplies, or procedures to change the height of teeth or otherwise restore occlusion (such as bridges, crowns, or braces).
Part 6
Limitations and Exclusions

Your coverage in this health plan is limited or excluded as described in this part. Other limits or restrictions and exclusions on your coverage may be found in Parts 3, 4, 5, 7, and 8 of this benefit booklet. You should be sure to read all of the provisions that are described in this benefit booklet, your Schedule of Benefits, and any riders that apply to your coverage in this health plan.

Admissions That Start Before Effective Date
This health plan provides coverage only for those covered services that are furnished on or after your effective date. If you are already an inpatient in a hospital (or in another covered health care facility) on your effective date, you or your health care provider must call Blue Cross and Blue Shield. (See Part 4.) This health plan will provide coverage starting on your effective date but only if Blue Cross and Blue Shield is able to coordinate your care. This coverage is subject to all of the provisions that are described in this benefit booklet, your Schedule of Benefits, and any riders that apply to your coverage in this health plan.

Benefits from Other Sources
No benefits are provided for health care services and supplies to treat an illness or injury for which you have the right to benefits under government programs. These include the Veterans Administration for an illness or injury connected to military service. They also include programs set up by other local, state, federal, or foreign laws or regulations that provide or pay for health care services and supplies or that require care or treatment to be furnished in a public facility. No benefits are provided by this health plan if you could have received governmental benefits by applying for them on time. This exclusion does not include Medicaid or Medicare.

Cosmetic Services and Procedures
No benefits are provided for cosmetic services that are performed solely for the purpose of making you look better. This is the case whether or not these services are meant to make you feel better about yourself or to treat your mental condition. For example, no benefits are provided for: acne related services such as the removal of acne cysts, injections to raise acne scars, cosmetic surgery, and dermabrasion or other procedures to plane the skin; electrolysis; hair removal or restoration (except as described in Part 5 for scalp hair prostheses); and liposuction. (See Part 5 for your coverage for reconstructive surgery.)

There may be services that are usually considered cosmetic services but that meet Blue Cross and Blue Shield’s criteria for coverage in certain situations, as defined in Blue Cross and Blue Shield medical policies or medical technology assessment criteria.

Custodial Care
No benefits are provided for custodial care. This type of care may be furnished with or without routine nursing or other medical care and the supervision or care of a physician.
Dental Care
Except as described otherwise in this benefit booklet or your Schedule of Benefits, no benefits are provided for treatment that Blue Cross and Blue Shield determines to be for dental care. This is the case even when the dental condition is related to or caused by a medical condition or medical treatment. There is one exception. This health plan will cover facility charges when you have a serious medical condition that requires that you be admitted to a hospital as an inpatient or to a surgical day care unit of a hospital or to an ambulatory surgical facility in order for your dental care to be safely performed. Some examples of serious medical conditions are: hemophilia; and heart disease.

Educational Testing and Evaluations
No benefits are provided for exams, evaluations, or services that are performed solely for educational or developmental purposes. The only exceptions are for: covered early intervention services; treatment of mental conditions for enrolled dependents who are under age 19; and covered services to diagnose and/or treat speech, hearing, and language disorders. (See Part 5.)

Exams or Treatment Required by a Third Party
No benefits are provided for physical, psychiatric, and psychological exams or treatments and related services that are required by third parties. Some examples of non-covered services are: exams and tests that are required for recreational activities, employment, insurance, and school; and court-ordered exams and services, except when they are medically necessary services. (But, certain exams may be covered when they are furnished as part of a covered routine physical exam. See Part 5.)

Experimental Services and Procedures
This health plan provides coverage only for covered services that are furnished according to Blue Cross and Blue Shield medical technology assessment criteria. No benefits are provided for health care charges that are received for or related to care that Blue Cross and Blue Shield considers experimental services or procedures. The fact that a treatment is offered as a last resort does not mean that this health plan will cover it. There are two exceptions. As required by law, this health plan will cover:
- One or more stem cell (“bone marrow”) transplants for a member who has been diagnosed with breast cancer that has spread.
- Certain drugs that are used on an off-label basis. Some examples of these drugs are: drugs used to treat cancer; drugs used to treat HIV/AIDS; and, long-term antibiotic therapy drugs for the treatment of Lyme disease, if the drug has been approved by the U.S. Food and Drug Administration (FDA) to treat other infectious diseases. (See “Home Health Care” for your coverage for long-term antibiotic therapy treatment of Lyme disease.)

Eyewear
No benefits are provided for eyeglasses and contact lenses, except as described as a covered service in Part 5 or in your Schedule of Benefits and/or riders.

Medical Devices, Appliances, Materials, and Supplies
No benefits are provided for medical devices, appliances, materials, and supplies, except as described otherwise in Part 5. Some examples of non-covered items are:
- Devices such as: air conditioners; air purifiers; arch supports; bath seats; bed pans; bath tub grip bars; chair lifts; computerized communication devices (except for those that are described in Part 5); computers; computer software; dehumidifiers; dentures; elevators; foot orthotics; hearing aids (unless

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
they are described as a *covered service* in your *Schedule of Benefits* and/or *riders*; heating pads; hot water bottles; humidifiers; orthopedic and corrective shoes that are not part of a leg brace; raised toilet seats; and shoe (foot) inserts.

- Special clothing, except for: gradient pressure support aids for lymphedema or venous disease; clothing needed to wear a covered device (for example, mastectomy bras and stump socks); and therapeutic/molded shoes and shoe inserts for a *member* with severe diabetic foot disease.
- Self-monitoring devices, except for certain devices that *Blue Cross and Blue Shield* decides would give a *member* having particular symptoms the ability to detect or stop the onset of a sudden life-threatening condition.

**Missed Appointments**

No benefits are provided for charges for appointments that you do not keep. Physicians and other health care providers may charge you if you do not keep your scheduled appointments. They may do so if you do not give them reasonable notice. You must pay for these costs. Appointments that you do not keep are not counted against any *benefit limits* that apply to your coverage in this health plan.

**Non-Covered Providers**

No benefits are provided for any services and supplies that are furnished by the kinds of health care providers that are not covered by this health plan. This benefit booklet describes the kinds of health care providers that are covered by the health plan. (See “*covered providers*” in Part 2 of this benefit booklet.)

**Non-Covered Services**

No benefits are provided for:

- A service or supply that is not described as a *covered service*. Some examples of non-covered services are: acupuncture (unless it is described as a *covered service* in your *Schedule of Benefits* and/or *riders*); private duty nursing (unless it is described as a *covered service* in your *Schedule of Benefits* and/or *riders*); and reversal of sterilization.
- A service or supply that is furnished along with a non-covered service.
- A service or supply that does not conform to *Blue Cross and Blue Shield* medical policies.
- A service or supply that does not conform to *Blue Cross and Blue Shield* medical technology assessment criteria.
- A service or supply that is not considered by *Blue Cross and Blue Shield* to be medically necessary for you. The only exceptions are for: certain routine or other preventive health care services or supplies; certain covered voluntary health care services or supplies; and donor suitability for bone marrow transplant.
- A service or program, including a residential program, that is furnished in an educational, vocational, or recreational setting; or an “outward bound-type,” “wilderness,” “camp,” or “ranch” program. Also, a service furnished along with one of these non-covered programs, whether or not the service is usually a *covered service*.
- A program for which *Blue Cross and Blue Shield* is not able to conduct concurrent review of continued medical necessity (see Part 4), including a program that has a pre-defined length of care or stay.
- A service or supply that is furnished by a health care provider who has not been approved by *Blue Cross and Blue Shield* for payment for the specific service or supply.
- A service or supply that is furnished to someone other than the patient, except as described in this benefit booklet for: hospice services; and the harvesting of a donor’s organ (or tissue) or stem cells when the recipient is a *member*. This coverage includes the surgical removal of the donor’s organ (or
Part 6 – Limitations and Exclusions (continued)

tissue) or stem cells and the related medically necessary services and tests that are required to perform the transplant itself.

• A service or supply that you received when you were not enrolled in this health plan. (The only exception is for routine nursery charges that are furnished during a covered maternity admission and certain other newborn services.)

• A service or supply that is furnished to all patients due to a facility’s routine admission requirements.

• A service or supply that is related to achieving pregnancy through a surrogate (gestational carrier).

• Refractive eye surgery for conditions that can be corrected by means other than surgery. This type of surgery includes radial keratotomy.

• Whole blood; packed red blood cells; blood donor fees; and blood storage fees.

• A health care provider’s charge for shipping and handling or taxes.

• A health care provider’s charge to file a claim for you. Also, a health care provider’s charge to transcribe or copy your medical records.

• A separate fee for services furnished by: interns; residents; fellows; or other physicians who are salaried employees of the hospital or other facility.

• Expenses that you have when you choose to stay in a hospital or another health care facility beyond the discharge time that is determined by Blue Cross and Blue Shield.

Personal Comfort Items

No benefits are provided for items or services that are furnished for your personal care or for your convenience or for the convenience of your family. Some examples of non-covered items or services are: telephones; radios; televisions; and personal care services.

Private Room Charges

While you are an inpatient, this health plan covers room and board based on the semiprivate room rate. If a private room is used, you must pay all costs that are more than the semiprivate room rate.

Services and Supplies Furnished After Termination Date

No benefits are provided for services and supplies that are furnished after your termination date in this health plan. There is one exception. This health plan will continue to provide coverage for inpatient covered services, but only if you are receiving covered inpatient care on your termination date. In this case, coverage will continue to be provided until all the benefits allowed by your health plan have been used up or the date of discharge, whichever comes first. But, this does not apply if your coverage in this health plan is canceled for misrepresentation or fraud.

Services Furnished to Immediate Family

No benefits are provided for a covered service that is furnished by a health care provider to himself or herself or to a member of his or her immediate family. The only exception is for drugs that this health plan covers when they are used by a physician, dentist, or podiatrist while furnishing a covered service. “Immediate family” means any of the following members of a health care provider’s family:

• Spouse or spousal equivalent.

• Parent, child, brother, or sister (by birth or adoption).

• Stepparent, stepchild, stepbrother, or stepsister.

• Father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law. (For purposes of providing covered services, an in-law relationship does not exist between the provider and the spouse of his or her wife’s (or husband’s) brother or sister.)

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
• Grandparent or grandchild.

For the purposes of this exclusion, the immediate family members listed above will still be considered immediate family after the marriage which had created the relationship is ended by divorce or death.
Part 7

Other Party Liability

Coordination of Benefits (COB)

*Blue Cross and Blue Shield* will coordinate payment of covered services with hospital, medical, dental, health, or other plans under which you are covered. *Blue Cross and Blue Shield* will do this to make sure that the cost of your health care services is not paid more than once. Other plans include: personal injury insurance; automobile insurance, including medical payments coverage; homeowner’s insurance; and other plans that cover hospital or medical expenses.

You must include information on your enrollment forms about all other health plans under which you are covered. Once you are enrolled in this health plan, you must notify *Blue Cross and Blue Shield* if you add or change health plan coverage. Upon *Blue Cross and Blue Shield*’s request, you must also supply *Blue Cross and Blue Shield* with information about other plans that may provide you with coverage for health care services.

Under COB, the plan that provides benefits first is known as the primary payor. And the plan(s) that provide benefits next are known as the secondary payor(s). When coverage under this health plan is secondary, no benefits will be provided until after the primary payor determines its share, if any, of the liability. *Blue Cross and Blue Shield* decides which plan is the primary and secondary payor. To do this, *Blue Cross and Blue Shield* relies on the COB regulations issued by the Massachusetts Division of Insurance (see the COB rules described below). To the extent state law does not govern this health plan, however, state law will not limit *Blue Cross and Blue Shield*’s discretion to determine which is the primary and secondary payor. For example, this health plan is not subject to Massachusetts requirements concerning coordination between no-fault automobile personal injury protection (PIP) and health insurance, and if PIP is available, this health plan will not pay benefits until PIP is exhausted.

This health plan will not provide any more coverage than what is described in this benefit booklet. *Blue Cross and Blue Shield* will not provide duplicate benefits for covered services. If *Blue Cross and Blue Shield* pays more than the amount that it should have under COB, then you must give that amount back to *Blue Cross and Blue Shield*. *Blue Cross and Blue Shield* has the right to get that amount back from you or any appropriate person, insurance company, or other organization.

**Important Notice:** If you fail to comply with the provisions of this COB section, payment of your claim may be denied.

**COB Rules to Determine the Order of Benefits**

When other plan(s) under which you are covered include COB rules consistent with the COB rules described in this section, *Blue Cross and Blue Shield* will decide which plan is the primary payor and the secondary payor based on these COB rules. However, if another plan under which you are covered does not include COB rules consistent with the COB rules described below, that plan will determine benefits before this health plan.

- **Employee/Dependent Rule.** The plan that covers the person who is claiming benefits as an employee (the *subscriber*) will determine benefits before a plan under which that person is covered as a dependent.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
• **Children of Parents Who Are Not Separated or Divorced (“Birthday Rule”).** When the person who is claiming benefits is covered under two or more plans as a dependent child of parents who are not separated or divorced, the plan of the parent whose birthday falls earlier in a year will determine benefits before the plan of the parent whose birthday falls later in the year. This is referred to as the “birthday rule.” This refers only to the month and day in a calendar year, not the year in which the parent was born. However, if both parents have the same birthday, the plan that has covered a parent the longest will determine benefits before the plan that has covered a parent for a shorter period of time. (If another plan does not include the “birthday rule” described in this section, but instead includes a rule based on the gender of the parent and as a result, if the plans do not agree on the order of benefits, the “birthday rule” will be used to determine the order of benefits.)

• **Children of Separated or Divorced Parents.** When the person who is claiming benefits is a covered child of parents who are separated or divorced, unless there is a court order that requires one parent to be responsible for health care coverage, the order used to determine benefits will be: (1) the plan of the parent who has custody of the child will determine benefits before the plan of the parent who does not have custody of the child; (2) the plan of the spouse of the parent who has custody will determine benefits before the plan of the parent who does not have custody of the child; and then (3) the plan of the parent who does not have custody of the child.

If there is a court decree that states that one of the parents is responsible for health care expenses of the child, the plan covering that parent will determine benefits first, provided that the plan has knowledge of the terms of the court decree. If a court decree grants joint custody but does not state that one parent is responsible for the child’s health care expenses, the “birthday rule” described above will be used to determine the order of benefits.

• **Active/Inactive Employee Status.** The plan that covers the person who is claiming benefits as an active employee (or as a dependent of that employee) will determine benefits before a plan under which that person is covered as a laid-off or retired employee (or as a dependent of that employee). If another plan does not include this COB rule and if, as a result the plans do not agree on the order of benefits, this COB rule will not be used to determine the order of benefits.

• **Plans with the Earlier Effective Date.** If none of the previous COB rules determine the order of benefits, the plan that has covered the person who is claiming benefits longer will be determined before the plan that has covered the person who is claiming benefits for a shorter period of time.

If other plan(s) under which you are covered do not include COB rules consistent with the COB rules described in this section, that plan will determine benefits before this health plan.

**Medicare Program**
When you are eligible for Medicare and Medicare is allowed by federal law to be the primary payor, the coverage provided by this health plan will be reduced by the amount of benefits allowed under Medicare for the same **covered services**. This reduction will be made whether or not you actually receive the benefits from Medicare.

**Under Age 65 with End Stage Renal Disease (ESRD)**
If you are under age 65 and are eligible for Medicare only because of ESRD (permanent kidney failure), the benefits of this health plan will be provided before Medicare benefits. This is the case only during the first 30 months of your ESRD Medicare coverage. After 30 months, the benefits that are provided by this health plan will be reduced by the amount that Medicare allows for the same **covered services**.
Under Age 65 with Other Disability
If your group employs 100 or more employees and if you are under age 65 and you are eligible for Medicare only because of a disability other than ESRD, this health plan will provide benefits before Medicare benefits. This is the case only if you are the actively employed subscriber or the enrolled spouse or dependent of the actively employed subscriber. If you are an inactive employee or a retiree or the enrolled spouse or dependent of the inactive employee or retiree, the benefits that are provided by this health plan will be reduced by the amount that Medicare allows for the same covered services. (In some cases, this provision also applies to certain smaller groups. Your plan sponsor can tell you if it applies to your group.)

Age 65 or Older
If you are age 65 or older and are eligible for Medicare only because of age, this health plan will provide benefits before Medicare benefits as long as you have chosen this health plan as your primary payor. This can be the case only if you are an actively employed subscriber or the enrolled spouse of the actively employed subscriber. (If you are actively employed at the time you reach age 65 and become eligible for Medicare, you must choose between Medicare and this health plan as the primary payor of your health care benefits. For more help, contact your plan sponsor.)

Dual Medicare Eligibility
If you are eligible for Medicare because of ESRD and a disability or because of ESRD and you are age 65 or older, this health plan will provide benefits before Medicare benefits. This is the case during the first 30 months of your ESRD Medicare coverage only if the coverage under this health plan was primary when you became eligible for ESRD Medicare benefits. Then, for as long as you maintain dual Medicare eligibility, the benefits that are provided by this health plan will be reduced by the amount that Medicare allows for the same covered services. (This provision may not apply to you. To find out if it does, contact your plan sponsor.)

The Health Plan’s Rights to Recover Benefit Payments
Subrogation and Reimbursement of Benefit Payments
If you are injured by any act or omission of another person, the benefits under this health plan will be subrogated. This means that this health plan and Blue Cross and Blue Shield, as this health plan’s representative, may use your right to recover money from the person(s) who caused the injury or from any insurance company or other party. If you recover money, this health plan is entitled to recover up to the amount of the benefit payments that it has made. This is true no matter where or by whom the recovered money is held or how it is designated and even if you do not recover the total amount of your claim against the other person(s). This is also true if the payment you receive is described as payment for other than health care expenses. The amount you must reimburse this health plan will not be reduced by any attorney’s fees or expenses you incur.

Member Cooperation
You must give Blue Cross and Blue Shield, as this health plan’s representative, information and help. This means you must complete and sign all necessary documents to help Blue Cross and Blue Shield get this money back on behalf of this health plan. This also means that you must give Blue Cross and Blue Shield timely notice of all significant steps during the negotiation, litigation or settlement with any third party (such as filing a claim or lawsuit, initiation of settlement discussions, agreement to a settlement in principle, etc.) and before settling any claim arising out of injuries you sustained by an act or omission of another person(s) for which this health plan paid benefits. You must not do anything that might limit this health plan’s right to full reimbursement.
Workers’ Compensation
No coverage is provided for health care services that are furnished to treat an illness or injury that Blue Cross and Blue Shield determines was work-related. This is the case even if you have an agreement with the workers’ compensation carrier that releases them from paying for the claims. All employers provide their employees with workers’ compensation or similar insurance. This is done to protect employees in case of a work-related illness or injury. All health care claims for a work-related illness or injury must be billed to the employer’s workers’ compensation carrier. It is up to you to use the workers’ compensation insurance. If Blue Cross and Blue Shield pays for any work-related health care services, Blue Cross and Blue Shield, on behalf of this health plan, has the right to get paid back from the party that legally must pay for the health care claims. Blue Cross and Blue Shield, on behalf of this health plan, also has the right, where possible, to reverse payments made to providers. If you have recovered any benefits from a workers’ compensation insurer (or from an employer liability plan), Blue Cross and Blue Shield on behalf of this health plan has the right to recover from you the amount of benefits it has paid for your health care services. This is the case even if:

- the workers’ compensation benefits are in dispute or are made by means of a settlement or compromise;
- no final determination is made that an injury or illness was sustained in the course of or resulted from your employment;
- the amount of workers’ compensation due to medical or health care is not agreed upon or defined by you or the workers’ compensation carrier; or
- the medical or health care benefits are specifically excluded from the workers’ compensation settlement or compromise.

If Blue Cross and Blue Shield is billed in error for these services, you must promptly call or write to the Blue Cross and Blue Shield customer service office.
Part 8
Other Health Plan Provisions

Access to and Confidentiality of Medical Records
*Blue Cross and Blue Shield* and health care providers may, in accordance with applicable law, have access to all of your medical records and related information that is needed by *Blue Cross and Blue Shield* or health care providers. *Blue Cross and Blue Shield* may collect information from health care providers or from other insurance companies or the plan sponsor. *Blue Cross and Blue Shield* will use this information to help them administer the coverage provided by this health plan and to get facts on the quality of care that is provided under this and other health care contracts. In accordance with law, *Blue Cross and Blue Shield* and health care providers may use this information and may disclose it to necessary persons and entities as permitted and required by law. For example, *Blue Cross and Blue Shield* may use and disclose it as follows:

- For administering coverage (including coordination of benefits with other insurance plans); managing care; quality assurance; utilization management; the prescription drug history program; appeal and claims review activities; or other specific business, professional, or insurance functions for *Blue Cross and Blue Shield*.
- For bona fide medical research according to the regulations of the U.S. Department of Health and Human Services and the U.S. Food and Drug Administration (FDA) for the protection of human subjects.
- As required by law or valid court order.
- As required by government or regulatory agencies.
- As necessary for the operations of *Blue Cross and Blue Shield* of Massachusetts, Inc.
- As required by the subscriber’s group or by its auditors to make sure that *Blue Cross and Blue Shield* is administering your coverage in this health plan properly.
- For the purpose of processing a claim, medical information may be released to your group’s reinsurance carrier.

*Blue Cross and Blue Shield* will not share information about you with the Medical Information Bureau (MIB). *Blue Cross and Blue Shield* respects your right to privacy. *Blue Cross and Blue Shield* will not use or disclose personally identifiable information about you without your permission, unless the use or disclosure is permitted or required by law and is done in accordance with the law. You have the right to get the information *Blue Cross and Blue Shield* collects about you. You may also ask *Blue Cross and Blue Shield* to correct any of this information that you believe is not correct. *Blue Cross and Blue Shield* may charge you a reasonable fee for copying your records, unless your request is because *Blue Cross and Blue Shield* is declining or terminating your coverage in this health plan.

**Important Notice:** To get a copy of *Blue Cross and Blue Shield*’s Commitment to Confidentiality statement, call the *Blue Cross and Blue Shield* customer service office. (See Part 1.)

**Acts of Providers**

*Blue Cross and Blue Shield* is not liable for the acts or omissions by any individuals or institutions that furnish care or services to you. In addition, a health care provider who participates in your health care network and has a payment agreement with *Blue Cross and Blue Shield* or any other health care provider does not act as an agent on behalf of or for *Blue Cross and Blue Shield*. And, *Blue Cross and Blue Shield*
does not act as an agent for health care providers who participate in your health care network and have payment agreements with Blue Cross and Blue Shield or for any other health care providers.

Blue Cross and Blue Shield will not interfere with the relationship between health care providers and their patients. You are free to select or discharge any health care provider. Blue Cross and Blue Shield is not responsible if a provider refuses to furnish services to you. Blue Cross and Blue Shield does not guarantee that you will be admitted to any facility or that you will get a special type of room or service. If you are admitted to a facility, you will be subject to all of its requirements. This includes its requirements on admission, discharge, and the availability of services.

Assignment of Benefits
You cannot assign any benefit or monies due from this health plan to any person, corporation, or other organization without Blue Cross and Blue Shield’s written consent. Any assignment by you will be void. Assignment means the transfer of your rights to the benefits provided by this health plan to another person or organization. There is one exception. If Medicaid has already paid the health care provider, you can assign your benefits to Medicaid.

Authorized Representative
You may choose to have another person act on your behalf concerning your health care coverage in this health plan. You must designate this person in writing to Blue Cross and Blue Shield. Or, if you are not able to do this, a person such as a conservator, a person with power of attorney, or a family member may be your authorized representative. In some cases, Blue Cross and Blue Shield may consider your health care facility or your physician or other health care provider to be your authorized representative. For example, Blue Cross and Blue Shield may tell your hospital that a proposed inpatient admission has been approved. Or, Blue Cross and Blue Shield may ask your physician for more information if more is needed for Blue Cross and Blue Shield to make a decision. Blue Cross and Blue Shield will consider the health care provider to be your authorized representative for emergency medical care. Blue Cross and Blue Shield will continue to send benefit payments and written communications regarding your health care coverage according to Blue Cross and Blue Shield’s standard practices, unless you specifically ask Blue Cross and Blue Shield to do otherwise. You can get a form to designate an authorized representative from the Blue Cross and Blue Shield customer service office. (See Part 1.)

Changes to Health Plan Coverage
Blue Cross and Blue Shield and/or the plan sponsor may change the provisions of your coverage in this health plan. For example, a change may be made to the cost share amount that you must pay for certain covered services such as your copayment or your deductible or your coinsurance. The plan sponsor is responsible for sending you a notice of any change. The notice will describe the change being made. It will also give the effective date of the change. When a change is made to your health care coverage, you can get the actual language of the change from your plan sponsor. The change will apply to all benefits for services you receive on or after its effective date.

Charges for Non-Medically Necessary Services
You may receive health care services that would otherwise be covered by this health plan, except that these services are not determined to be medically necessary for you by Blue Cross and Blue Shield. This health plan does not cover health care services or supplies that are not medically necessary for you. If you receive care that is not medically necessary for you, you might be charged for the care by the health care provider. A provider who has a payment agreement with Blue Cross and Blue Shield has agreed not to charge you
for services that are not *medically necessary*, unless you were told, knew, or reasonably should have known before you received this treatment that it was not *medically necessary*.

**Clinical Guidelines and Utilization Review Criteria**

Blue Cross and Blue Shield applies medical technology assessment criteria and medical necessity guidelines when it develops its clinical guidelines, utilization review criteria, and medical policies. Blue Cross and Blue Shield reviews its clinical guidelines, utilization review criteria, and medical policies from time to time. Blue Cross and Blue Shield does this to reflect new treatments, applications, and technologies. For example, when a new drug is approved by the U.S. Food and Drug Administration (FDA), Blue Cross and Blue Shield reviews its safety, effectiveness, and overall value on an ongoing basis. While a new treatment, technology, or drug is being reviewed, it will not be covered by this health plan. Another example is when services and supplies are approved by the U.S. Food and Drug Administration (FDA) for the diagnosis and treatment of insulin dependent, insulin using, gestational, or non-insulin dependent diabetes. In this case, coverage will be provided for those services or supplies as long as they can be classified under a category of covered services.

**Disagreement with Recommended Treatment**

When you enroll for coverage in this health plan, you agree that it is up to your health care provider to decide the right treatment for your care. You may (for personal or religious reasons) refuse to accept the procedures or treatments that are advised by your health care provider. Or, you may ask for treatment that a health care provider judges does not meet generally accepted standards of professional medical care. You have the right to refuse the treatment advice of the health care provider. Or, you have the right to seek other care at your own expense. If you want a second opinion about your care, you have the right to coverage for second and third opinions. (See Part 5.)

**Member Cooperation**

You agree to provide *Blue Cross and Blue Shield* with information it needs to comply with federal and/or state law and regulation. If you do not do so in a timely manner, your claims may be denied and/or your coverage in this health plan may be affected.

**Pre-Existing Conditions**

*Your coverage in this health plan is not limited based on medical conditions that are present on or before your effective date.* This means that your health care services will be covered from the effective date of your coverage in this health plan without a pre-existing condition restriction or a waiting period. But, benefits for these health care services are subject to all the provisions of this health plan.

**Quality Assurance Programs**

*Blue Cross and Blue Shield* uses quality assurance programs. These programs affect different aspects of health care. This may include, for example, health promotion. From time to time, *Blue Cross and Blue Shield* may add or change the programs that it uses. *Blue Cross and Blue Shield* will do this to ensure that it continues to provide you and your family with access to high-quality health care and services. For more information, you can call the *Blue Cross and Blue Shield* customer service office. The toll free phone number to call is shown on your ID card. Some of the clinical programs that *Blue Cross and Blue Shield* uses are:

- A breast cancer screening program. It encourages female *members* who are over 50 to have mammograms.

*WORDS IN ITALICS ARE EXPLAINED IN PART 2.*
• A cervical cancer screening program. It helps to get more female members who are age 18 and older to have a Pap smear test.
• A program that furnishes outreach and education to pregnant members. It adds to the care that the member gets from an obstetrician or nurse midwife.
• A program that promotes timely postnatal checkups.
• Diabetes management and education. This helps diabetic members to self-manage their diabetes. It also helps to identify high-risk members and helps to assess their ongoing needs.
• Congestive heart failure disease management, education, and monitoring.

Services Furnished by Non-Preferred Providers
As a member of this health plan, you will usually receive the highest benefit level (your in-network benefits) only when you obtain covered services from a covered provider who participates in your PPO health care network. There are a few times when this health plan will provide in-network benefits for covered services you receive from a covered provider who does not participate in your PPO network. These few situations are described below in this section. If you receive covered services from a covered provider who does not participate in your PPO health care network, you will receive in-network benefits only when:

• You receive emergency medical care.
• You receive covered services that are not reasonably available from a preferred provider (see “covered provider” in Part 2 of this benefit booklet) and you had prior approval from Blue Cross and Blue Shield to obtain these covered services. Or, you receive covered services from a covered provider before a preferred network is established for that type of provider.
• You are living or traveling outside of Massachusetts and you receive covered services from a type of covered provider for which the local Blue Cross and/or Blue Shield Plan has not, in the opinion of Blue Cross and Blue Shield, established an adequate PPO health care network.
• You receive medically necessary covered services while you are at a preferred hospital or other preferred facility and you do not have a reasonable opportunity to choose to have your covered services furnished by a preferred provider. Or, you receive covered services from a non-preferred hospital-based anesthetist, pathologist, or radiologist while you are at a preferred hospital.

This health plan will also provide in-network benefits in the event Medicare is your primary payor (as allowed by federal law) and you receive covered services from a non-preferred provider outside of Massachusetts and that provider accepts Medicare assignment, whether or not the provider participates with the local Blue Cross and/or Blue Shield Plan. (Medicare assignment is an agreement by the provider to accept the Medicare-approved amount as payment in full for services furnished.)

Services in a Disaster
Blue Cross and Blue Shield is not liable if events beyond its control—such as war, riot, public health emergency, or natural disaster—cause delay or failure of Blue Cross and Blue Shield to arrange for or coordinate access to health care services and coverage for members. Blue Cross and Blue Shield will make a good faith effort to arrange for or to coordinate health care services to be furnished in these situations.

Time Limit for Legal Action
Before you pursue a legal action against Blue Cross and Blue Shield for any claim under this health plan, you must complete the Blue Cross and Blue Shield internal formal review. (See Part 10.) You may, but you do not need to, complete an external review before you pursue a legal action. If, after you complete the formal review, you choose to bring a legal action against Blue Cross and Blue Shield, you must bring this action within two years after the cause of the action arises. For example, if you are filing a legal action
because you were denied a service or you were denied a claim for coverage from this health plan, you will lose your right to bring a legal action against Blue Cross and Blue Shield unless you file your action within two years after the date of the decision of the final internal appeal of the service or claim denial.
Part 9
Filing a Claim

When the Provider Files a Claim
The health care provider will file a claim for you when you receive a covered service from a covered provider who has a payment agreement with Blue Cross and Blue Shield. Or, for covered services you receive outside of Massachusetts, a health care provider will file a claim for you when he or she has a payment agreement with the local Blue Cross and/or Blue Shield Plan. Just tell the health care provider that you are a member and show the health care provider your ID card. Also, be sure to give the health care provider any other information that is needed to file your claim. You must properly inform your health care provider within 30 days after you receive the covered service. If you do not, coverage will not have to be provided. Blue Cross and Blue Shield will pay the health care provider directly for covered services when the provider has a payment agreement with Blue Cross and Blue Shield or with the local Blue Cross and/or Blue Shield Plan. (When you are outside the United States, Puerto Rico, and the U.S. Virgin Islands and the Blue Cross Blue Shield Global Core Service Center has arranged your inpatient admission, the hospital should file the claim for you. In this case, the hospital will usually bill you only for your deductible and/or your copayment and/or your coinsurance, whichever applies. But, if you paid the hospital’s actual charge in full at the time of the service, you must submit a claim as described in the section below.)

When the Member Files a Claim
You may have to file your claim when you receive a covered service from a covered provider who does not have a payment agreement with Blue Cross and Blue Shield or a covered provider outside of Massachusetts who does not have a payment agreement with the local Blue Cross and/or Blue Shield Plan. The health care provider may ask you to pay the entire charge at the time of the visit or at a later time. It is up to you to pay your health care provider. To file a claim to Blue Cross and Blue Shield for repayment, you must:

- Fill out a claim form;
- Attach your original itemized bills; and
- Mail the claim to the Blue Cross and Blue Shield customer service office.

You can get claim forms from the Blue Cross and Blue Shield customer service office. (See Part 1.) Blue Cross and Blue Shield will mail to you all forms that you will need within 15 days after receiving notice that you obtained some service or supply for which you may be paid.

When you receive covered services outside the United States, Puerto Rico, and the U.S. Virgin Islands, you must file your claim to the Blue Cross Blue Shield Global Core Service Center. (The Blue Cross Blue Shield Global Core Claim Form you receive from Blue Cross and Blue Shield will include the address to mail your claim.) You can get help with filing your claim by calling the service center at 1-800-810-BLUE.

You must file a claim within two years of the date you received the covered service. This health plan will not have to provide coverage for services and/or supplies for which a claim is submitted after this two-year period.

Timeliness of Claim Payments
Within 30 calendar days after Blue Cross and Blue Shield receives a completed request for coverage or payment, Blue Cross and Blue Shield will make a decision. When appropriate, Blue Cross and Blue Shield

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
will make a payment to the health care provider (or to you in certain situations) for your claim to the extent of your coverage in this health plan. Or, Blue Cross and Blue Shield will send you and/or the health care provider a notice in writing of why your claim is not being paid in full or in part.

**Missing Information**

If the request for coverage or payment is not complete or if Blue Cross and Blue Shield needs more information to make a final determination for your claim, Blue Cross and Blue Shield will ask for the information or records it needs. Blue Cross and Blue Shield will make this request within 30 calendar days of the date that Blue Cross and Blue Shield received the request for coverage or payment. This additional information must be provided to Blue Cross and Blue Shield within 45 calendar days of this request.

- **Missing Information Received Within 45 Days.** If the additional information is provided to Blue Cross and Blue Shield within 45 calendar days of Blue Cross and Blue Shield’s request, Blue Cross and Blue Shield will make a decision within the time remaining in the original 30-day claim determination period. Or, Blue Cross and Blue Shield will make the decision within 15 calendar days of the date that the additional information is received by Blue Cross and Blue Shield, whichever is later.

- **Missing Information Not Received Within 45 Days.** If the additional information is not provided to Blue Cross and Blue Shield within 45 calendar days of Blue Cross and Blue Shield’s request, the claim for coverage or payment will be denied by Blue Cross and Blue Shield. If the additional information is submitted to Blue Cross and Blue Shield after these 45 days, then it may be viewed by Blue Cross and Blue Shield as a new claim for coverage or payment. In this case, Blue Cross and Blue Shield will make a decision within 30 days as described previously in this section.
Part 10

Appeal and Grievance Program

You have the right to a full and fair review when you disagree with a decision that is made by Blue Cross and Blue Shield to deny a request for coverage or payment for services; or you disagree with how your claim was paid; or you are denied coverage in this health plan; or your coverage is canceled or discontinued by Blue Cross and Blue Shield for reasons other than nonpayment of your cost for coverage in this group health plan. You also have the right to a full and fair review when you have a complaint about the care or service you received from Blue Cross and Blue Shield or from a provider who participates in your health care network. Part 10 explains the process for handling these types of problems and concerns.

When making a determination under this health plan, Blue Cross and Blue Shield has full discretionary authority to interpret this benefit booklet and to determine whether a health service or supply is a covered service under this health plan. All determinations by Blue Cross and Blue Shield with respect to benefits under this health plan will be conclusive and binding unless it can be shown that the interpretation or determination was arbitrary and capricious.

Inquiries and/or Claim Problems or Concerns
Most problems or concerns can be handled with just one phone call. For help to resolve a problem or concern, you should first call the Blue Cross and Blue Shield customer service office. The toll free phone number to call is shown on your ID card. A customer service representative will work with you to help you understand your coverage or to resolve your problem or concern as quickly as possible.

Blue Cross and Blue Shield will consider all aspects of the particular case when resolving a problem or concern. This includes looking at: all of the provisions of this health plan; the policies and procedures that support this health plan; the health care provider’s input; and your understanding of coverage by this health plan. Blue Cross and Blue Shield may use an individual consideration approach when Blue Cross and Blue Shield judges it to be appropriate. Blue Cross and Blue Shield will follow its standard guidelines when it resolves your problem or concern.

If after speaking with a Blue Cross and Blue Shield customer service representative, you still disagree with a decision that is given to you, you may request a formal review through the Blue Cross and Blue Shield Member Appeal and Grievance Program.

Appeal and Grievance Review Process

Internal Formal Review

How to Request an Internal Formal Appeal or Grievance Review
To request an internal formal appeal or grievance review, you (or your authorized representative) have three options:

- **To write or send a fax.** The preferred option is for you to send your request for an appeal or a grievance review in writing to: Member Appeal and Grievance Program, Blue Cross Blue Shield of Massachusetts, One Enterprise Drive, Quincy, MA 02171-2126. Or, you may fax your request to 1-617-246-3616. Blue Cross and Blue Shield will let you know that your request was received by
sending you a written confirmation within 15 calendar days. When you send your request, you should be sure to include any documentation that will help the review.

- **To send an e-mail.** You may send your request for an appeal or a grievance review to the Blue Cross and Blue Shield Member Appeal and Grievance Program e-mail address grievances@bcbsma.com. Blue Cross and Blue Shield will let you know that your request was received by sending you a confirmation immediately by e-mail. When you send your request, you should be sure to include any documentation that will help the review.

- **To make a telephone call.** You may call the Blue Cross and Blue Shield Member Appeal and Grievance Program at 1-800-472-2689.

Before you make an appeal or file a grievance, you should read “What to Include in an Appeal or Grievance Review Request” that shows later in this section.

Once your appeal or grievance request is received, Blue Cross and Blue Shield will research the case in detail. Blue Cross and Blue Shield will ask for more information if it is needed and let you know in writing of the review decision or the outcome of the review. If your request for a review is about termination of your coverage for concurrent services that were previously approved by Blue Cross and Blue Shield, the disputed coverage will continue until this review process is completed. This continuation of your coverage does not apply to services; that are limited by a day, dollar, or visit benefit limit; that are non-covered services; or that were received prior to the time you requested the formal review. It also does not apply if your request for a review was not received on a timely basis, based on the course of the treatment.

All requests for an appeal or a grievance review must be received by Blue Cross and Blue Shield within 180 calendar days of the date of treatment, event, or circumstance which is the cause of your dispute or complaint, such as the date you were told of the service denial or claim denial.

**What to Include in an Appeal or Grievance Review Request**

Your request for an internal formal appeal or grievance review should include: the name, ID number, and daytime phone number of the member asking for the review; a description of the problem; all relevant dates; names of health care providers or administrative staff involved; and details of the attempt that has been made to resolve the problem.

- **Appealing a Coverage Decision.** A “coverage decision” is a decision that Blue Cross and Blue Shield makes about your coverage or about the amount your group health plan will pay for your health care services or drugs. For example, your doctor may have to contact Blue Cross and Blue Shield and ask for a coverage decision before you receive proposed services. Or, a coverage decision is made when Blue Cross and Blue Shield decides what is covered and how much you will pay for services you have already received. In some cases, Blue Cross and Blue Shield might decide a service or drug is not covered or is no longer covered for you. You can make an appeal if you disagree with a coverage decision made by Blue Cross and Blue Shield.

When you make an appeal about a medical necessity coverage decision, Blue Cross and Blue Shield will review your health plan contract and the policies and procedures that are in effect for your appeal along with medical treatment information that will help in the review. Some examples of the medical information that will help Blue Cross and Blue Shield review your appeal may include: medical records related to your appeal, provider consultation and office notes, and related lab or other test results. If Blue Cross and Blue Shield needs to review your medical records and you have not
If you disagree with how your claim was paid or you are denied coverage for a specific health care service or drug, you can make an appeal about the coverage decision. Blue Cross and Blue Shield will review the health plan contract that is in effect for your appeal to see if all of the rules were properly followed and to see if the service or drug is specifically excluded or limited by your health plan. The appeal decision will be based on the terms of your health plan contract. For example, if a service is excluded or limited by your health plan contract, no benefits can be provided even if the services are medically necessary for you. For this reason, you should be sure to review all parts of your health plan contract for any coverage limits and exclusions. These parts include this benefit booklet, your Schedule of Benefits, and riders (if there are any) that apply for your health plan contract.

- **Filing a Grievance.** You can file a grievance when you have a complaint about the care or service you received from Blue Cross and Blue Shield or from a health care provider who participates in your health care network. Some examples of these types of problems are: you are unhappy with the quality of the care you have received; you are having trouble getting an appointment or waiting too long to get care; or you are unhappy with how the customer service representative has treated you. If you submit a formal grievance about the quality of care you received from a Blue Cross and Blue Shield provider, Blue Cross and Blue Shield will contact you to obtain your permission to contact the provider (if your permission is not included in your formal grievance). For this type of grievance, Blue Cross and Blue Shield will investigate the grievance with your permission, but the results of any provider peer review are confidential. For this reason, you will not receive the results of this type of investigation.

**Choosing an Authorized Representative**
You may choose to have another person act on your behalf during the appeal or grievance review process. You must designate this person in writing to Blue Cross and Blue Shield. Or, if you are not able to do this, a person such as a conservator, a person with power of attorney, or a family member may be your authorized representative. Or, he or she may appoint another party to be the authorized representative. (When you are an inpatient, a health care provider may act as your authorized representative to ask for an expedited review. In this case, you do not have to designate the health care provider in writing.)

**Who Handles the Appeal or Grievance Review**
All appeals and grievances are reviewed by professionals who are knowledgeable about Blue Cross and Blue Shield and the issues involved in the appeal or grievance. The professionals who will review your appeal or grievance will be different from those who participated in Blue Cross and Blue Shield’s prior decisions regarding the subject of your review, nor will they work for anyone who did. When a review is related to a medical necessity denial, at least one reviewer will be an individual who is an actively practicing health care professional in the same or similar specialty who usually treats the medical condition or performs the procedure or provides treatment that is the subject of your review.

**Response Time for an Appeal or Grievance Review**
The review and response for an internal formal appeal or grievance review will be completed within 30 calendar days. Every reasonable effort will be made to speed up the review for requests that involve health care services that are soon to be obtained by the member.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
Blue Cross and Blue Shield may extend the 30-calendar-day time frame to complete a review when both Blue Cross and Blue Shield and the member agree that additional time is required to fully investigate and respond to the request. Blue Cross and Blue Shield may also extend the 30-calendar-day time frame when the review requires your medical records and Blue Cross and Blue Shield needs your authorization to get these records. The 30-day response time will not include the days from when Blue Cross and Blue Shield sends you the authorization form to sign until it receives your signed authorization form. If Blue Cross and Blue Shield does not receive your authorization within 30 working days after your request for a review is received, Blue Cross and Blue Shield may make a final decision about your request without that medical information. In any case, for a review involving services that have not yet been obtained by you, Blue Cross and Blue Shield will ask for your permission to extend the 30-day time frame if it cannot complete the review within 30 calendar days of receipt of your request for a review.

**Important Note:** If your appeal or grievance review began after an inquiry, the 30-day response time will begin on the day you tell Blue Cross and Blue Shield that you disagree with Blue Cross and Blue Shield’s answer and would like an internal formal review.

**Written Response for an Appeal or Grievance Review**
Once the review is completed, Blue Cross and Blue Shield will let you know in writing of the decision or the outcome of the review. If Blue Cross and Blue Shield continues to deny coverage for all or part of a health care service or supply, Blue Cross and Blue Shield will send an explanation to you. This notice will include: information related to the details of your appeal or grievance; the reasons that Blue Cross and Blue Shield has denied the request and the applicable terms of your coverage in this health plan; the specific medical and scientific reasons for which Blue Cross and Blue Shield has denied the request; any alternative treatment or health care services and supplies that would be covered; Blue Cross and Blue Shield clinical guidelines that apply and were used and any review criteria; and how to request an external review.

**Appeal and Grievance Review Records**
You have the right to look at and get copies of records and criteria that Blue Cross and Blue Shield has and that are relevant to your appeal or grievance. These copies will be free of charge. Blue Cross and Blue Shield will maintain a record of all formal appeals and grievances, including the response for each review, for up to seven years.

**Expedited Review for Immediate or Urgently-Needed Services**
In place of the internal formal review as described above in this section, you have the right to request an “expedited” review right away when your situation is for immediate or urgently-needed services and waiting for a response under the review time frames described above would seriously jeopardize your life or health or your ability to regain maximum function as determined by Blue Cross and Blue Shield or your physician, or if your physician says that you will have severe pain that cannot be adequately managed without the care or treatment that is the subject of the review. If you request an expedited review, Blue Cross and Blue Shield will review your request and notify you of the decision within 72 hours after your request is received, or such shorter time period as required by federal law.

**External Review**
You must first go through the Blue Cross and Blue Shield internal formal appeal and grievance review process as described above. The Blue Cross and Blue Shield review decision may be to continue to deny all or part of your coverage in this health plan. In this case, you may be entitled to a voluntary external review. You are not required to pursue an external review. Your decision whether to pursue an external review will not affect your other coverage. If you receive a denial letter from Blue Cross and Blue Shield in response to your internal appeal or grievance review, the letter will tell you what steps you can take to file a request for an external review. If you decide to request an external review, you must file your
request within the four months after you receive the denial letter from Blue Cross and Blue Shield. Blue Cross and Blue Shield will work closely with you to guide you through the external review process.

You (or your authorized representative) have the right to file an “expedited” external review at the same time that you file a request for an internal expedited review. This right applies to a member who is in an urgent care situation or to a member receiving an ongoing course of treatment. See below for more information about requesting an expedited external review.

How to Request an External Review
To request an external review, you must complete the external review request form that is provided with the denial letter you receive from Blue Cross and Blue Shield. Once your external review request form is completed, you must send it to Blue Cross and Blue Shield as shown on the form.

You (or your authorized representative) have the right to request an expedited review when your situation is for immediate or urgently-needed services as follows:

- When your request concerns medical care or treatment for which waiting for a response under the standard (non-expedited) external review time frames would seriously jeopardize your life or health or your ability to regain maximum function; or
- When your request concerns an internal formal review final adverse benefit determination for an admission, availability of care, continued stay, or health care services for which you received emergency services, while you are an inpatient.

External Review Process
When Blue Cross and Blue Shield receives your request for an external review, your case will be referred to an external review agency to complete your external review. You (or your authorized representative) will be notified by the external review agency of your eligibility and acceptance for an external review. In some cases, the review agency may need more information about your situation. If this is the case, they will request it from Blue Cross and Blue Shield, you, or your authorized representative.

The review agency will consider all aspects of the case and send a written response of the outcome. They will send the response to you (or your authorized representative) and to Blue Cross and Blue Shield within 45 days of receiving the request. If the agency determines additional time is needed to fully and fairly evaluate the request, the agency will notify you and Blue Cross and Blue Shield of the extended review period. In the case of an expedited review, you will be notified of their decision within 72 hours. This 72-hour period starts when the external review agency receives your case.

If the review agency overturns Blue Cross and Blue Shield’s decision in whole or in part, Blue Cross and Blue Shield will send you (or your authorized representative) a notice of the review decision made by the agency. This notice will confirm the decision of the review agency. It will also tell you (a) what steps or procedures you must take (if any) to obtain the requested coverage or services; (b) the date by which Blue Cross and Blue Shield will pay for or authorize the requested services; and (c) the name and phone number of the person at Blue Cross and Blue Shield who will make sure your appeal or grievance is resolved.

The decision made by way of the external review process will be accepted as final.

You have the right to look at and get copies of records and criteria that Blue Cross and Blue Shield has and that are relevant to your appeal or grievance. These copies will be free of charge.
Appeal and Grievance Program

**Appeals Process for Rhode Island Residents or Services**

You may also have the right to appeal as described in this section when your claim is denied as being not medically necessary for you. If so, these rights are in addition to the other rights to appeal that you have as described in other parts of this benefit booklet. The following provisions apply only to:

- A member who lives in Rhode Island and that member is planning to obtain services which Blue Cross and Blue Shield has determined are not medically necessary.
- A member who lives outside of Rhode Island and that member is planning to obtain services in Rhode Island which Blue Cross and Blue Shield has determined are not medically necessary.

Blue Cross and Blue Shield decides which covered services are medically necessary for you by using its medical necessity guidelines. Some of the services that are described in this benefit booklet may not be medically necessary for you. If Blue Cross and Blue Shield has determined that a service is not medically necessary for you, you have the right to the following appeals process:

**Reconsideration**

A reconsideration is the first step in this process. If you receive a letter from Blue Cross and Blue Shield that denies payment for your health care services, you may ask that Blue Cross and Blue Shield reconsider its decision. You must do this by writing to: Member Appeal and Grievance Program, Blue Cross Blue Shield of Massachusetts, One Enterprise Drive, Quincy, MA 02171-2126. You must send your request within 180 days of Blue Cross and Blue Shield’s adverse decision. Along with your letter, you should include any information that will support your request. Blue Cross and Blue Shield will review your request. Blue Cross and Blue Shield will let you know the outcome of your request within 15 calendar days after it has received all information needed for the review.

**Appeal**

An appeal is the second step in this process. If Blue Cross and Blue Shield continues to deny coverage for all or part of the original service, you may request an appeal. You must do this within 60 days of the date that you receive the reconsideration denial letter from Blue Cross and Blue Shield. Your appeal request should include any information that supports your appeal. You may also inspect and add information to your Blue Cross and Blue Shield case file to prepare your appeal. In accordance with Rhode Island state law, if you wish to review the information in your Blue Cross and Blue Shield case file, you must make your request in writing and you must include the name of a physician who may review your case file on your behalf. Your physician may review, interpret, and disclose any or all of that information to you. Once received by Blue Cross and Blue Shield, your appeal will be reviewed by a health care provider in the same specialty as your attending provider. Blue Cross and Blue Shield will notify you of the outcome of your appeal within 15 calendar days after it has received all information needed for the appeal.

**External Appeal**

If your appeal is denied, you have the right to present your case to an appeals agency that is designated by Rhode Island and not affiliated with Blue Cross and Blue Shield. If you request this voluntary external appeal, Rhode Island requires that you pay for half of the cost of the appeal. Blue Cross and Blue Shield will pay for the remaining half. The notice you receive from Blue Cross and Blue Shield about your appeal will advise you of: the name of the appeals agency that is designated by Rhode Island; and your share of the cost for an external appeal. To file an external appeal, you must make your request in writing to: Member Appeal and Grievance Program, Blue Cross Blue Shield of Massachusetts, One Enterprise Drive, Quincy, MA 02171-2126. Along with your request, you must: state your reason(s) for your disagreement with Blue Cross and Blue Shield’s decision; and enclose a check made payable to the designated appeals agency for your share of the cost for the external appeal.

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
Within five working days after Blue Cross and Blue Shield receives your written request and payment for the appeal, Blue Cross and Blue Shield will forward your request to the external appeals agency. Blue Cross and Blue Shield will also send its portion of the fee and your entire Blue Cross and Blue Shield case file. The external appeals agency will notify you in writing of the decision within ten working days of receiving all necessary information.

**Expedited Appeal**

If your situation is an emergency, you have the right to an “expedited” appeal at all three levels of appeal as stated above. An emergency is defined as the sudden onset of a medical or mental condition that in the absence of immediate medical attention could reasonably be expected to result in placing your health or your ability to regain maximum function in serious jeopardy or, in your physician’s opinion, would result in severe pain. You may request an expedited reconsideration or appeal by calling Blue Cross and Blue Shield at the phone number shown in your letter. Blue Cross and Blue Shield will notify you of the result of your expedited appeal within two working days or 72 hours of its receipt, whichever is sooner, or such shorter time period as required by federal law. If your appeal is denied, you have the right to request an expedited external appeal. The notice you receive from Blue Cross and Blue Shield about your appeal will advise you of: the name of the appeals agency that is designated by Rhode Island; and the amount that Rhode Island requires you pay for your share of the cost for an expedited external appeal. To request an expedited external appeal, you must send your request in writing to: Member Appeal and Grievance Program, Blue Cross Blue Shield of Massachusetts, One Enterprise Drive, Quincy, MA 02171-2126. Your request should state your reason(s) for your disagreement with the decision and include signed documentation from your provider that describes the emergency nature of your treatment. In addition, you must also enclose a check made payable to the designated appeals agency for your share of the cost for the expedited external appeal.

Within two working days after the receipt of your written request and payment for the appeal, Blue Cross and Blue Shield will forward your request to the external appeals agency along with Blue Cross and Blue Shield portion of the fee and your entire Blue Cross and Blue Shield case file. The external appeals agency will notify you in writing of the decision within two working days or 72 hours, whichever is sooner, of receiving your request for a review.

**External Appeal Final Decision**

If the external appeals agency upholds the original decision of Blue Cross and Blue Shield, this completes the appeals process for your case. But, if the external appeals agency reverses Blue Cross and Blue Shield’s decision, the claim in dispute will be reprocessed by Blue Cross and Blue Shield upon receipt of the notice of the final appeal decision. In addition, Blue Cross and Blue Shield will repay you for your share of the cost for the external appeal within 60 days of the receipt of the notice of the final appeal decision.
Eligibility for Coverage

Eligibility for Group Coverage

Eligible Employee
An employee is eligible to enroll in this health plan as a subscriber as long as the employee meets the rules on length of service, active employment, and number of hours worked that the plan sponsor has set to determine eligibility for group coverage. For details, contact your plan sponsor.

Eligible Spouse
The subscriber may enroll an eligible spouse for coverage in this health plan under his or her group membership. An “eligible spouse” includes the subscriber’s legal spouse. (A legal civil union spouse, where applicable, is eligible to enroll for coverage in this health plan to the extent that a legal civil union spouse is determined eligible by the plan sponsor. For more details, contact your plan sponsor.)

Former Spouse
In the event of a divorce or a legal separation, the person who was the spouse of the subscriber prior to the divorce or legal separation will remain eligible for coverage in this health plan under the subscriber’s group membership, whether or not the judgment was entered prior to the effective date of the group coverage. This health plan coverage is provided with no additional premium other than the normal cost of covering a current spouse. The former spouse will remain eligible for this coverage only until the subscriber is no longer required by the judgment to provide health insurance for the former spouse or the subscriber or former spouse remarries, whichever comes first. In these situations, Blue Cross and Blue Shield must be notified within 30 days of a change to the former spouse’s address. Otherwise, Blue Cross and Blue Shield will not be liable for any acts or omissions due to having the former spouse’s incorrect address on file.

If the subscriber remarries, the former spouse may continue coverage in this health plan under a separate membership within the subscriber’s group, provided the divorce judgment requires that the subscriber provide health insurance for the former spouse. This is true even if the subscriber’s new spouse is not enrolled for coverage in this health plan under the subscriber’s group membership.

Domestic Partner
As determined by the plan sponsor, your group health plan may include the option to enroll an eligible domestic partner (instead of an eligible spouse) for coverage under an eligible employee’s group membership. This eligibility option applies to you only when your health plan coverage includes a domestic partner rider that describes these eligibility requirements.

A “domestic partner” is a person with whom the subscriber has entered into an exclusive relationship. This means that both the subscriber and domestic partner: are 18 years of age or older and of legal age of consent in the state where they reside; are competent to enter into a legal contract; share the same residence and must intend to continue to do so; are jointly responsible for basic living costs; are in a relationship of mutual support, caring, and commitment in which they intend to remain; are not married to anyone else; and are not related to each other by adoption or blood to a degree of closeness that would otherwise bar marriage in the state in which they live. A “domestic partner” may also include a person with whom the subscriber has registered as a domestic partner with any governmental domestic registry (whether or not all of the conditions stated above have been met).
If the subscriber enrolls an eligible domestic partner under his or her group membership, the domestic partner’s dependent children are eligible for coverage to the same extent that the subscriber’s dependent children are eligible for coverage under his or her group membership.

If the subscriber subsequently terminates the domestic partnership, an enrolled former domestic partner (and any enrolled children of a former domestic partner) may have the option to continue coverage under his or her group membership to the extent that federal law would usually apply.

**Eligible Dependents**
The subscriber may enroll eligible dependents for coverage in this health plan under his or her group membership. “Eligible dependents” include the subscriber’s (or subscriber’s spouse’s or, if applicable, subscriber’s domestic partner’s) children until the end of the calendar month in which the child turns age 26. To be an eligible dependent, a child is not required to live with the subscriber or the subscriber’s spouse (or domestic partner), be a dependent on the subscriber’s or spouse’s (or domestic partner’s) tax return, or be a full-time student. These eligible dependents may include:

- A newborn child. The effective date of coverage for a newborn child will be the child’s date of birth provided that the subscriber formally notifies the plan sponsor within 30 days of the date of birth. (A claim for a member’s maternity admission may be considered by Blue Cross and Blue Shield to be this notice when the subscriber’s coverage is a family plan.) This health plan provides coverage for newborn infants for injury and sickness. This includes the necessary care and treatment of medically diagnosed congenital defects, birth abnormalities, and premature birth. The coverage for these services is subject to all of the provisions of this health plan.

- An adopted child. The effective date of coverage for an adopted child will be the date of placement of the child with the subscriber for the purpose of adoption. The effective date of coverage for an adoptive child who has been living with the subscriber and for whom the subscriber has been getting foster care payments will be the date the petition to adopt is filed. If the subscriber is enrolled under a family plan as of the date he or she assumes custody of a child for the purpose of adoption, the child’s health care services for injury or sickness will be covered from the date of custody. (This coverage is provided without a waiting period or pre-existing condition restriction.) This includes the necessary care and treatment of medically diagnosed congenital defects, birth abnormalities, and premature birth. The coverage for these services is subject to all of the provisions of this health plan.

- A newborn infant of an enrolled dependent child immediately from the moment of birth and continuing after, until the enrolled dependent child is no longer eligible as a dependent.

If an eligible dependent child is married, the dependent child can enroll for coverage under the subscriber’s group membership. And, as long as that enrolled child is an eligible dependent, his or her children are also eligible for coverage under the subscriber’s group membership. The dependent child’s spouse is not eligible to enroll as a dependent for coverage under the subscriber’s group membership.

An eligible dependent may also include:

- A person under age 26 who is not the subscriber’s (or subscriber’s spouse’s or, if applicable, subscriber’s domestic partner’s) child but who qualifies as a dependent under the Internal Revenue Code.

- A child recognized under a Qualified Medical Child Support Order as having the right to enroll for health care coverage.

- A disabled dependent child age 26 or older. A dependent child who is mentally or physically incapable of earning his or her own living and who is enrolled under the subscriber’s group membership will continue to be covered after he or she would otherwise lose dependent eligibility under the subscriber’s group membership, so long as the child continues to be mentally or physically incapable of earning his or her own living. In this case, the subscriber must make arrangements with...
Blue Cross and Blue Shield through the plan sponsor not more than 30 days after the date the child would normally lose eligibility. Also, Blue Cross and Blue Shield must be given any medical or other information that it may need to determine if the child can maintain coverage in this health plan under the subscriber’s group membership. From time to time, Blue Cross and Blue Shield may conduct reviews that will require a statement from the attending physician. This is to confirm that the child is still an eligible disabled dependent child.

Important Reminder: The eligibility provisions for dependents that are described in this section may differ from the federal tax laws that define who may qualify as a dependent.

Enrollment Periods for Group Coverage

Initial Enrollment
You may enroll for coverage in this health plan on your initial group eligibility date. This date is determined by your plan sponsor. The plan sponsor is responsible for providing you with details about how and when you may enroll for coverage in this health plan. To enroll, you must complete the enrollment form provided by your plan sponsor no later than 30 days after your eligibility date. (For more information, contact your plan sponsor.) If you choose not to enroll for coverage in this health plan on your initial eligibility date, you may enroll only during your group’s open enrollment period or within 30 days of a special enrollment event as provided by federal law.

Special Enrollment
If an eligible employee or an eligible dependent (including the employee’s spouse) chooses not to enroll for coverage in this health plan on his or her initial group eligibility date, federal law may allow the eligible employee and/or his or her eligible dependents to enroll for group coverage when:

- The employee and/or his or her eligible dependents have a loss of other coverage (see “Loss of Other Qualified Coverage” below for more information); or
- The employee gains a new eligible dependent (see “New Dependents” below for more information); or
- The employee and/or his or her eligible dependent become eligible for assistance under a Medicaid plan or a state Children’s Health Insurance Program plan.

These rights are known as your “special enrollment rights.” There may be additional special enrollment rights as a result of changes required by federal law. For example, these changes may include special enrollment rights for: individuals who are newly eligible for coverage as a result of changes to dependent eligibility; and/or individuals who are newly eligible for coverage as a result of the elimination of a lifetime maximum.

Loss of Other Qualified Coverage
An eligible employee may choose not to enroll himself or herself or an eligible dependent (including a spouse) for coverage in this health plan on the initial group eligibility date because he or she or the eligible dependent has other health plan coverage as defined by federal law. (This is referred to as “qualified” coverage.) In this case, the employee and the eligible dependent may enroll for group coverage if the employee or the eligible dependent at a later date loses that other qualified health plan coverage due to any one of the following reasons.

- The employee or the eligible dependents (including a spouse) cease to be eligible for the other qualified health plan. For example, this could mean that the loss of the other qualified health plan was due to: the loss of the spouse’s coverage; the death of the spouse; divorce; loss of dependent status; or involuntary termination. This includes when an employee or eligible dependent is covered under a
Medicaid plan or a state Children’s Health Insurance Program plan and coverage is terminated as a result of loss of eligibility for that coverage.

- The employer that is sponsoring the other qualified group health plan coverage ceases to make employer contributions for the other group health plan coverage.
- The employee or the eligible dependents (including a spouse) exhaust their continuation of group coverage under the other qualified group health plan.
- The prior qualified health plan was terminated due to the insolvency of the health plan carrier.

**Important Note:** You will **not** have this special enrollment right if the loss of other health plan coverage is a result of the eligible employee or the subscriber or the eligible dependent’s failure to pay the applicable premiums.

**New Dependents**

If an eligible employee gains a new spouse or other new eligible dependent(s) due to marriage, adoption, placement for adoption, or birth, the employee and the spouse and/or the new dependent(s) may enroll for coverage in this health plan. (If the new dependent is gained by birth, adoption, or placement for adoption, enrollment will be retroactive to the date of birth or the date of adoption or the date of placement for adoption, provided that the enrollment time requirements described below are met.)

**Special Enrollment Time Requirement**

To exercise your special enrollment rights, you must notify your plan sponsor no later than 30 days after the date when any one of the following situations occur: the date on which the loss of your other coverage occurs or the date on which the subscriber gains a new dependent; or the date on which the subscriber receives notice that a dependent child who was not previously eligible is newly eligible for coverage as a result of changes to dependent eligibility; or the date on which you receive notice that you are newly eligible for coverage as a result of the elimination of a lifetime maximum. For example, if your coverage under another health plan is terminated, you must request enrollment for coverage in this health plan within 30 days after your other health care coverage ends. Upon request, the plan sponsor will send you any special forms you may need. If you do not request enrollment within 30 days, you will have to wait until the group’s next open enrollment period to enroll for group coverage. You also have special enrollment rights related to termination of coverage under a state Children’s Health Insurance Program plan or a Medicaid plan or eligibility for assistance under a Medicaid plan or a state Children’s Health Insurance Program plan. When this situation applies, you must notify your plan sponsor to request coverage no later than 60 days after the coverage terminates or the employee or eligible dependent is determined to be eligible for assistance.

**Qualified Medical Child Support Order**

If the subscriber chooses not to enroll an eligible dependent for coverage in this health plan on the initial group eligibility date, the subscriber may be required by law to enroll the dependent if the subscriber is subject to a Qualified Medical Child Support Order (QMCSO). This QMCSO order is a state court or administrative agency order that requires an employer’s group to provide coverage to the child of an employee who is covered, or eligible to enroll for group coverage, in this health plan.

**Open Enrollment Period**

If you choose not to enroll for coverage in this health plan within 30 days of your initial group eligibility date, you may enroll during your group’s open enrollment period. The open enrollment period is the time each year during which eligible persons may enroll for or change coverage for the next year. The open enrollment period is announced by the group to all eligible employees. To enroll for coverage in this health plan during this enrollment period, you must complete the enrollment form provided in the group’s enrollment packet and return it to the group no later than the date specified in the group’s enrollment packet.
Other Membership Changes
Generally, the subscriber may make membership changes (for example, change from a subscriber only plan to a family plan) only if the subscriber has a change in family status. This includes a change such as: marriage or divorce; birth, adoption, or change in custody of a child; death of an enrolled spouse or dependent; or the loss of an enrolled dependent’s eligibility under the subscriber’s group membership. If you want to ask for a membership change or you need to change your name or mailing address, you should call or write to your plan sponsor. The plan sponsor will send you any special forms that you may need. You must request the change within the time period required by the subscriber’s group to make a change. If you do not make the change within the required time period, you will have to wait until the group’s next open enrollment period to make the change. All changes are allowed only when they comply with the eligibility and enrollment rules set by the plan sponsor for your group coverage and they comply with the conditions outlined in this benefit booklet.
Part 12

Termination of Coverage

Loss of Eligibility for Group Coverage
When your eligibility for group coverage ends, your coverage in this health plan will be terminated as of the date you lose eligibility (subject to the continuation of coverage provisions described on page 86). You will not be eligible for coverage in this health plan when any one of the following situations occurs.

- **Subscriber’s Group Eligibility Ends.** Your coverage in this health plan will end when the subscriber loses eligibility for the group’s health care coverage. This means: the subscriber’s hours are reduced; or the subscriber leaves the job; or the subscriber no longer meets the rules that are set by the group for group coverage. (You will also lose eligibility for group coverage if you are an enrolled dependent when the subscriber dies.)

- **Your Dependent Status Ends.** Your coverage in this health plan will end when you lose your status as a dependent under the subscriber’s group membership. In this case, you may be able to enroll in a Blue Cross and Blue Shield health plan or a health plan offered by Blue Cross and Blue Shield of Massachusetts HMO Blue, Inc. For help, you can call the Blue Cross and Blue Shield customer service office. They will tell you which health plans are available to you.

- **You Turn Age 65 and Become Eligible for Medicare.** Your coverage in this health plan will end when you reach age 65 and become eligible for Medicare (Part A and Part B). However, as allowed by federal law, the subscriber (and the spouse and/or dependents) may have the option of continuing coverage in this health plan when the subscriber remains as an actively working employee after reaching age 65. You should review all options available to you with the plan sponsor. (Medicare eligible subscribers who retire and/or their spouses are not eligible to continue coverage in this health plan once they reach age 65.)

- **Your Group Cancels This Health Plan.** Your coverage in this health plan will end when the group terminates (or does not renew) this health plan.

Termination of Group Coverage
Your coverage in this health plan will not be canceled because you are using your coverage or because you will need more covered services in the future. Your coverage in this health plan will be canceled only when one of the following situations occurs.

- **You Voluntarily Cancel.** Your coverage in this health plan will be canceled when the subscriber chooses to cancel his or her group membership as permitted by the plan sponsor.

- **You Commit Misrepresentation or Fraud.** Your coverage in this health plan will be canceled, or in some cases Blue Cross and Blue Shield may limit your benefits, if you have committed misrepresentation or fraud. For example, you gave false or misleading information on the enrollment form. Or, you misused your ID card by letting another person who was not enrolled in this health plan attempt to get coverage. Your coverage in this health plan may be terminated when the fraud or misrepresentation is discovered or, as permitted by law, back to your effective date or the date of the
misrepresentation or fraud. Your coverage in this health plan may be terminated retroactive to a date in the past (rather than on a current or future date) only if you committed fraud or made an intentional misrepresentation of a material fact. The termination date will be determined by Blue Cross and Blue Shield.

- **You Commit Acts of Physical or Verbal Abuse.** Your coverage in this health plan will be canceled if you commit acts of physical or verbal abuse that pose a threat to, or a threat to the health of, health care providers or other members or employees of Blue Cross and Blue Shield or Blue Cross and Blue Shield of Massachusetts HMO Blue, Inc., and these acts are not related to your physical condition or mental condition.

- **You Fail to Comply with Plan Provisions.** Your coverage in this health plan will be canceled if you fail to comply in a material way with any provision of this health plan. For example, if you fail to provide information that Blue Cross and Blue Shield requests related to your coverage in this health plan, Blue Cross and Blue Shield may terminate your coverage.
Part 13

Continuation of Coverage

Family and Medical Leave Act
An employee may continue coverage in this health plan as provided by the Family and Medical Leave Act. The Family and Medical Leave Act will generally apply to you if your group has 50 or more employees. For more information, contact your plan sponsor. If the employee chooses to continue group coverage during a qualifying leave, the employee will be given the same health care benefits that would have been provided if the employee were working, with the same premium contribution ratio. If the employee’s premium for continued coverage under the group plan is more than 30 days late, the plan sponsor will send written notice to the employee. It will tell the employee that his or her coverage will be terminated. It will also give the date of the termination if payment is not received by that date. This notice will be mailed at least 15 days before the termination date.

If coverage in this health plan under the group plan is discontinued due to non-payment of premium, the employee’s coverage will be restored when he or she returns to work to the same level of benefits as those the employee would have had if the leave had not been taken and the premium payment(s) had not been missed. This includes coverage for eligible dependents. The employee will not be required to meet any qualification requirements imposed by the group when he or she returns to work. This includes: new or additional waiting periods; waiting for an open enrollment period; or passing a medical exam to reinstate coverage. You should contact your plan sponsor with any questions that you may have about your coverage during a leave of absence.

Continuation of Group Coverage under Federal Law
When you are no longer eligible for coverage in this health plan under a group plan, you may be eligible to continue group coverage as provided by the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). To continue this group coverage, you may be required to pay up to 102% of the premium cost. These laws apply to you if you lose eligibility for coverage due to one of the following reasons.

- Termination of employment (for reasons other than gross misconduct).
- Reduction of work hours.
- Divorce or legal separation. (In the event of divorce or legal separation, a spouse is eligible to keep coverage in this health plan under the employee’s group plan. This is the case only until the employee is no longer required by law to provide health insurance for the former spouse or the employee or former spouse remarries, whichever comes first. The former spouse’s eligibility for continued group coverage will start on the date of divorce, even if he or she continues coverage under the employee’s group plan. While the former spouse continues coverage under the employee’s group plan, there is no additional premium. After remarriage, under state and federal law, the former spouse may be eligible to continue group coverage in this health plan under a separate group plan for additional premium.)
- Death of the subscriber.
- Subscriber’s entitlement to Medicare benefits.
- Loss of status as an eligible dependent.

The period of this continued group coverage begins with the date of your qualifying event. And, the length of this continued group coverage will be up to 36 months from that qualifying event. This is true except for termination of employment or reduction of work hours, in which cases continued group coverage is

WORDS IN ITALICS ARE EXPLAINED IN PART 2.
available for only 18 months or, if you are qualified for disability under Title II or Title XVI of the Social Security Act, up to 29 months. (See below for more information about continued coverage for disabled employees.) You should contact your **plan sponsor** for more help about continued coverage.

**Important Note:** When a subscriber’s legal same-sex spouse or domestic partner is no longer eligible for coverage under the *group* plan, that spouse (or if it applies, that civil union spouse or domestic partner) and his or her dependents may continue coverage in the subscriber’s *group* to the same extent that a legal opposite-sex spouse (and his or her dependents) could continue coverage upon loss of eligibility for coverage under the *group* plan.

**Additional Continued Coverage for Disabled Employees**

Within 60 days of the employee’s termination of employment or reduction in hours, if an employee or his or her eligible dependent is determined to be disabled under Title II or Title XVI of the Social Security Act, continued *group* coverage will be available for up to 29 months from the date of the qualifying event. The premium cost for the additional 11 months may be up to 150% of the premium rate. If during these 11 months eligibility for disability is lost, *group* coverage may cancel before the 29 months is completed. You should contact your **plan sponsor** for more help about continued coverage.

**Special Rules for Retired Employees**

A retired employee, the spouse, and/or eligible dependent children of a retired employee or a surviving spouse of a retired deceased employee who loses eligibility for coverage in this health plan under the *group* plan as a result of a bankruptcy proceeding (Title 11 of the United States Code) is also eligible to continue *group* coverage as provided by COBRA. A retired employee and/or the surviving spouse of a deceased retired employee may enroll for lifetime continued *group* coverage as of the date of the bankruptcy proceeding, provided that the loss of *group* eligibility occurs within one year before the date on which the bankruptcy proceeding begins. Or, if *group* eligibility is lost within one year after the date on which the bankruptcy proceeding begins, they may enroll for lifetime continued *group* coverage as of the date *group* eligibility is lost. Spouses and/or eligible dependents of these retired employees may enroll for continued *group* coverage until the retired employee dies. Once the retired employee dies, his or her surviving spouse and/or eligible dependents may enroll for up to an additional 36 months of continued *group* coverage beyond the date of the retired employee’s death.

Lifetime continued coverage in this health plan for retired employees will end if the *group* cancels its agreement with *Blue Cross and Blue Shield* to provide its *group* members with coverage in this health plan or for any of the other reasons described below. (See “Termination of Continued Group Coverage.”)

**Enrollment for Continued Group Coverage**

In order to enroll for continued *group* coverage in this health plan, you must complete an Election Form. The completed election form must be returned to the office at the address on the form. The form must be returned within 60 days from your date of termination of *group* coverage or your notification of eligibility, whichever is later. If you do not return the completed form, it will be considered a waiver. And, you will not be allowed to continue coverage in this health plan under a *group* plan. (The 60 days will be counted from the date of the eligibility notice to the postmarked date of the mailed election form.)

**Termination of Continued Group Coverage**

Your continued *group* coverage will end when:

- The length of time allowed for continued *group* coverage is reached (for example, 18 months or 29 months or 36 months from the qualifying event).
- You fail to make timely payment of your premiums.

**WORDS IN ITALICS ARE EXPLAINED IN PART 2.**
You enroll in another employer sponsored health plan and that plan does not include pre-existing condition limitations or waiting periods.

You become entitled to Medicare benefits.

You are no longer disabled (if your continued group coverage had been extended because of disability).

The group terminates its agreement with Blue Cross and Blue Shield to provide its group members with access to health care services and benefits under this health plan. In this case, health care coverage may continue under another health plan. Contact your plan sponsor or Blue Cross and Blue Shield for more information.
Rider

Domestic Partner Eligibility

This rider modifies the terms of your health plan. Please keep this rider with your Benefit Description for easy reference.

The eligibility provisions described in your Benefit Description have been changed.

A subscriber may enroll a domestic partner for coverage under his or her membership. A “domestic partner” is a person of the same sex as the subscriber and with whom the subscriber has entered into an exclusive relationship. This means that both the subscriber and domestic partner: are 18 years of age or older and of legal age of consent; are competent to enter into a legal contract; share the same residence and must intend to continue to do so; are jointly responsible for basic living costs; are in a relationship of mutual support, caring, and commitment in which they intend to remain; are not married to anyone else; and are not related to each other by adoption or blood to a degree of closeness that would otherwise bar marriage in the state in which they live. A “domestic partner” may also include a person with whom the subscriber has registered as a domestic partner with any governmental domestic registry (whether or not all of the conditions stated above have been met).

If the subscriber enrolls the domestic partner in his or her health plan, the domestic partner’s dependent children are eligible for coverage to the same extent that the subscriber’s dependent children are eligible for coverage in his or her health plan.

(A domestic partner and an eligible spouse may not be enrolled under the same membership at the same time.)

If the subscriber terminates the domestic partnership, the former domestic partner (and any enrolled children of the former domestic partner) may continue coverage in the subscriber’s health plan. They may do so to the extent that federal or state law would usually apply.

All other provisions remain as described in your Benefit Description.
Rider

Telehealth Services

This *rider* modifies the terms of your health plan. Please keep this *rider* with your Benefit Description for easy reference.

The *outpatient* benefits described in your Benefit Description have been changed to include coverage for telehealth services.

This health plan also covers certain health care services you receive from an approved telehealth physician or practitioner using a telecommunications system. The telehealth provider will use an audio and video telecommunications system that permits a two-way, real-time communication between you and your health care provider. These telehealth services are available when you prefer not to go to a physician’s office or a health facility for an in-person visit for any reason. You may see a telehealth provider online or by mobile device when you need care for a minor illness or injury such as a cough, a sore throat, or a fever; or when you need care for a chronic condition; or when you need care for conditions or symptoms such as anxiety and depression; or you have a general health and wellness concern. To receive in-network benefits, you must use an approved telehealth provider that has a PPO payment agreement for your health plan. Your in-network cost share (such as *deductible*, *copayment*, and/or *coinsurance*) is the same as the lowest cost share level that applies for a physician’s office visit.

Or, if you use an approved telehealth provider that does not have a PPO payment agreement for your health plan, you will pay the out-of-network cost share that applies for physicians’ office visits. **To find a telehealth provider that is approved by your health plan, you can look in your provider directory. Or, you can call the Blue Cross and Blue Shield customer service office for help at the toll-free number shown on your health plan ID card.**

No *benefits* are provided for telehealth services furnished by a physician or other health care provider that is not approved as a telehealth provider for your health plan.

All other provisions remain as described in your Benefit Description.
Wellness Participation Program

Under this Wellness Participation Program, you may be reimbursed for some fees you pay to participate in qualified fitness programs and/or weight loss programs.

Fitness Reimbursement

Blue Cross Blue Shield of Massachusetts will reimburse you up to $150 each calendar year for costs you pay to participate in a qualified fitness program. You can claim this fitness reimbursement for fees paid by any combination of members (such as the subscriber, spouse, and/or dependent children) enrolled under the same Blue Cross Blue Shield of Massachusetts health plan. A qualified fitness program is either: a full service health club where you use a variety of cardiovascular and strength-training equipment for fitness; or, a fitness studio where you take instructor-led group classes for cardiovascular and strength-training such as yoga, pilates, zumba, kickboxing, cross-fit, and indoor cycling/spinning.

No reimbursement will be provided for any initiation fees or fees or costs you pay for: personal training sessions; country clubs; social clubs (such as ski, tennis, or hiking clubs); sports camps, leagues, or teams; spas; instructional dance studios; pool-only facilities; ski passes; and martial arts schools.

Weight Loss Program Reimbursement

Blue Cross Blue Shield of Massachusetts will reimburse you up to $150 each calendar year for costs you pay to participate in a qualified weight loss program. You can claim this weight loss program reimbursement for fees paid by any combination of members (such as the subscriber, spouse, and/or dependent children) enrolled under the same Blue Cross Blue Shield of Massachusetts health plan. A qualified weight loss program is a hospital-based or a non-hospital-based weight loss program that focuses on weight loss by modifying eating and physical activity habits and that requires participation in behavioral/lifestyle counseling with nutritionists, registered dieticians, exercise physiologists or other certified health professionals in multiple sessions throughout enrollment in the program. Program delivery and counseling may be in-person, over the phone, or online.

No reimbursement will be provided for any fees or costs you pay for: weight loss programs that do not include sessions with a health professional to support progress toward your weight loss goals; individual nutrition counseling sessions; pre-packaged meals; books; videos; scales; or, other weight loss related items or supplies.

How to Claim Your Reimbursement

To be reimbursed for participation in a qualified wellness program, you must submit your reimbursement request to Blue Cross Blue Shield of Massachusetts no later than March 31st after the year for which you are claiming your reimbursement. To request your reimbursement, you must:

- Fill out a fitness program/weight loss program reimbursement claim form.
- Follow the instructions to submit the completed claim to Blue Cross Blue Shield of Massachusetts.

To get a claim form, log on to the Blue Cross Blue Shield of Massachusetts Web site at www.bluecrossma.com. Be sure to keep your original itemized and paid receipts for qualified fees in the event that Blue Cross Blue Shield of Massachusetts asks you for them.

Important Note: Your Blue Cross Blue Shield of Massachusetts health plan does not include health benefits for costs related to activities such as fitness or weight loss programs. This separate Wellness Participation Program offers reimbursement for participation in qualified wellness programs.
Schedule of Benefits

Blue Care® Elect
Deductible

This is the Schedule of Benefits that is a part of your Benefit Description. This chart describes the cost share amounts that you will have to pay for covered services. It also shows the benefit limits that apply for covered services. Do not rely on this chart alone. Be sure to read all parts of your Benefit Description to understand the requirements you must follow to receive all of your coverage. You should also read the descriptions of covered services and the limitations and exclusions that apply for this coverage. All words that show in italics are explained in Part 2. To receive the highest level of coverage, you must obtain your health care services and supplies from covered providers who participate in your health plan’s provider network. Also, for some health care services, you may have to have an approved referral from your primary care provider or approval from your health plan in order for you to receive coverage from your health plan. These requirements are fully outlined in Part 4. If a referral or an approval is required, you should make sure that you have it before you receive your health care service. Otherwise, you may have to pay all costs for the health care service.

Your health plan’s provider network is the PPO provider network. See Part 1 for information about how to find a provider in your health care network.

The following definitions will help you understand your cost share amounts and how they are calculated.

- A deductible is the cost you may have to pay for certain covered services you receive during your annual coverage period before benefits are paid by the health plan. This chart shows the dollar amount of your deductible and the covered services for which you must first pay the deductible.
- A copayment is the fixed dollar amount you may have to pay for a covered service, usually when you receive the covered service. This chart shows the times when you will have to pay a copayment.
- A coinsurance is the percentage (for example, 20%) you may have to pay for a covered service. This chart shows the times, if there are any, when you will have to pay coinsurance.

Your cost share will be calculated based on the allowed charge or the provider’s actual charge if it is less than the allowed charge. You will not have to pay charges that are more than the allowed charge when you use a covered provider who participates in your health care network to furnish covered services. But, when you use an out-of-network provider, you may also have to pay all charges that are in excess of the allowed charge for covered services. This is called “balance billing.” These balance billed charges are in addition to the cost share you have to pay for covered services. (Exceptions to this paragraph are explained in Part 2.)

IMPORTANT NOTE: The provisions described in this Schedule of Benefits may change. If this happens, the change is described in a rider. Be sure to read each rider (if there are any) that applies to your coverage in this health plan to see if it changes this Schedule of Benefits.

The explanation of any special provisions as noted by an asterisk can be found after this chart.
## Overall Member Cost Share Provisions

Rider

Colonoscopies

This *rider* modifies the terms of your health plan. Please keep this *rider* with your Benefit Description for easy reference.

The cost share amount you pay for in-network *outpatient medically necessary* colonoscopies as shown in your Schedule of Benefits has been changed as follows:

Any in-network *copayment, deductible and/or coinsurance* that you would normally pay for *outpatient medically necessary* colonoscopies has been eliminated. For these *covered services*, you will pay nothing.

All other provisions remain as described in your Benefit Description.
Rider

Diabetes Management

This rider modifies the terms of your health plan. Please keep this rider with your Benefit Description for easy reference.

The outpatient benefits described in your Benefit Description have been changed.

Full in-network benefits based on the allowed charge are provided for your first two outpatient office visits in each calendar year for diabetes evaluation and management services, diabetic eye exams, and/or diabetic foot care. (Any copayment, deductible, and/or coinsurance is waived for these covered services.)

All other provisions remain as described in your Benefit Description.
This *rider* modifies the terms of your health plan. Please keep this *rider* with your Benefit Description for easy reference.

The *deductible* amount as shown in your *Schedule of Benefits* has been changed as follows:

Your *deductible* per *plan year* is: $500 per *member*  
$1,000 per *family*

Refer to your *Schedule of Benefits* (and, if applicable, other *riders* that are part of your health plan) for a description of *covered services* for which the *deductible* applies.

All other provisions remain as described in your Benefit Description.
This rider modifies the terms of your health plan. Please keep this rider with your Benefit Description for easy reference.

The covered services for which you pay an overall deductible as described in your Schedule of Benefits have been changed.

The overall deductible does not apply to outpatient covered services for which you must pay a copayment per visit other than for those services described in the note below.

Note: This rider does not change the cost share amount you will pay for: emergency room visits; diagnostic tests (such as lab tests, x-rays, advanced imaging tests, and other diagnostic tests); prescription drugs and supplies; and outpatient day surgery.

All other provisions remain as described in your Benefit Description.
Rider

Emergency Room Copayment

This rider modifies the terms of your health plan. Please keep this rider with your Benefit Description for easy reference.

The cost share amount you pay for emergency room visits as shown in your Schedule of Benefits has been changed as follows:

You will pay a $100 copayment per visit to the emergency room of a hospital. This copayment will be waived if you are held for observation or if you are admitted as an inpatient within 24 hours.

Important Note: If your Schedule of Benefits shows a deductible and/or coinsurance for emergency room visits, you only have to pay the copayment. For emergency room visits, the deductible and/or coinsurance will not apply.

All other provisions remain as described in your Benefit Description.
Rider

Outpatient Copayment

This rider modifies the terms of your health plan. Please keep this rider with your Benefit Description for easy reference.

The copayment amount you pay for outpatient covered services (other than those described in the note below) has been changed from the copayment amount shown in your Schedule of Benefits to a $30 copayment per visit. Refer to your Schedule of Benefits for a description of the covered services for which this copayment applies.

Note: This rider does not change the cost share amount you will pay for: emergency room visits; diagnostic tests (such as lab tests, x-rays, advanced imaging tests, and other diagnostic tests); prescription drugs and supplies; and outpatient day surgery.

All other provisions remain as described in your Benefit Description.
Rider

Out-of-Pocket Maximum

This *rider* modifies the terms of your health plan. Please keep this *rider* with your Benefit Description for easy reference.

The *out-of-pocket maximum* as shown in your *Schedule of Benefits* has been changed as follows:

<td></td>
</tr>
</tbody>
</table>

All other provisions remain as described in your Benefit Description.
This *rider* modifies the terms of your health plan. Please keep this *rider* with your Benefit Description for easy reference.

Your cost share amount for covered drugs and supplies you buy from a covered pharmacy is:

- **Retail Pharmacy** (30-day supply):
  - Tier 1 (generic): $10 *copayment*
  - Tier 2 (preferred brand): $25 *copayment*
  - Tier 3 (non-preferred): $45 *copayment*

- **Mail Service Pharmacy** (90-day supply):
  - Tier 1 (generic): $20 *copayment*
  - Tier 2 (preferred brand): $50 *copayment*
  - Tier 3 (non-preferred): $90 *copayment*

**Note:** Refer to your Benefit Description for the times when your cost share for covered drugs and supplies may be waived.

All other provisions remain as described in your Benefit Description.
Rider

Value-Based Prescription Drug Benefits

This rider modifies the terms of your health plan. Please keep this rider with your Benefit Description for easy reference.

1. **Smoking Cessation Drugs.** Your cost share is waived for Tier 1 and Tier 2 smoking cessation drugs and aids you buy from a covered retail pharmacy or from the covered mail service pharmacy. For these value drugs, you pay nothing.

2. **Mail Service Pharmacy Value Drugs.** Your cost share amount for a covered value drug may be lower than what you would normally pay for covered drugs you buy from the mail service pharmacy. A “value drug” is commonly prescribed for members with certain chronic conditions to prevent or avoid developing more serious health problems. These conditions are asthma, diabetes, and coronary artery disease, including depression associated with any of these conditions. To obtain the list of covered value drugs, you can call the Blue Cross and Blue Shield customer service office. The toll-free phone number is shown on your ID card. Or, you may log on to the Blue Cross and Blue Shield internet Web site at www.bluecrossma.com. This list of value drugs may change from time to time. Please check for updates.

   Your cost share amount for a covered value drug supply (90-day) is:
   - Tier 1 (generic): $10 copayment
   - Tier 2 (preferred brand): $25 copayment
   - Tier 3 (non-preferred): $90 copayment

   If your health plan has an overall deductible or a separate drug deductible, it will not apply to the covered services described in this rider.

   IMPORTANT NOTE: This rider does not change the cost share amount that you will pay for all other covered drugs and supplies. Refer to your Benefit Description for your cost share amount for other covered drugs and supplies and for the times when the cost share for certain covered drugs and supplies will be waived. If your health plan includes another rider that changes your prescription drug benefits, those prescription drug benefits apply for covered drugs for all other conditions.

   All other provisions remain as described in Benefit Description.
Rider
Routine Vision Exams

This rider modifies the terms of your health plan. Please keep this rider with your Benefit Description for easy reference.

The outpatient benefits described in your Benefit Description for routine vision exams have been changed.

Your health plan covers one routine vision exam per member per calendar year.

All other provisions remain as described in your Benefit Description.
Rider

Hearing Aids and Related Services

This rider modifies the terms of your health plan. Please keep this rider with your Benefit Description for easy reference.

The outpatient benefits as described in your Benefit Description have been changed by adding coverage for hearing aids and related services for members age 21 and younger.

This health plan covers hearing aids and covered services related to a covered hearing aid when the covered services are furnished by a covered provider, such as a licensed audiologist or licensed hearing instrument specialist, for a member age 21 or younger (from birth through age 21). These covered services include: the initial hearing aid evaluation; one hearing aid for each hearing-impaired ear; fitting and adjustments of the hearing aid; and supplies such as (but not limited to) ear molds. Your coverage for the hearing aid device itself is limited to $2,000 for one hearing aid for each hearing-impaired ear every 36 months. If you choose a hearing aid device that costs more than this $2,000 benefit limit, you will have to pay the balance of the cost of the device that is in excess of the benefit limit. (This benefit limit does not apply for any covered services related to the hearing aid.) No benefits are provided for replacement hearing aid batteries.

For these covered services, your cost share amount for in-network benefits (deductible, copayment, and coinsurance, whichever applies) is waived. For out-of-network benefits, you must pay the deductible and coinsurance that normally applies for out-of-network benefits for routine hearing care services.

No benefits are provided for hearing aids delivered more than 60 days after your termination date in this health plan, even if the hearing aid was prescribed while you were covered by the health plan.

All other provisions remain as described in your Benefit Description.
