Join us for a Performance Development Design Thinking Experiment

Wednesday, November 6th, 2pm - 6 pm
Thursday, November 7th, 10 am - 2 pm

Location: Goodrich 207 Resource Room
(former Upper Dance Studio)

Join us in an interactive design thinking experiment to gather some rapid input on performance development. Engage in activities to provide input on

- competencies,
- timeline,
- the performance review template, and
- dialog with campus colleagues about the future of performance development at Williams.

This is the first step to gathering feedback from the community to design new prototypes.

No registration or sign-ups necessary, drop in any time during the 2 half-day sessions.

Bring a colleague and go on this adventure together!
